Case Management Software

Smart tools equal better outcomes

Our software-based technology provides unparalleled visibility into client goals and progress. Automated data collection and analysis empower you to make informed decisions and elevate client success.

Hardware Free Monitoring

Hardware and maintenance free

For discreet, continuous monitoring, our Participant App's HardwareFreeEM™ feature eliminates the need for wearable devices, providing 24/7 monitoring without the stigma. Simply ensure the smartphone is charged, and let the app do the rest.

Learning Lab LMS™

For a more complete continuum of care

A comprehensive platform to support individuals on their recovery journey. Access a wealth of resources, including health content, cognitive tools, and life skills courses. Use this tool to empower recovery one step at a time.

Case Management Services

Leave client management to us

Reconnect E-Staff is your client management partner; an extension of your staff resources. We allow you to focus on client outcomes without the daily workload of managing each client's program progress.

Client Mobile App

Automation that works for you

Reconnect's Client Mobile App provides personalized daily tasks for clients, while our management system centralizes communication, engagement, and accountability for staff. Our innovative platform will empower your clients and simplify your workload.

Custom Software Solutions

Solving your unique software challenges

Let's build a custom software solution to maximize efficiency, security, and sustainability. We'll partner with you to create long-term value.

Smartphone Leasing

Lease individually or in bulk

Reconnect offers smartphone leasing when clients don't have a phone. These easy-to-use Android smartphones come ready to use right out of the box with the Participant App conveniently preinstalled.

Substance Testing Programs

Easy, accurate & affordable

Our affordable, easy-to-use testing supplies deliver accurate results, directly integrated into our Case Management system for efficient data analysis. You get cost-effective, efficient testing to assist in making informed decisions.
