

Modern IT. Trusted Delivery. Mission-Focused.

vTech Solution, Inc. is a certified small business and awarded vendor under the NASPO Cloud and Software Solutions Master Agreement, delivering secure, scalable, and **NIST-aligned** SaaS, IaaS, PaaS, and **on-premises** solutions to **state and local government agencies**. We support public sector modernization through compliant deployment models including **private, public, community, and hybrid** environments while ensuring regulatory alignment and cybersecurity resilience.

Through a comprehensive multi-cloud portfolio spanning AWS, Microsoft Azure, and Google Cloud Platform (GCP), vTech provides Microsoft 365 GCC environments, secure identity federation (including Azure AD and ADFS), DevSecOps / CI/CD implementation (including Azure DevOps), scalable infrastructure, database platforms, and hybrid cloud integration. With a security-by-design, outcome-focused execution model, we deliver implementation, migration, integration, customization, and cybersecurity hardening services so Participating Entities can deploy mission-ready technology with confidence.

NASPO AWARDED SERVICE CATEGORIES

SOFTWARE AS A SERVICE (SAAS)

- Microsoft 365 **GCC** collaboration environments
- Secure enterprise applications and configurable platforms
- ServiceNow & Salesforce

INFRASTRUCTURE AS A SERVICE (IAAS)

- Cloud compute, storage, and networking
- Migration, modernization, and hybrid connectivity

PLATFORM AS A SERVICE (PAAS)

- DevSecOps enablement and CI/CD pipelines (e.g., **Azure DevOps**)
- Database and integration platforms (e.g., cloud SQL/RDS patterns)

ON-PREMISES SOLUTIONS

- Secure local deployments with hybrid integration
- NIST-aligned data protection and encryption approaches

DEPLOYMENT MODELS SUPPORTED

- ✓ Private Cloud
- ✓ Public Cloud
- ✓ Community Cloud
- ✓ Hybrid Cloud
- ✓ On-Premises

CORE SLED CAPABILITIES

Cloud & Modernization

- Multi-cloud architecture and delivery (AWS/Azure/GCP)
- Cloud migration, integration, and hybrid implementations
- Infrastructure modernization and secure platform deployment

Security, Identity & Compliance Alignment

- NIST-aligned security-by-design delivery
- Identity federation and IAM integration (Azure AD / ADFS)
- Cybersecurity hardening and security consulting

Implementation Services

- Implementation, migration, integration, customization
- Ongoing optimization and support for cloud environments

UNIQUE PRODUCT OFFERING - EVOLVE

Evolve is vTech's hybrid, multi-cloud management platform that bridges legacy infrastructure and cloud-native environments. It enables secure migrations, centralized operations, & cost-optimized workload management across AWS, Azure, on-premises, & hybrid environments, supporting mission-critical public sector agencies and private enterprises.
