Notes:

- Corner Connectors are structural vertical columns to provide an angled transition between Structural Walls.
- Corner Connectors should be specified at the same height as the shortest adjoining structural wall.
- The Corner Connector Style Options section shows the price adder for each style offered.
- If the wall height changes at the corner connector (i.e. a 54" wall to a 42" wall), specify appropriate number of Single-Tier Adder End Caps
- Corner Connecters include all necessary face panels and top caps.
- 30" High wall sections do not include Fabric

Notes:

- **End Panels** match the "Case Finish" selection and are used to support work surfaces at the end of a run or workstation. Specify Left or Right hand.
- **Handed Support Legs** are used to support fixed work surfaces at a transition to an adjustable height workstation. Specify Left or Right hand.
- **Shared Support Legs** are used to support fixed work surfaces that span across multiple wall sections where floor contact is required.
- **Shared Support Gussets** are used to support fixed work surfaces that span across multiple wall sections where floor contact is not required.
- **Unhanded Support Gussets** are used to support fixed work surfaces that are adjacent to and perpendicular to a linear sit-stand.
- Depth is Nominal and refers to the work surface depth. Actual support depth varies by type.
- Handed Support Legs are 1.5" thick. Shared Support Legs and Gussets are 3" thick and mount to 2 adjoining walls.
- Support Legs and Support Gussets have a black finish to blend with the structural wall frames
- Rotating Resource support has a black laminate finish

Notes:

Inside Access Panels cover the Structural Wall on the user side

Specify Inside Access Panels for any fixed height console wall sections not covered by storage units

To determine Inside Access Panel length:

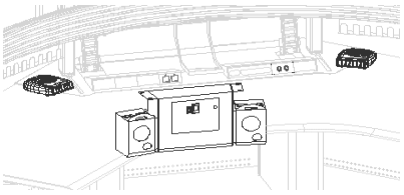

1: Choose Full-Length, Single-Support or Double-Support configuration

2: Calculate nominal length by subtracting storage pedestals from the nominal structural wall length

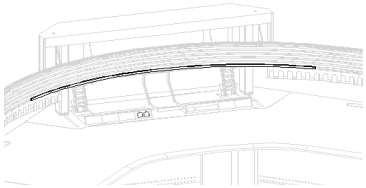

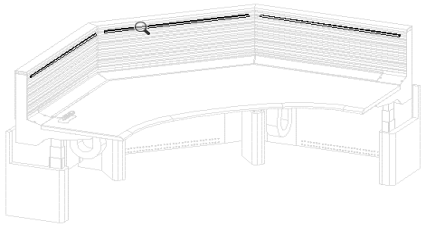

3: Find the appropriate nominal size in the correct configuration section above

Inside Access Panels are powder coated with a matte black to match the structural wall frames
