

REQUEST FOR PROPOSALS FOR
ELECTRONIC MONITORING PRODUCTS AND SERVICES

Issued by the State of Connecticut
Solicitation Number 22PSX0021

Exhibit B. Cost Proposal and Narrative for Category 4. Value-Added Technology and Services.

Value-Added Technology and Services:

1.0	In connection with your technical proposal response for category 4. Proposer shall provide a value and cost narrative for all value added technology and services proposed. This narrative must be accompanied by all proposed pricing.	SCRAM Ally, our victim notification mobile application, provides notification to a victim or protected party when a SCRAM GPS offender is in proximity, has entered a location that the victim deems important (e.g., home or work), is no longer being monitored, tampers with the device, or engages in other actions that warrant notification. The app works in conjunction with SCRAM GPS to ensure both the victim and the supervising authorities are notified. Price includes 24/7 support, training, account management and support, implementation, and transition costs. <table><tr><th colspan="2">SCRAM Ally Victim Mobile Application</th></tr><tr><th>Tier</th><th>Price Per Day</th></tr><tr><td>0-49</td><td>\$1.00</td></tr><tr><td>50-149</td><td>\$0.96</td></tr><tr><td>150-499</td><td>\$0.92</td></tr><tr><td>500+</td><td>\$0.85</td></tr></table> Value. The SCRAM Ally Victim Notification mobile app works in conjunction with SCRAM GPS to ensure that when a GPS client is in proximity to the victim's phone, both the victim and the supervising authorities are notified. The victim is not required to carry a GPS device but instead installs the Ally app onto their own Apple or Android smartphone. The app allows location data to be sent to the SCRAM GPS server and identifies if the GPS client enters prohibited proximity zones. SCRAM Ally may help provide peace of mind for the victim and gives officers additional insight into the location and actions of clients from their high-risk, domestic violence, and sex and violent offender caseloads. Features and benefits include: Reliable and accurate victim location information using GPS, Wi-Fi, and the smartphone's location services	SCRAM Ally Victim Mobile Application		Tier	Price Per Day	0-49	\$1.00	50-149	\$0.96	150-499	\$0.92	500+	\$0.85

0-49	\$1.00													
50-149	\$0.96													
150-499	\$0.92													
500+	\$0.85													

		• Proximity alerts to the victim via email, text, or push notification. • Ability to send the victim additional notifications like low battery, tamper alerts, or zone violations. • Configurable victim mobile zone radius. • The system is secure and private—only correlating location information to the designated GPS offender. It will not permanently store any victim location tracking information. • Panic button calls 911 or custom emergency number. • Proximity display allows officers to compare offender and victim locations. • Tracking automatically reverts to Pursuit Mode if victim zone is breached or panic alert is activated. • Easily installed on the victim's personal phone—no separate device needed that can be forgotten, lost, or needs charged. Available on both Android and iOS platforms.
