A contract awarded under a process that includes public bidding or competitive contracting pursuant to State contracts law shall constitute a fair and open process. N.J.S.A. 19:44A-20.23. The agency conducting the procurement will need to determine whether the procurement meets the Election Transparency Act definition of a "fair and open process" and instruct vendors on the applicability of Chapter 51.

- (7) Engage in any exchange of contributions to circumvent the intent of the Legislation; or
- (8) Directly or indirectly through or by any other person or means, do any act which would subject that entity to the restrictions of the Legislation.

Following the expiration of the Contract, retained fees will be released to the Contractor after certification by the Using Agency's Contract manager, if any, that all services have been satisfactorily performed.

6.8 PERFORMANCE SECURITY

If performance security is required, such security must be submitted with the bid in the amount listed in the scope of work. N.J.A.C. 17:12-2.5. Acceptable forms of performance security are as follows:

1. A properly executed individual or annual performance bond issued by an insurance or security company authorized to do business in the State of New Jersey,
2. A certified or cashier's check drawn to the order of "Treasurer, State of New Jersey," or
3. An irrevocable letter of credit issued by a federally insured financial institution and naming "Treasurer, State of New Jersey," as beneficiary.

The Performance Security must be submitted to the State within 30 days of the effective date of the Contract award and cover the period of the Contract and any extensions thereof. Failure to submit performance security may result in cancellation of the Contract for cause and nonpayment for work performed.

Although the performance bond is required for the full term of the Contract, the Director recognizes that the industry practice of sureties is to issue a one (1) year performance bond for goods and services contracts. Thus, the contractor is permitted to submit a one (1) year performance bond for the amount required under the Contract and, on each succeeding anniversary date of the Contract, provide a continuation or renewal certificate to evidence that the bond is in effect for the next year of the Contract. This procedure will remain in place for each year of the Contract thereafter until the termination of the Contract. Failure to provide such proof on the anniversary date of the Contract shall result in suspension of the Contract, and possibly, termination of the Contract.

For performance bonds based on a percentage of the total estimated Contract price. On each anniversary of the effective date of the Contract, the amount of the required performance bond, unless otherwise noted, is calculated by applying the established RFQ performance bond percentage to the outstanding balance of the estimated amount of the Contract price to be paid to the contractor.

In the event that the Contract price is increased by a Contract Amendment, the contractor may be required to provide, within 30 calendar days of the effective date of the Contract Amendment, performance bond coverage for the increase in Contract price. The required increase in the performance bond amount is calculated by applying the established bond percentage set forth above to the increase in Contract price. Failure to provide such proof to the Director of this required coverage may result in the suspension of payment to the contractor until such time the contractor complies with this requirement.

The contractor or subcontractor, where applicable, agrees to comply with any regulations promulgated by the Treasurer pursuant to N.J.S.A. 10:5-31 et seq., as amended and supplemented from time to time and the Americans with Disabilities Act.

The contractor or subcontractor agrees to revise any of its testing procedures, if necessary, to assure that all personnel testing conforms with the principles of job related testing, as established by the statutes and court decisions of the State of New Jersey and as established by applicable Federal law and applicable Federal court decisions.

In conforming with the targeted employment goals, the contractor or subcontractor agrees to review all procedures relating to transfer, upgrading, downgrading and layoff to ensure that all such actions are taken without regard to age, race, creed, color, national origin, ancestry, marital status, affectional or sexual orientation, gender identity or expression, disability, nationality or sex, consistent with the statutes and court decisions of the State of New Jersey, and applicable Federal law and applicable Federal court decisions.

The contractor shall submit to the public agency, after notification of award but prior to execution of a goods and services contract, one of the following three documents:

N.J.S.A. 10:5-39 et seq. (P.L.1983, c.197)

N.J.A.C. 17:27-1.1 et seq.

During the performance of this contract, the contractor agrees as follows:

The contractor or subcontractor, where applicable, will not discriminate against any employee or applicant for employment because of age, race, creed, color, national origin, ancestry, marital status, affectional or sexual orientation, gender identity or expression, disability, nationality or sex. Except with respect to affectional or sexual orientation and gender identity or expression, the contractor will ensure that equal employment opportunity is afforded to such applicants in recruitment and employment, and that employees are treated during employment, without regard to their age, race, creed, color, national origin, ancestry, marital status, affectional or sexual orientation, gender identity or expression, disability, nationality or sex. Such equal employment opportunity shall include, but not be limited to the following: employment, up grading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided by the Public Agency Compliance Officer setting forth provisions of this nondiscrimination clause.

The contractor or subcontractor, where applicable will, in all solicitations or advertisements for employees placed by or on behalf of the contractor, state that all qualified applicants will receive consideration for employment without regard to age, race, creed, color, national origin, ancestry, marital status, affectional or sexual orientation, gender identity or expression, disability, nationality or sex.

N.J.S.A. 10:5-39 et seq. requires contractors, subcontractors, and permitted assignees performing construction, alteration, or repair of any building or public work in excess of \$250,000 to guarantee equal employment opportunity to veterans.

The contractor or subcontractor will send to each labor union, with which it has a collective bargaining agreement, a notice, to be provided by the agency contracting officer, advising the labor union or workers' representative of the contractor's commitments under this act and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

The contractor or subcontractor, where applicable, agrees to comply with any regulations promulgated by the Treasurer, pursuant to N.J.S.A. 10:5- 31 et seq., as amended and supplemented from time to time and the Americans with Disabilities Act.

When hiring or scheduling workers in each construction trade, the contractor or subcontractor agrees to make good faith efforts to employ minority and women workers in each construction trade consistent with the targeted employment goal prescribed by N.J.A.C. 17:27-7.2; provided, however, that the Dept. of LWD, Construction EEO Monitoring Program may, in its discretion, exempt a contractor or subcontractor from compliance with the good faith procedures prescribed by the following provisions, A, B and C, as long as the Dept. of LWD, Construction EEO Monitoring Program is satisfied that the contractor or subcontractor is employing workers provided by a union which provides evidence, in accordance with standards prescribed by the Dept. of LWD, Construction EEO Monitoring Program, that its percentage of active "card carrying" members who are minority and women workers is equal to or greater than the targeted employment goal established in accordance with N.J.A.C. 17:27-7.2. The contractor or subcontractor agrees that a good faith effort shall include compliance with the following procedures:

- (A) If the contractor or subcontractor has a referral agreement or arrangement with a union for a construction trade, the contractor or subcontractor shall, within three business days of the contract award, seek assurances from the union that it will cooperate with the contractor or subcontractor as it fulfills its affirmative action obligations under this contract and in accordance with the rules promulgated by the Treasurer pursuant to N.J.S.A. 10:5-31 et. seq., as supplemented and amended from time to time and the Americans with Disabilities Act. If the contractor or subcontractor is unable to obtain said assurances from the construction trade union at least five business days prior to the commencement of construction work, the contractor or subcontractor agrees to afford equal employment opportunities minority and women workers directly, consistent with this chapter. If the contractor's or subcontractor's prior experience with a construction trade union, regardless of whether the union has provided said assurances, indicates a significant possibility that the trade union will not refer sufficient minority and women workers consistent with affording equal employment opportunities as specified in this chapter, the contractor or subcontractor agrees to be prepared to provide such opportunities to minority and women workers directly, consistent with this chapter, by complying with the hiring or scheduling procedures prescribed under (B) below; and the contractor or subcontractor further agrees to take said action immediately if it determines that the union is not referring minority and women workers consistent with the equal employment opportunity goals set forth in this chapter.
- (B) If good faith efforts to meet targeted employment goals have not or cannot be met for each construction trade by adhering to the procedures of (A) above, or if the contractor does not have a referral agreement or arrangement with a union for a construction trade, the contractor or subcontractor agrees to take the following actions:
 - (1) To notify the public agency compliance officer, the Dept. of LWD, Construction EEO Monitoring Program, and minority and women referral organizations listed by the Division pursuant to N.J.A.C. 17:27-5.3, of its workforce needs, and request referral of minority and women workers;
 - (2) To notify any minority and women workers who have been listed with it as awaiting available vacancies;
 - (3) Prior to commencement of work, to request that the local construction trade union refer minority and women workers to fill job openings, provided the contractor or subcontractor has a referral agreement or arrangement with a union for the construction trade;

- (4) To leave standing requests for additional referral to minority and women workers with the local construction trade union, provided the contractor or subcontractor has a referral agreement or arrangement with a union for the construction trade, the State Training and Employment Service and other approved referral sources in the area;
 - (5) If it is necessary to lay off some of the workers in a given trade on the construction site, layoffs shall be conducted in compliance with the equal employment opportunity and non-discrimination standards set forth in this regulation, as well as with applicable Federal and State court decisions;
 - (6) To adhere to the following procedure when minority and women workers apply or are referred to the contractor or subcontractor:
 - (i) The contractor or subcontractor shall interview the referred minority or women worker.
 - (ii) If said individuals have never previously received any document or certification signifying a level of qualification lower than that required in order to perform the work of the construction trade, the contractor or subcontractor shall in good faith determine the qualifications of such individuals. The contractor or subcontractor shall hire or schedule those individuals who satisfy appropriate qualification standards in conformity with the equal employment opportunity and non-discrimination principles set forth in this chapter. However, a contractor or subcontractor shall determine that the individual at least possesses the requisite skills, and experience recognized by a union, apprentice program or a referral agency, provided the referral agency is acceptable to the Dept. of LWD, Construction EEO Monitoring Program. If necessary, the contractor or subcontractor shall hire or schedule minority and women workers who qualify as trainees pursuant to these rules. All of the requirements, however, are limited by the provisions of (C) below.
 - (iii) The name of any interested women or minority individual shall be maintained on a waiting list, and shall be considered for employment as described in (i) above, whenever vacancies occur. At the request of the Dept. of LWD, Construction EEO Monitoring Program, the contractor or subcontractor shall provide evidence of its good faith efforts to employ women and minorities from the list to fill vacancies.
 - (iv) If, for any reason, said contractor or subcontractor determines that a minority individual or a woman is not qualified or if the individual qualifies as an advanced trainee or apprentice, the contractor or subcontractor shall inform the individual in writing of the reasons for the determination, maintain a copy of the determination in its files, and send a copy to the public agency compliance officer and to the Dept. of LWD, Construction EEO Monitoring Program.
 - (7) To keep a complete and accurate record of all requests made for the referral of workers in any trade covered by the contract, on forms made available by the Dept. of LWD, Construction EEO Monitoring Program and submitted promptly to the Dept. of LWD, Construction EEO Monitoring Program upon request.
- (C) The contractor or subcontractor agrees that nothing contained in (B) above shall preclude the contractor or subcontractor from complying with the union hiring hall or apprenticeship policies in any applicable collective bargaining agreement or union hiring hall arrangement, and, where required by custom or agreement, it shall send journeymen and trainees to the union for referral, or to the apprenticeship program for admission, pursuant to such agreement or arrangement. However, where the practices of a union or apprenticeship program will result in the exclusion of minorities and women or the failure to refer minorities and women consistent with the targeted county employment goal, the contractor or subcontractor shall consider for employment persons referred pursuant to (B) above without regard to such agreement or arrangement; provided further, however, that the contractor or subcontractor shall not be required to employ women and minority advanced trainees and trainees in numbers which result in the employment of advanced trainees and trainees as a percentage of the total workforce for the construction trade, which percentage significantly exceeds the apprentice to journey worker ratio specified in the applicable collective bargaining agreement, or in the absence of a collective bargaining agreement, exceeds the ratio established by practice in the area for said construction trade. Also, the contractor or subcontractor agrees that, in implementing the procedures of (B) above, it shall, where applicable, employ minority and women workers residing within the geographical jurisdiction of the union.

After notification of award, but prior to signing a construction contract, the contractor shall submit to the public agency compliance officer and the Dept. of LWD, Construction EEO Monitoring Program an initial project workforce report (Form AA-201) electronically provided to the public agency by the Dept. of LWD, Construction EEO Monitoring Program, through its website, for distribution to and completion by the contractor, in accordance with N.J.A.C. 17:27-7.

The contractor also agrees to submit a copy of the Monthly Project Workforce Report once a month thereafter for the duration of this contract to the Dept. of LWD, Construction EEO Monitoring Program and to the public agency compliance officer.

The contractor agrees to cooperate with the public agency in the payment of budgeted funds, as is necessary, for on the job and/or off the job programs for outreach and training of minorities and women.

- (D) The contractor and its subcontractors shall furnish such reports or other documents to the Dept. of LWD, Construction EEO Monitoring Program as may be requested by the Dept. of LWD, Construction EEO Monitoring Program from time to time in order to carry out the purposes of these regulations, and public agencies shall furnish such information as may be requested by the Dept. of LWD, Construction EEO Monitoring Program for conducting a compliance investigation pursuant to N.J.A.C. 17:27-1.1 et seq.

EXHIBIT C - EXECUTIVE ORDER NO. 151 REQUIREMENTS

It is the policy of the Division of Purchase and Property that its contracts should create a workforce that reflects the diversity of the State of New Jersey. Therefore, contractors engaged by the Division of Purchase and Property to perform under a construction contract shall put forth a good faith effort to engage in recruitment and employment practices that further the goal of fostering equal opportunities to minorities and women.

The contractor must demonstrate to the Division of Purchase and Property's satisfaction that a good faith effort was made to ensure that minorities and women have been afforded equal opportunity to gain employment under the Division of Purchase and Property's contract with the contractor. Payment may be withheld from a contractor's contract for failure to comply with these provisions.

Evidence of a "good faith effort" includes, but is not limited to:

1. The Contractor shall recruit prospective employees through the State Job bank website, managed by the Department of Labor and Workforce Development, available online at <https://newjersey.usnlx.com/>;
2. The Contractor shall keep specific records of its efforts, including records of all individuals interviewed and hired, including the specific numbers of minorities and women;
3. The Contractor shall actively solicit and shall provide the Division of Purchase and Property with proof of solicitations for employment, including but not limited to advertisements in general circulation media, professional service publications and electronic media; and
4. The Contractor shall provide evidence of efforts described at 2 above to the Division of Purchase and Property no less frequently than once every 12 months.
5. The Contractor shall comply with the requirements set forth at N.J.A.C. 17:27.

This language is in addition to and does not replace good faith efforts requirements for construction contracts required by N.J.A.C. 17:27-3.6, 3.7 and 3.8, also known as Exhibit B.

NASPO ValuePoint facilitates administration of the NASPO cooperative group contracting consortium of state chief procurement officials for the benefit of state departments, institutions, agencies, and political subdivisions and other eligible entities (i.e., colleges, school districts, counties, cities, some nonprofit organizations, etc.) for all states, the District of Columbia, and territories of the United States. NASPO ValuePoint is identified in the Master Agreement as the recipient of reports and may perform contract administration functions relating to collecting and receiving reports, as well as other contract administration functions as assigned by the Lead State.

II. Term of Master Agreement

- A. Initial Term.** The initial term of this Master Agreement is for three (3) years. The term of this Master Agreement may be amended beyond the initial term for three (3) additional years at the Lead State's discretion and by mutual agreement and upon review of requirements of Participating Entities, current market conditions, and Contractor performance. The Lead State may, prior to execution, adjust the effective date or duration of the initial term or renewal period of any Master Agreement for the purpose of making the Master Agreement coterminous with others.
- B. Amendment Limitations.** The terms of this Master Agreement will not be waived, altered, modified, supplemented, or amended in any manner whatsoever without prior written agreement of the Lead State and Contractor.
- C. Amendment Term.** The term of the Master Agreement may be amended past the initial term and stated renewal periods for a reasonable period if in the judgment of the Lead State a follow-on competitive procurement will be unavoidably delayed (despite good faith efforts) beyond the planned date of execution of the follow-on master agreement. This subsection will not be deemed to limit the authority of a Lead State under its state law to otherwise negotiate contract extensions.

III. Order of Precedence

- A. Order.** Any Order placed under this Master Agreement will consist of the following documents:
 - 1. A Participating Entity's Participating Addendum ("PA");
 - 2. NASPO ValuePoint Master Agreement, including all attachments thereto;
 - 3. A Purchase Order or Scope of Work/Specifications issued against the Master Agreement;
 - 4. The Solicitation or, if separately executed after award, the Lead State's bilateral agreement that integrates applicable provisions;
 - 5. Contractor's response to the Solicitation, as revised (if permitted) and accepted by the Lead State.
- B. Conflict.** These documents will be read to be consistent and complementary. Any conflict among these documents will be resolved by giving priority to these documents in the order listed above. Contractor terms and conditions that apply to this Master Agreement are only those that are expressly accepted by the Lead State and must be in writing and attached to this Master Agreement as an Exhibit or Attachment.
- C. Participating Addenda.** Participating Addenda will not be construed to diminish, modify, or otherwise derogate any provisions in this Master Agreement between the Lead State and Contractor. Participating Addenda will not include a term of agreement that exceeds the term of the Master Agreement.

IV. Participants and Scope

- A. Requirement for a Participating Addendum.** Contractor may not deliver Products under this Master Agreement until a Participating Addendum acceptable to the Participating Entity and Contractor is executed.
- B. Applicability of Master Agreement.** NASPO ValuePoint Master Agreement Terms and Conditions are applicable to any Order by a Participating Entity (and other Purchasing Entities covered by their Participating Addendum), except to the extent altered, modified, supplemented or amended by a Participating Addendum, subject to Section III. For the purposes of illustration and not limitation, this authority may apply to unique delivery and invoicing requirements, confidentiality requirements, defaults on Orders, governing law and venue relating to Orders by a Participating Entity, indemnification, and insurance requirements. Statutory or constitutional requirements relating to availability of funds may require specific language in some Participating Addenda in order to comply with applicable law. The expectation is that these alterations, modifications, supplements, or amendments will be addressed in the Participating Addendum or, with the consent of the Purchasing Entity and Contractor, may be included in the ordering document (e.g., purchase order or contract) used by the Purchasing Entity to place the Order.
- C. Authorized Use.** Use of specific NASPO ValuePoint Master Agreements by state agencies, political subdivisions and other Participating Entities is subject to applicable state law and the approval of the respective State Chief Procurement Official. Issues of interpretation and eligibility for participation are solely within the authority of the respective State Chief Procurement Official
- D. Obligated Entities.** Obligations under this Master Agreement are limited to those Participating Entities who have signed a Participating Addendum and Purchasing Entities within the scope of those Participating Addenda. States or other entities permitted to participate may use an informal competitive process to determine which Master Agreements to participate

in through execution of a Participating Addendum. Participating Entities incur no financial obligations on behalf of other Purchasing Entities.

- E. Notice of Participating Addendum.** Contractor shall email a fully executed PDF copy of each Participating Addendum to pa@naspoaluepoint.org to support documentation of participation and posting in appropriate databases.
- F. Eligibility for a Participating Addendum.** Eligible entities who are not states may under some circumstances sign their own Participating Addendum, subject to the consent of the Chief Procurement Official of the state where the entity is located. Coordinate requests for such participation through NASPO ValuePoint. Any permission to participate through execution of a Participating Addendum is not a determination that procurement authority exists; the entity must ensure that they have the requisite procurement authority to execute a Participating Addendum.
- G. Prohibition on Resale.** Subject to any specific conditions included in the solicitation or Contractor's proposal as accepted by the Lead State, or as explicitly permitted in a Participating Addendum, Purchasing Entities may not resell Products purchased under this Master Agreement. Absent any such condition or explicit permission, this limitation does not prohibit: payments by employees of a Purchasing Entity for Products; sales of Products to the general public as surplus property; and fees associated with inventory transactions with other governmental or nonprofit entities and consistent with a Purchasing Entity's laws and regulations. Any sale or transfer permitted by this subsection must be consistent with license rights granted for use of intellectual property.
- H. Individual Customers.** Except as may otherwise be agreed to by the Purchasing Entity and Contractor, each Purchasing Entity shall follow the terms and conditions of the Master Agreement and applicable Participating Addendum and will have the same rights and responsibilities for their purchases as the Lead State has in the Master Agreement and as the Participating Entity has in the Participating Addendum, including but not limited to any indemnity or right to recover any costs as such right is defined in the Master Agreement and applicable Participating Addendum for their purchases. Each Purchasing Entity will be responsible for its own charges, fees, and liabilities. The Contractor will apply the charges and invoice each Purchasing Entity individually.
- I. Release of Information.** Throughout the duration of this Master Agreement, Contractor must secure from the Lead State prior approval for the release of information that pertains to the potential work or activities covered by the Master Agreement. This limitation does not preclude publication about the award of the Master Agreement or marketing activities consistent with any proposed and accepted marketing plan.
- J. No Representations.** The Contractor shall not make any representations of NASPO ValuePoint, the Lead State, any Participating Entity, or any Purchasing Entity's opinion or position as to the quality or effectiveness of the services that are the subject of this Master Agreement without prior written consent.

V. NASPO ValuePoint Provisions

- A. Applicability.** NASPO ValuePoint is not a party to the Master Agreement. The terms set forth in Section V are for the benefit of NASPO ValuePoint as a third-party beneficiary of this Master Agreement.
- B. Administrative Fees**
 - 1. NASPO ValuePoint Fee.** Contractor shall pay to NASPO ValuePoint, or its assignee, a NASPO ValuePoint Administrative Fee of one-quarter of one percent (0.25% or 0.0025) no later than sixty (60) days following the end of each calendar quarter. The NASPO ValuePoint Administrative Fee must be submitted quarterly and is based on all sales of products and services under the Master Agreement (less any charges for taxes or shipping). The NASPO ValuePoint Administrative Fee is not negotiable. This fee is to be included as part of the pricing submitted with a vendor's response to the Lead State's solicitation.
 - 2. State Imposed Fees.** Some states may require an additional fee be paid by Contractor directly to the state on purchases made by Purchasing Entities within that state. For all such requests, the fee rate or amount, payment method, and schedule for such reports and payments will be incorporated into the applicable Participating Addendum. Unless agreed to in writing by the state, Contractor may not adjust the Master Agreement pricing to include the state fee for purchases made by Purchasing Entities within the jurisdiction of the state. No such agreement will affect the NASPO ValuePoint Administrative Fee percentage or the prices paid by Purchasing Entities outside the jurisdiction of the state requesting the additional fee.
- C. NASPO ValuePoint Summary and Detailed Usage Reports**
 - 1. Sales Data Reporting.** In accordance with this section, Contractor shall report to NASPO ValuePoint all Orders under this Master Agreement for which Contractor has invoiced the ordering entity or individual, including Orders invoiced to Participating Entity or Purchasing Entity employees for personal use if such use is permitted by this Master Agreement and the applicable Participating Addendum ("Sales Data"). Timely and complete reporting of

Sales Data is a material requirement of this Master Agreement. Reporting requirements, including those related to the format, contents, frequency, or delivery of reports, may be updated by NASPO ValuePoint with reasonable notice to Contractor and without amendment to this Master Agreement. NASPO ValuePoint shall have exclusive ownership of any media on which reports are submitted and shall have a perpetual, irrevocable, non-exclusive, royalty free, and transferable right to display, modify, copy, and otherwise use reports, data, and information provided under this section.

2. **Summary Sales Data.** "Summary Sales Data" is Sales Data reported as cumulative totals by state. Contractor shall, using the reporting tool or template provided by NASPO ValuePoint, report Summary Sales Data to NASPO ValuePoint for each calendar quarter no later than thirty (30) days following the end of the quarter. If Contractor has no reportable Sales Data for the quarter, Contractor shall submit a zero-sales report.
3. **Detailed Sales Data.** "Detailed Sales Data" is Sales Data that includes for each Order all information required by the Solicitation or by NASPO ValuePoint, including customer information, Order information, and line-item details. Contractor shall, using the reporting tool or template provided by NASPO ValuePoint, report Detailed Sales Data to NASPO ValuePoint for each calendar quarter no later than thirty (30) days following the end of the quarter. Detailed Sales Data shall be reported in the format provided in the Solicitation or provided by NASPO ValuePoint. The total sales volume of reported Detailed Sales Data shall be consistent with the total sales volume of reported Summary Sales Data.
4. **Sales Data Crosswalks.** Upon request by NASPO ValuePoint, Contractor shall provide to NASPO ValuePoint tables of customer and Product information and specific attributes thereof for the purpose of standardizing and analyzing reported Sales Data ("Crosswalks"). Customer Crosswalks must include a list of existing and potential Purchasing Entities and identify for each the appropriate customer type as defined by NASPO ValuePoint. Product Crosswalks must include Contractor's part number or SKU for each Product in Offeror's catalog and identify for each the appropriate Master Agreement category (and subcategory, if applicable), manufacturer part number, product description, eight-digit UNSPSC Class Level commodity code, and (if applicable) EPEAT value and Energy Star rating. Crosswalk requirements and fields may be updated by NASPO ValuePoint with reasonable notice to Contractor and without amendment to this Master Agreement. Contractor shall work in good faith with NASPO ValuePoint to keep Crosswalks updated as Contractor's customer lists and product catalog change.
5. **Executive Summary.** Contractor shall, upon request by NASPO ValuePoint, provide NASPO ValuePoint with an executive summary that includes but is not limited to a list of states with an active Participating Addendum, states with which Contractor is in negotiations, and any Participating Addendum roll-out or implementation activities and issues. NASPO ValuePoint and Contractor will determine the format and content of the executive summary.

D. NASPO ValuePoint Cooperative Program Marketing, Training, and Performance Review

1. **Staff Education.** Contractor shall work cooperatively with NASPO ValuePoint personnel. Contractor shall present plans to NASPO ValuePoint for the education of Contractor's contract administrator(s) and sales/marketing workforce regarding the Master Agreement contract, including the competitive nature of NASPO ValuePoint procurements, the master agreement and participating addendum process, and the manner in which eligible entities can participate in the Master Agreement.
2. **Onboarding Plan.** Upon request by NASPO ValuePoint, Contractor shall, as Participating Addendums are executed, provide plans to launch the program for the Participating Entity. Plans will include time frames to launch the agreement and confirmation that the Contractor's website has been updated to properly reflect the scope and terms of the Master Agreement as available to the Participating Entity and eligible Purchasing Entities.
3. **Annual Contract Performance Review.** Contractor shall participate in an annual contract performance review with the Lead State and NASPO ValuePoint, which may at the discretion of the Lead State be held in person and which may include a discussion of marketing action plans, target strategies, marketing materials, Contractor reporting, and timeliness of payment of administration fees.
4. **Use of NASPO ValuePoint Logo.** The NASPO ValuePoint logos may not be used by Contractor in sales and marketing until a separate logo use agreement is executed with NASPO ValuePoint.
5. **Obligation to Act in Good Faith.** The parties acknowledge that this Master Agreement and its terms and pricing have been negotiated for the benefit of the parties, NASPO ValuePoint, Participating Entities, and Purchasing Entities. Apart from a Participating Addendum or Order, Contractor shall not intentionally induce a potential Participating Entity or Purchasing Entity to enter into a separate agreement, the pricing and terms of which are derived from this Master Agreement, for the purpose of avoiding compliance with Contractor's obligations under Section V. Nothing in this Section 5 shall prohibit Contractor from contracting with an entity with substantially

similar pricing and terms if such pricing and terms are independently negotiated with the entity or are consistent with pricing and terms ordinarily offered by Contractor to public sector customers

E. NASPO ValuePoint eMarketPlace

1. The NASPO ValuePoint cooperative provides an eMarketPlace for public entities to access a central online platform to view and/or purchase the goods, services, and solutions available from NASPO ValuePoint's cooperative Master Agreements. This eMarketPlace is provided by NASPO at no additional cost to the Contractor or public entities. Its purpose is to facilitate the connection of public entities with Contractors who meet the requisite needs for a good, service, or solution by that entity through a NASPO ValuePoint Master Agreement.
2. Contractor shall cooperate in good faith with NASPO, and any third party acting as an agent on behalf of NASPO, to integrate Contractor's industry presence by either an electronic hosted catalog, punchout site, or providing eQuotes through the NASPO eMarketPlace, per the Implementation Timeline as further described below.
3. Regardless of how Contractor's presence is reflected in the eMarketPlace (i.e., hosted catalog, punchout site, or eQuote), Contractor's listed offerings must be strictly limited to Contractor's awarded contract offerings through the NASPO award. Products and/or services not authorized through the resulting NASPO cooperative contract should not be viewable by NASPO ValuePoint eMarketPlace users. Furthermore, products and/or services not authorized through a Participating Addendum should not be viewable by NASPO ValuePoint eMarketPlace users utilizing that Participating Addendum. The accuracy of Contractor's offerings through the eMarketPlace must be maintained by Contractor throughout the duration of the Master Agreement.
4. Contractor agrees that NASPO controls which Master Agreements appear in the eMarketPlace and that NASPO may elect at any time to remove any of Contractor's offerings from the eMarketPlace.
5. Contractor is solely responsible for the accuracy, quality, and legality of Contractor's Content on the eMarketPlace. "Content" means all information that is generated, submitted, or maintained by Contractor or otherwise made available by Contractor on the eMarketPlace, including Contractor catalogs. Contractor's Content shall comply with and accurately reflect the terms and pricing of this Master Agreement.
6. Contractor's use of the eMarketPlace shall comply with the eMarketPlace's Terms of Use.
7. Contractor is solely responsible for the security and accuracy of transactions facilitated through the eMarketPlace, including the assessment, collection, and remittance of any sales tax.
8. Lead State reserves the right to approve all pricing, catalogs, and information on the eMarketPlace. This catalog review right is solely for the benefit of the Lead State and Participating Entities, and the review and approval shall not waive the requirement that products and services be offered at prices required by the Master Agreement.
9. NASPO Participating Entities may have their own procurement system, separate from the NASPO eMarketPlace, that enables the use of certain NASPO Master Agreements. In the event one of these entities elects to use this NASPO ValuePoint Master Agreement (available through the eMarketPlace) but publish to their own eMarketPlace, Contractor agrees to work in good faith with the entity and NASPO to implement the catalog.
10. In the event a Participating Entity has entity-specific catalog requirements set forth in its Participating Addendum (e.g., entity-specific pricing, restrictions in the scope of offerings, etc.), Contractor shall ensure its eMarketPlace Content for that Participating Entity accurately reflects and is compliant with these requirements.
11. Implementation Timeline: Following the execution of Contractor's Master Agreement, NASPO will provide a written request to Contractor to begin the onboarding process into the eMarketPlace. Contractor shall have fifteen (15) days from receipt of written request to work with NASPO to set up an enablement schedule, at which time the technical documentation for onboarding shall be provided to Contractor. The schedule will include future calls and milestone dates related to test and go live dates.
 - a. Contractor's NASPO eMarketPlace account with eQuoting functionality shall minimally be established within thirty (30) days following the written request.
 - b. Contractor shall deliver either a (1) hosted catalog or (2) punchout site, pursuant to the mutually agreed upon enablement schedule.
 - c. NASPO will work with Contractor to decide which structures between hosted catalog, punchout site, and/or eQuoting as further described below will be provided by Contractor.

- i. **Hosted Catalog.** By providing a hosted catalog, Contractor is providing a list of its awarded products/services and pricing in an electronic data file in a format acceptable to NASPO, such as a tab delimited text file. Contractor is solely responsible for ensuring the most up-to-date versions of its product/service offerings approved by the Lead State under this Master Agreement are reflected in the eMarketPlace.
 - ii. **Punchout Site.** By providing a punchout site, Contractor is providing its own online catalog, which must be capable of being integrated with the eMarketPlace as a Standard punchout via Commerce eXtensible Markup Language (cXML). Contractor shall validate that its online catalog is up-to-date. The site must also return detailed UNSPSC codes for each line item.
 - iii. **eQuoting.** NASPO will work with Contractor to set up participation and use to provide eQuotes through the NASPO eMarketPlace. This requirement would be in addition to any requirement to provide a hosted catalog or punchout site.
- 12.** Hosted catalogs and punchout sites will provide all of the eMarketPlace standard data elements/information including, but not limited to, the following:
 - a. The most current pricing, including all applicable administrative fees and/or discounts, as well as the most up-to-date product/service offering the Contractor is authorized to provide in accordance with this Master Agreement;
 - b. A Lead State contract identification number for this Master Agreement;
 - c. Detailed product line item descriptions;
 - d. Pictures illustrating products, services, or solutions where practicable; and
 - e. Any additional NASPO, Lead State, or Participating Addendum requirements.
- F. Cancellation.** In consultation with NASPO ValuePoint, the Lead State may, in its discretion, cancel the Master Agreement or not exercise an option to renew, when utilization of Contractor's Master Agreement does not warrant further administration of the Master Agreement. The Lead State may also exercise its right to not renew the Master Agreement if the Contractor fails to record or report revenue for three consecutive quarters, upon 60-calendar day written notice to the Contractor. Cancellation based on nonuse or under-utilization will not occur sooner than [two years] after execution of the Master Agreement. This subsection does not limit the discretionary right of either the Lead State or Contractor to cancel the Master Agreement or terminate for default subject to the terms herein. This subsection also does not limit any right of the Lead State to cancel the Master Agreement under applicable laws.
- G. Canadian Participation.** Subject to the approval of Contractor, any Canadian provincial government or provincially funded entity in Alberta, British Columbia, Manitoba, New Brunswick, Newfoundland and Labrador, Nova Scotia, Ontario, Prince Edward Island, Quebec, or Saskatchewan, and territorial government or territorial government funded entity in the Northwest Territories, Nunavut, or Yukon, including municipalities, universities, community colleges, school boards, health authorities, housing authorities, agencies, boards, commissions, and crown corporations, may be eligible to use Contractor's Master Agreement.
- H. Additional Agreement with NASPO.** Upon request by NASPO ValuePoint, awarded Contractor shall enter into a direct contractual relationship with NASPO ValuePoint related to Contractor's obligations to NASPO ValuePoint under the terms of the Master Agreement, the terms of which shall be the same or similar (and not less favorable) than the terms set forth in the Master Agreement.

VI. Pricing, Payment & Leasing

- A. Pricing.** The prices contained in this Master Agreement or offered under this Master Agreement represent the not-to-exceed price to any Purchasing Entity. All prices and rates must be guaranteed for one (1) year.
 1. All prices and rates must be minimally guaranteed for one (1) year, beginning at the Master Agreement execution date (Price Guarantee Period).
 2. Following the initial one (1) year Price Guarantee Period, any request for a price or rate adjustment must be for an equal guarantee period and must be made at least thirty (30) days prior to the effective date.
 3. Requests for a price or rate adjustment must include sufficient documentation supporting the request. Any adjustment or amendment to the Master Agreement will not be effective unless approved in writing by the Lead State.

4. No retroactive adjustments to prices or rates will be allowed.
 5. During Master Agreement term Contractor (Offeror) may extend greater discounted pricing to the Purchasing Entity as order details as purchasing volume, equipment type, location, etc. become known.
 6. Price increase requests shall be submitted in writing to the Contract Manager, which shall include the reason(s) for the request and contain supporting documentation for the need. Price increases will be negotiated and agreed to by both the State and Vendor in advance of any price increase going into effect. The Lead State is not obligated to accept pricing adjustments or increases and reserves the right to accept or reject them in part or in whole. Price de-escalation or decreases may be requested by the Lead State at any time
- B. Payment.** Unless otherwise agreed upon in a Participating Addendum or Order, Payment after Acceptance will be made within thirty (30) days following the date the entire order is delivered or the date a correct invoice is received, whichever is later. After 45 days the Contractor may assess overdue account charges up to a maximum rate of one percent per month on the outstanding balance, unless a different late payment amount is specified in a Participating Addendum or Order, or otherwise prescribed by applicable law. Payments will be remitted in the manner specified in the Participating Addendum or Order. Payments may be made via a purchasing card with no additional charge.
- C. Leasing or Alternative Financing Methods.** The procurement and other applicable laws of some Purchasing Entities may permit the use of leasing or alternative financing methods for the acquisition of Products under this Master Agreement. Where the terms and conditions are not otherwise prescribed in an applicable Participating Addendum, the terms and conditions for leasing or alternative financing methods are subject to negotiation between the Contractor and Purchasing Entity.

VII. Ordering

- A. Order Numbers.** Master Agreement order and purchase order numbers must be clearly shown on all acknowledgments, packing slips, invoices, and on all correspondence.
- B. Quotes.** Purchasing Entities may define entity-specific or project-specific requirements and informally compete the requirement among companies having a Master Agreement on an “as needed” basis. This procedure may also be used when requirements are aggregated or other firm commitments may be made to achieve reductions in pricing. This procedure may be modified in Participating Addenda and adapted to the Purchasing Entity’s rules and policies. The Purchasing Entity may in its sole discretion determine which Master Agreement Contractors should be solicited for a quote. The Purchasing Entity may select the quote that it considers most advantageous, cost, and other factors considered.
- C. Applicable Rules.** Each Purchasing Entity will identify and utilize its own appropriate purchasing procedure and documentation. Contractor is expected to become familiar with the Purchasing Entities’ rules, policies, and procedures regarding the ordering of supplies and/or services contemplated by this Master Agreement.
- D. Required Documentation.** Contractor shall not begin work without a valid Purchase Order or other appropriate commitment document under the law of the Purchasing Entity.
- E. Term of Purchase.** Orders may be placed consistent with the terms of this Master Agreement and applicable Participating Addendum during the term of the Master Agreement and Participating Addendum.
1. Orders must be placed pursuant to this Master Agreement prior to the termination date thereof. Subscription based services may be purchased up to the Master Agreement Expiration date and extend to one year beyond the expiration of the Master Agreement. The period of performance for consulting services may have a delivery date or performance period up to 120 days past the then-current termination date of this Master Agreement.
 2. Notwithstanding the previous, Orders must also comply with the terms of the applicable Participating Addendum, which may further restrict the period during which Orders may be placed or delivered.
 3. Financial obligations of Purchasing Entities payable after the current applicable fiscal year are contingent upon agency funds for that purpose being appropriated, budgeted, and otherwise made available.
 4. Notwithstanding the expiration, cancellation or termination of this Master Agreement, Contractor shall perform in accordance with the terms of any Orders then outstanding at the time of such expiration or termination. Contractor shall not honor any Orders placed after the expiration, cancellation, or termination of this Master Agreement, or in any manner inconsistent with this Master Agreement’s terms.
 5. Orders for any separate indefinite quantity, task order, or other form of indefinite delivery order arrangement priced against this Master Agreement may not be placed after the expiration or termination of this Master Agreement, notwithstanding the term of any such indefinite delivery order agreement.

F. Order Form Requirements. All Orders pursuant to this Master Agreement, at a minimum, must include:

1. The services or supplies being delivered;
2. A shipping address and other delivery requirements, if any;
3. A billing address;
4. Purchasing Entity contact information;
5. Pricing consistent with this Master Agreement and applicable Participating Addendum and as may be adjusted by agreement of the Purchasing Entity and Contractor;
6. A not-to-exceed total for the products or services being ordered; and
7. The Master Agreement number or the applicable Participating Addendum number, provided the Participating Addendum references the Master Agreement number.

G. Communication. All communications concerning administration of Orders placed must be furnished solely to the authorized purchasing agent within the Purchasing Entity's purchasing office, or to such other individual identified in writing in the Order.

H. Contract Provisions for Orders Utilizing Federal Funds. Pursuant to Appendix II to 2 Code of Federal Regulations (CFR) Part 200, Contract Provisions for Non-Federal Entity Contracts Under Federal Awards, Orders funded with federal funds may have additional contractual requirements or certifications that must be satisfied at the time the Order is placed or upon delivery. These federal requirements may be proposed by Participating Entities in Participating Addenda and Purchasing Entities for incorporation in Orders placed under this Master Agreement.

VIII. Shipping and Delivery

A. Shipping Terms. All deliveries will be F.O.B. destination, freight pre-paid, with all transportation and handling charges paid by the Contractor.

1. Notwithstanding the above, responsibility and liability for loss or damage will remain the Contractor's until final inspection and acceptance when responsibility will pass to the Purchasing Entity except as to latent defects, fraud, and Contractor's warranty obligations.

B. Minimum Shipping. The minimum shipment amount, if any, must be contained in the Master Agreement. Any order for less than the specified amount is to be shipped with the freight prepaid and added as a separate item on the invoice. Any portion of an Order to be shipped without transportation charges that is back ordered will be shipped without charge.

C. Inside Deliveries. To the extent applicable, all deliveries will be "Inside Deliveries" as designated by a representative of the Purchasing Entity placing the Order. Inside Delivery refers to a delivery to a location other than a loading dock, front lobby, or reception area. Specific delivery instructions will be noted on the order form or Purchase Order. Costs to repair any damage to the building interior (e.g., scratched walls, damage to the freight elevator, etc.) caused by Contractor or Contractor's carrier will be the responsibility of the Contractor. Immediately upon becoming aware of such damage, Contractor shall notify the Purchasing Entity placing the Order.

D. Packaging. All products must be delivered in the manufacturer's standard package. Costs must include all packing and/or crating charges. Cases must be of durable construction, in good condition, properly labeled and suitable in every respect for storage and handling of contents. Each shipping carton must be marked with the commodity, brand, quantity, item code number and the Purchasing Entity's Purchase Order number.

IX. Inspection and Acceptance

A. Laws and Regulations. Any and all Products offered and furnished must comply fully with all applicable Federal, State, and local laws and regulations.

B. Applicability. Unless otherwise specified in the Master Agreement, Participating Addendum, or ordering document, the terms of this Section IX will apply. This section is not intended to limit rights and remedies under the applicable commercial code.

C. Inspection. All Products are subject to inspection at reasonable times and places before Acceptance. Contractor shall provide right of access to the Lead State, or to any other authorized agent or official of the Lead State or other Participating or Purchasing Entity, at reasonable times, to monitor and evaluate performance, compliance, and/or quality assurance requirements under this Master Agreement.

1. Products that do not meet specifications may be rejected. Failure to reject upon receipt, however, does not relieve the contractor of liability for material (nonconformity that substantial impairs value) latent or hidden defects subsequently revealed when goods are put to use.
 2. Acceptance of such goods may be revoked in accordance with the provisions of the applicable commercial code, and the Contractor is liable for any resulting expense incurred by the Purchasing Entity related to the preparation and shipping of Product rejected and returned, or for which Acceptance is revoked.
- D. **Failure to Conform.** If any services do not conform to contract requirements, the Purchasing Entity may require the Contractor to perform the services again in conformity with contract requirements, at no increase in Order amount. When defects cannot be corrected by re-performance, the Purchasing Entity may require the Contractor to take necessary action to ensure that future performance conforms to contract requirements and reduce the contract price to reflect the reduced value of services performed.
- E. **Acceptance Testing.** Purchasing Entity may establish a process, in keeping with industry standards, to ascertain whether the Product meets the standard of performance or specifications prior to Acceptance by the Purchasing Entity.
1. The Acceptance Testing period will be thirty (30) calendar days, unless otherwise specified, starting from the day after the Product is delivered or, if installed by Contractor, the day after the Product is installed and Contractor certifies that the Product is ready for Acceptance Testing.
 2. If the Product does not meet the standard of performance or specifications during the initial period of Acceptance Testing, Purchasing Entity may, at its discretion, continue Acceptance Testing on a day-to-day basis until the standard of performance is met.
 3. Upon rejection, the Contractor will have fifteen (15) calendar days to cure. If after the cure period, the Product still has not met the standard of performance or specifications, the Purchasing Entity may, at its option: (a) declare Contractor to be in breach and terminate the Order; (b) demand replacement Product from Contractor at no additional cost to Purchasing Entity; or, (c) continue the cure period for an additional time period agreed upon by the Purchasing Entity and the Contractor.
 4. Contractor shall pay all costs related to the preparation and shipping of Product returned pursuant to the section.
 5. No Product will be deemed Accepted and no charges will be paid until the standard of performance or specification is met.

X. Warranty

- A. **Applicability.** Unless otherwise specified in the Master Agreement, Participating Addendum, or ordering document, the terms of this Section X will apply.
- B. **Warranty.** The Contractor warrants that it shall perform the services in good faith and in a professional manner. CONTRACTOR DISCLAIMS ALL OTHER WARRANTIES, EITHER EXPRESS OR IMPLIED, INCLUDING, WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE INFORMATION IN THE DELIVERABLES HAS BEEN OBTAINED FROM SOURCES THAT CONTRACTOR BELIEVES TO BE RELIABLE. ALL DELIVERABLES SPEAK AS OF THE DATE OF DELIVERY TO THE PURCHASING ENTITY
- C. **Breach of Warranty.** Upon breach of the warranty set forth above, the Contractor will repair or replace (at no charge to the Purchasing Entity) the Product whose nonconformance is discovered and made known to the Contractor. If the repaired and/or replaced Product proves to be inadequate, or fails of its essential purpose, the Contractor will refund the full amount of any payments that have been made.
- D. **Rights Reserved.** The rights and remedies of the parties under this warranty are in addition to any other rights and remedies of the parties provided by law or equity, including, without limitation, actual damages, and, as applicable and awarded under the law, to a prevailing party, reasonable attorneys' fees and costs.
- E. [This section intentionally omitted.]

XI. Intellectual Property

- A. [This section intentionally omitted.]
- B. The Purchasing Entity retains all rights, title and interest in any and all derivative works or compilations of Contractor's Works or Documents, created both independently or in part with the Contractor, its employees, agents, or subcontractors. Contractor shall assign to Purchasing Entity ownership of any Products and Services originally created for and submitted to the Purchasing Entity, provided, however, that Contractor may use, reproduce, display and distribute

excerpts and data from the Products or Services, either alone or together with other material, in the ordinary course of Contractor's business, so long as such excerpts and data do not identify Purchasing Entity by name or contain any of the Purchasing Entity's confidential or proprietary information, and provided further that Contractor retains all right, title and interest in and to its processes, benchmarking data and data collection tools, assessment models and pertinent methodologies such as Strategic Planning, Contractor's copyrighted proprietary research and other pre-existing materials and data, such as Data Collection Templates and Survey Tools for Applications and Infrastructure, and benchmark comparisons ("Preexisting Intellectual Property"). Nothing contained in this Agreement shall preclude Contractor from rendering services to others or developing work products that are competitive with, or functionally comparable to, the Services. Contractor shall not be restricted in its use of ideas, concepts, know-how, data and techniques acquired or learned in the course of performing the Services, provided that Contractor shall not use or disclose any of the Purchasing Entity's confidential information. Notwithstanding the foregoing, no license or right is granted to Contractor to use or sublicense the Deliverables themselves, except as expressly authorized in writing by the Purchasing Entity.

- C. License of Pre-Existing Intellectual Property.** Contractor grants to the Purchasing Entity, for internal purposes only, a nonexclusive, perpetual, royalty-free, irrevocable, license to use, publish, translate, reproduce, perform, display, and dispose of the Intellectual Property, and its derivatives, used or delivered under this Master Agreement, but not created under it ("Pre-existing Intellectual Property"). The Contractor shall be responsible for ensuring that this license is consistent with any third-party rights in the Pre-existing Intellectual Property. Notwithstanding the foregoing, Each Party retains all rights, title, and interest in any and all of the intellectual property rights, including copyrights, patents, trade secrets, and service marks, if any in the Products and Services provided to the other Party, its employee(s), agents or subcontractors(s) for any purpose in and under this Master Agreement or any Participating Addendum.

XII. Indemnification and Limitation of Liability

- A. General Indemnification.** The Contractor shall defend, indemnify and hold harmless NASPO, NASPO ValuePoint, the Lead State, Participating Entities, and Purchasing Entities, along with their officers and employees, from and against third-party claims, damages or causes of action including reasonable attorneys' fees and related costs for any death, injury, or damage to tangible property directly caused by the negligence or willful misconduct of the Contractor, its employees or subcontractors or volunteers, at any tier, relating to performance under this Master Agreement.
- B. Intellectual Property Indemnification.** The Contractor shall defend, indemnify and hold harmless NASPO, NASPO ValuePoint, the Lead State, Participating Entities, Purchasing Entities, along with their officers and employees ("Indemnified Party"), from and against claims, damages or causes of action including reasonable attorneys' fees and related costs arising out of the claim that the Product or its use infringes Intellectual Property rights of another person or entity ("Intellectual Property Claim").
1. The Contractor's obligations under this section will not extend to any combination of the Product with any other product, system or method, unless the Product, system or method is:
 - a. provided by the Contractor or the Contractor's subsidiaries or affiliates;
 - b. specified by the Contractor to work with the Product;
 - c. reasonably required to use the Product in its intended manner, and the infringement could not have been avoided by substituting another reasonably available product, system or method capable of performing the same function; or
 - d. reasonably expected to be used in combination with the Product.
 2. The Indemnified Party shall notify the Contractor within a reasonable time after receiving notice of an Intellectual Property Claim. Even if the Indemnified Party fails to provide reasonable notice, the Contractor shall not be relieved from its obligations unless the Contractor can demonstrate that it was prejudiced in defending the Intellectual Property Claim resulting in increased expenses or loss to the Contractor. If the Contractor promptly and reasonably investigates and defends any Intellectual Property Claim, it shall have control over the defense and settlement of the Intellectual Property Claim. However, the Indemnified Party must consent in writing for any money damages or obligations for which it may be responsible.
 3. The Indemnified Party shall furnish, at the Contractor's reasonable request and expense, information and assistance necessary for such defense. If the Contractor fails to vigorously pursue the defense or settlement of the Intellectual Property Claim, the Indemnified Party may assume the defense or settlement of the Intellectual Property Claim and the Contractor shall be liable for all costs and expenses, including reasonable attorneys' fees and related costs, incurred by the Indemnified Party in the pursuit of the Intellectual Property Claim.

4. Unless otherwise set forth herein, Section XII. Indemnification, B. Intellectual Property Indemnification is not subject to any limitations of liability in this Master Agreement or in any other document executed in conjunction with this Master Agreement.

- C. **Limitation of Liability.** In no event will either party be liable for any consequential, indirect, special, or incidental damages such as damages for lost profits, business failure or loss, arising out of this Agreement, whether or not such party has been advised of the possibility of such damages. Except with respect to Contractor's obligations under Section XII (Indemnification), Contractor's entire liability arising out of an Order shall be limited to and shall not exceed two (2) times the amount paid to Contractor by the Purchasing Entity in the 12 months preceding the act or omission giving rise to the claim, or \$2,000,000, whichever is greater.

XIII. Insurance

- A. **Term.** Contractor shall, during the term of this Master Agreement, maintain in full force and effect, the insurance described in this section. A Participating Entity may negotiate alternative Insurance requirements in their Participating Addendum.
- B. **Class.** Contractor shall acquire such insurance from an insurance carrier or carriers licensed to conduct business in each Participating Entity's state and having a rating of A-, Class VII or better, in the most recently published edition of A.M. Best's Insurance Reports. Failure to buy and maintain the required insurance may result in this Master Agreement's termination or, at a Participating Entity's option, result in termination of its Participating Addendum.
- C. **Coverage.** Coverage must be written on an occurrence basis. The minimum acceptable limits will be as indicated below:
 1. Contractor shall maintain Commercial General Liability insurance covering premises operations, independent contractors, products and completed operations, blanket contractual liability, personal injury (including death), advertising liability, and property damage, with a limit of not less than \$1 million per occurrence and \$2 million general aggregate;
 2. Contractor must comply with any applicable State Workers Compensation or Employers Liability Insurance requirements.
- D. **Notice of Cancellation.** Contractor shall pay premiums on all insurance policies. Contractor shall provide notice to a Participating Entity who is a state within five (5) business days after Contractor is first aware of expiration, cancellation or nonrenewal of such policy or is first aware that cancellation is threatened or expiration, nonrenewal or expiration otherwise may occur.
- E. **Notice of Endorsement.** Prior to commencement of performance, Contractor shall provide to the Lead State a written endorsement to the Contractor's general liability insurance policy or other documentary evidence acceptable to the Lead State that (1) provides that written notice of cancellation will be delivered in accordance with the policy provisions, and (2) provides that the Contractor's liability insurance policy will be primary, with any liability insurance of any Participating State as secondary and noncontributory.
- F. **Participating Entities.** Contractor shall provide to Participating States and Participating Entities the same insurance obligations and documentation as those specified in Section XIII, except the endorsement is provided to the applicable Participating State or Participating Entity.
- G. **Furnishing of Certificates.** Contractor shall furnish to the Lead State copies of certificates of all required insurance in a form sufficient to show required coverage within thirty (30) calendar days of the execution of this Master Agreement and prior to performing any work. Copies of renewal certificates of all required insurance will be furnished within thirty (30) days after any renewal date to the applicable state Participating Entity. Failure to provide evidence of coverage may, at the sole option of the Lead State, or any Participating Entity, result in this Master Agreement's termination or the termination of any Participating Addendum.
- H. **Disclaimer.** Insurance coverage and limits will not limit Contractor's liability and obligations under this Master Agreement, any Participating Addendum, or any Purchase Order.

XIV. General Provisions

A. Records Administration and Audit

1. The Contractor shall maintain books, records, documents, and other evidence pertaining to this Master Agreement and Orders placed by Purchasing Entities under it to the extent and in such detail as will adequately reflect performance and administration of payments and fees. II. Introduction

The objective is to provide a wide range of professional procurement support services to all fifty states, District of Columbia, and US territories (that choose to participate) in the areas of planning and market research; pre-award and source selection; post-award contract management; policy support; category management; and vendor performance review planning and other support services.

The diagram below depicts services that support procurement activities based on a general procurement lifecycle. The list of potential services within a procurement life cycle **includes but is not limited to** the following items:

This portfolio is intended to supplement resources to assist procurement personnel to obtain the desired goods and/or services. For example, if the agency has the need to procure IT consulting services, the Procurement Assistance and Support Services (PASS) Contractor(s) will assist in writing specifications and/or develop an RFP and/or provide any other procurement support services that will provide the Purchasing Entity with a resulting contract for such good or service.

It is important to recognize that the government/state/city organization has fundamental inherent government functions that should not be delegated to a Contractor. When it relates to procurement, government personnel should be making final decisions. Federal Procurement Law defines inherent functions as those to be performed only by government employees. The State of North Carolina, Department of Administration (DOA) recommends this guidance as a good procurement policy and considers the following responsibilities as inherently governmental functions:

- Determining what supplies or services are to be acquired by the Government;
- Approving any solicitation documents, to include documents defining requirements, specifications, incentives, and evaluation criteria;
- Negotiating;
- Awarding contracts;
- Approving post-award contract changes to include, but not limited to, ordering changes in contract scope, schedule, budget;
- Responding to evaluations of Contractor performance and accepting or rejecting Contractor products or services; and
- Terminating contracts.

It is the responsibility of the Purchasing Entity placing the order to make the determination if an action must be performed by the government or may be performed by a Contractor. Ordering activities must require prospective Contractors to identify potential conflicts of interest and address those, prior to task order award. For more information, see Attachment B Scope of Work.

III. **Contractor Responsibility**

The Contractor shall be able to provide **all services in both Procurement Assistance Support Services (PASS) and IT Research, Advisory, and Consulting (IT RAC)** as described below. If the Contractor does not maintain the subject matter expert in-house, it will be their responsibility to secure the services needed as the Prime Contractor.

IV. **General Requirements**

Contractors shall be responsible for meeting the general requirements applicable across all categories. These requirements include:

- Experience
- Customer Service
- Management
- Quality Control
- Personnel/Staffing

Contractors are expected to maintain the highest standards of these requirements throughout the life of the contract and must require all Subcontractors to attest to the same standards of service.

V. **Task Orders**

During the Master Agreement term, Contractor may be required to provide services for a particular project(s), which is agreed to via a Task Order(s). 1. Subcategory One – Procurement Strategy/Strategy Plan

The procurement team is made up of stakeholders that will participate in developing the procurement strategy plan. Stakeholders are individuals who have an interest in the needed goods or services. These individuals provide a significant contribution to the effort based on their subject matter expertise of the project scope or deliverables. Depending on the complexity of the procurement, support services may be needed to develop the plan. Services within this category are as follows:

1. Procurement Plan Development/Review. Contractor shall provide services to include advice and recommendations for all elements in the plan, including approaches, options, strategies, risks, contracting methods, competition, sources, cost, milestone schedule, etc. If not available in-house, the subject-matter-expert(s) shall be obtained/contracted by the awarded Contractor(s) for this category. The plan should contain the following information:

Acquisition Background

Description of Requirement/Statement of Need
 Conditions
 Background and Contract History
 Contract Type: Unit costs or lump sum
 Performance Period
 Capability and capacity of Performance
 Estimated Schedule
 Estimated cost/budget

2. Research/Reports. The Contractor shall research existing Government-wide contracts for available products and services. Contractor shall evaluate different approaches to and sources for acquisition support. Contractor shall research available suppliers and compare the services and costs of obtaining support from different providers. Information gathered shall be provided in a report form for use the development of a procurement plan.

Contractor shall provide advice and recommendation for all elements in procurement plans, including approaches, options, strategies, risks, contracting methods, competition, sources, cost, milestone schedule, etc. Research existing Government-wide contracts for available products and services. Evaluate different approaches to and sources for procurement support. Research available suppliers and compare services and costs of obtaining support from the different providers.

Outputs: Written acquisition/procurement plans.

2. Subcategory Two – Independent Government Cost Estimate

An Independent Government Cost Estimate (IGCE) is a tool developed by government personnel to estimate the costs incurred by a Contractor in the performance of a contract. An IGCE is generated by the government, who may utilize and obtain input from an outside Contractor. Such Contractor remains confidential and will not be allowed to respond to a solicitation for which it participated in the IGCE in any manner whatsoever. The IGCE is an unbiased realistic cost estimate that reflects a clear understanding of the requirements. IGCEs serve various functions as:

- A projected, anticipated, or probable cost;
- A benchmark for establishing cost/price analysis;
- An analysis of reasonable and required resources to perform the contract; and
- A justification for decisions made throughout the procurement life cycle.

Specifically, IGCEs are used to project and reserve funds for acquisitions, determine if assumptions in a cost proposal are based on the same or similar assumptions, and determine fair and reasonable pricing.

This category of services is for **consultation and/or assistance in the development** of IGCEs. Government agencies do not always have sufficient resources or expertise to conduct these cost estimates on their own and may rely on third party Contractors to generate these reports on their behalf. Contractors providing these services under the resultant cooperative agreement shall be required to sign non-disclosure agreements and may not have a vested interest in the contract for which the Contractor is generating the estimate. Contractor must be unbiased and objective in its approach and methodologies.

Services within this category are as follows:

1. Data Collection. Contractor shall collaborate with the agency to gain a thorough understanding of the contract scope of work for which the IGCE is being generated. Contractor shall establish a plan that identifies stakeholders and other resource requirements necessary to generate the

IGCE, including a schedule that specifies the start date and delivery date for the final report, and a list of all potential sources of information required to complete the cost estimate.

At a minimum, the Contractor shall request and receive the following information:

- Statement of Work (SOW) and supporting scope documents (solicitations, drawings, plans, etc.)
- Any agency-developed cost estimates or contractor cost proposal and technical approach.
- Basis of Estimate (BOE), including a description of the scope, methodologies, references and defining deliverables, assumptions and exclusions, clarifications, adjustments, and level of uncertainty.

Other documentation or information that is useful in performing an IGCE include, but are not limited to:

- Past purchases of similar products or services
- Market research and knowledge of current economic conditions
- Proposal narrative, including background
- Work Breakdown Structure (WBS) and WBS Dictionary
- Project schedule
- Risk management plan
- Rates for fees or other mark-ups
- Lists of government-furnished property, equipment or services
- Cost estimate back-up documentation such as contracted labor rates and associated mark-ups, subcontracted quotes, specification sheets, purchase orders, and catalog cut sheets

2. Sufficiency Review. Once all requested information has been received, Contractor shall review the information for sufficiency to ensure adequate quantity and quality of data exists to develop an accurate and effective IGCE. The Sufficiency Review serves to:

- Determine all costs involved in performing the contract scope of work, including any direct and indirect costs as well as contractor profits and fees.
- Examine the information to ensure that it meets the technical requirements for its intended purpose.
- Determine whether the information is clearly documented, well organized, and presented at an appropriate level of detail, and that summary documents are traceable to the supporting documentation.
- Look at the depth and breadth of the supporting documents, and data contained therein.

The Sufficiency Review may determine that certain documentation is insufficient for proceeding with the cost estimate. In such instances, Contractor shall notify the agency, provide a list of the documents that are insufficient, and provide reasons for the finding or specific information needed to make the document acceptable.

3. Data Analysis. Data Analysis consists of two components: review and analysis. The review component consists of an in-depth examination and qualitative analysis of all the sufficient information requested and received as part of Data Collection. Contractor shall conduct a

thorough review of the SOW, agency-developed cost estimates or contractor-developed cost estimate or proposal, BOE, and any other sufficient information received. Contractor shall apply the appropriate estimating methodologies to the data to generate the IGCE.

Once the IGCE is generated, the estimate must be validated. Contractor shall employ the appropriate cost-validation techniques to test the cost estimate and determine whether it is reasonable and includes all necessary costs. Some commonly-accepted techniques include spot checking and preparing a check estimate. Offerors shall detail in their proposals the cost-validation techniques they utilize to validate cost estimates.

4. Results Reporting. Contractor shall prepare an in-depth IGCE report detailing its findings. The IGCE report prepared by the Contractor shall describe the BOE and provide the agency with recommendations based on the findings to assist in decision-making throughout the procurement life cycle. Contractor may be required to update the IGCE report as the acquisition progresses through the different phases of the procurement life cycle.

Contractor shall provide services that may include but are not limited to research and analysis of past purchases of similar products or services, current market value of the products or services, or other agency purchases of similar products and services.

Outputs: IGCEs.

3. Subcategory Three – Specifications/Scope of Work Review

After a need is determined, the quality, price and the performance of a product or service depend almost entirely on the purchase description used to communicate the requirement. If a specification was used as a method of describing the requirement, which mostly happens for services, that specification must be clear and concise. Challenges by potential suppliers, costly delays in completing a project or unnecessary problems further down the line are, in most instances, attributed to an improper, inadequate description of definition or requirements. The additional effort spent at the beginning of the procurement lifecycle increases the probability of full satisfaction in meeting the needs of the end-user, procurement and contract specialist and Contractor/supplier.

This category of services is for the **review and/or assistance in development** of a scope of work (SOW) or specification(s). If not available in-house, the technical specification development by a subject-matter-expert shall be obtained/contracted by the awarded Contractor(s) for this category. Services within this category are as follows:

1. Review Services. Provide recommendation to amend/develop specifications/SOW to produce correct, clear, and concise obligations of all parties with respect to the needed goods or services. Review services shall include verification, validation, and recommendation so that the SOW/specifications for needed goods and/or service clearly identify how the specification/SOW may be amended/changed to reflect the following:
 - The wording of the scope shall be precise.
 - The overall message should be clear and understandable.
 - The specification should simplify the process.
 - The tolerances should be reasonable.
 - The scope/specification should provide a relatively easy process to verify acceptance or rejection.

- The specification should be exact.
 - The specification should not be restrictive, but be broad enough to allow competition. If, however, there is justification for a restrictive specification/SOW, the report/recommendation shall provide a clear explanation for the need of the restrictive specification.
 - The specification/SOW should provide some built-in flexibility that is applicable to the industry.
2. Requirement Analysis. Requirement analysis is value analysis applicable to the writing of specifications or SOW to eliminate products and services that are not cost effective. The Contractor shall identify and make recommendations to specifications or SOW to ensure that an agency will obtain the best products or services that are available in the market at fair and reasonable prices. Requirement analysis services shall include review, analysis and recommendation and clearly identify how the specification/scope of work may be amended/changed to reflect the following, as applicable:
- Eliminate a requirement that is not cost effective.
 - Improve the quality level without impacting the cost(s).
 - Describe requirement(s) of quality standards to increase the service life.
 - Achieve total value, i.e. not only initial expense as the award factor.
3. Specification Writing (Technical). Contractors' support team members shall possess strong communication skills and expertise in needed topics and programs. In addition, technical writers must have the skills to research and effectively interview subject matter experts (SMEs), if they are not the SMEs themselves. The technical writer should gather information and communicate complicated ideas in a clear and informative manner.

Contractor(s) shall be able to provide specification writing services for all types of specifications, such as design, specifications, performance specifications, or market grades to name a few.

The Contractor shall assist in the development and preparation of pre-award Request for Information (RFI), Statements of Work (SOW), Statements of Objective (SOO) and other requirements documents. This effort includes assisting in researching and drafting specifications and standards, including Performance-based Work Statements (PWS); developing performance measures, providing consultation and recommendations; and coordinating requirements documents. Note: State to state may vary on what they call SOW, i.e. statement of work, statement of need, scope of work, etc.

Outputs: SOWs; SOOs; PWSs; and related documents, i.e. restrictive specifications justification.

Surveillance: Monitoring timelines with milestones
 Monitoring performance during contract period
 Verifying contractor's performance of SOW through checklist(s)

4. Subcategory Four – Market Research

Market Research is a necessary step to identify available sources to meet the needs of any given solicitation. Market research refers to the examination of available sources to find the available sources of supply which may identify critical business requirements. Due to limited resources or timing, agencies may require the assistance of an outside Contractor to provide necessary data to develop a solicitation that will reach the widest distribution possible.

This category of services is for **consultation and/or assistance with market research services**. Services within this category are as follows:

Market Research Services – Contractor shall research available suppliers and compare the services and costs of obtaining goods or services from different providers. Information gathered shall be provided in a report form for use in the development of a competitive solicitation. The Contractor shall provide advice and recommendation for all elements in market research, including approaches, options, strategies, risks, methods, competition, sources, cost, milestone, etc. Research existing Government-wide contracts for available products and services. Research available suppliers and compare services and costs of obtaining support from the different providers.

The market research team should consider the following:

-
- The overall budget for the project should be clearly stated and the funding source should be identified prior to commencement of services.
- The Market Research Plan should be agreed upon by all parties before any commencement of services.
- The methodology to be used should be clearly specified and agreed upon by all parties.
- The research should have a simplified process.
- The target markets should be clearly identified.
- The research should be broad enough to capture the largest possible data set.
- The research should not be overly restrictive.
- The research should provide some built-in flexibility that is applicable to industry.

Outputs: Market research documentation.

5. Subcategory Five – Cost & Pricing Analysis

A Cost & Pricing Analysis conducted before a Request for Proposal (RFP) is released will assist a State in determining how to capture all costs related to a project, determine which method is best for evaluating cost, and if the budget for said project is realistic. Cost & Pricing Analysis is a key component to predicting the viability of a project. Because of limited resources or timing, agencies may require the assistance of an outside Contractor to assist with a Cost & Pricing Analysis for stakeholder review.

Cost & Pricing Analysis may also be conducted after BAFOs are received. Cost & Pricing Analysis may also be conducted post award for contract renewals, modifications, or assistance in determination of termination due to non-compliance with contract terms.

This category of services is for **consultation and/or assistance with cost & pricing analysis services**. Services within this category are as follows:

Cost & Pricing Analysis – Contractor shall assist in developing estimated cost and price elements for the work to be performed to prepare analyses for Stakeholders to make sound decisions on the financial viability of a project.

Cost & Pricing Analysis services shall include, but are not limited to:

- Developing plans and alternatives for effective price competition
- Informing states of impact of budget on technical, contract, and pricing outcomes
- Developing approach for State's/Stakeholder' budget planning
- Developing cost proposal solicitation documents to aid states in the development of the RFP
- Analyzing contracts/programs to assess price competitiveness
- Providing alternatives and research for stakeholders
- Providing estimates (case-by-case based on need of State/Stakeholder).
- Demonstrating value of RFP and/or new system/product to State/Stakeholder
- Providing a Make-or-buy analysis
- Providing a Go, no-go analysis
- Developing and analyzing BAFO requests
- Determining that the prices submitted by Offerors are acceptable, fair and reasonable
- Providing cost analysis during RFP evaluation – services performed to help States/Stakeholders analyze the cost proposals of several vendors to find best value
- Developing evaluation support documentation to help States/Stakeholders validate the reasonableness of proposed labor rates as well as indirect rates (fringe, overhead, general and administrative, and materials)
- Performing independent review of each cost element within an Offeror's cost proposal
- Providing post-award services (contract renewals, modifications, assistance in determination of termination if not in compliance with contract terms)
- Burn Rate Analysis
- Analysis of Change Orders & Modifications
- Award fee/incentive fee analysis
- Closeout payment analysis

Outputs: Cost and pricing analyses.

6. Subcategory Six – Solicitation Review or Preparation

The solicitation document is the official document inviting the vendor community to respond to the needs of the government entity. The solicitation should foster competition and ensure fair and equitable treatment of interested parties. Competition has multiple levels. Competition exists not only in prices but also in the technical competence of the vendors and in the quality of their products or services. The request for proposal process allows the opportunity for vendors to submit innovative solutions, increasing the Government's latitude of choice and assuring the reasonableness of costs.

This category of services is for the **review and/or development** of a solicitation document. Services within this category would be as follows:

1. Review Services Contractor shall provide recommendation to amend/develop any part of the solicitation document to produce correct, clear, and concise obligations of all parties with respect to the needed goods or services. Review services shall include verification, validation, recommendation to improve at minimum the following sections of the solicitation:
 - Scope of work, statement of work or specifications.
 - Standard bid/proposal clauses such as bid guarantee, indemnification, intellectual property rights, insurance, etc.

- Evaluation criteria.
 - Bidder/Offeror qualifications.
 - Proposal format.
 - Administrative and Technical Response Requirements.
 - Price and Cost sheets.
 - Contract administration, post award.
 - Payment terms.
2. RFP Development. Contractor shall develop and prepare the solicitation document, which may be a request for quotes (RFQ), request for proposals (RFP), including two-step process solicitation or any other hybrid solicitation within the system of that State. The solicitation shall include all appropriate solicitation terms and conditions applicable

Outputs: Solicitations

7. Subcategory Seven – Source Selection

The nature of the source selection planning process, the techniques for obtaining information, the procedures used in evaluation, and the decision-making methods vary from procurement to procurement. Source selection planning entails: preparing to receive bids or proposals, preparing to apply evaluation criteria, and determining standards to select a Contractor. Proposals are often separated into technical and price sections with each evaluated separately. Evaluation may be complex, requiring a panel of experts. Some proposal evaluation may require a consultant's assistance. The Source Selection Plan (SSP) should include: evaluation criteria, evaluation standards, weighting system, screening system, and source selection process.

This category of services is for **assistance in preparation of a source selection plan and source selection activities**. Services within this category are as follows:

Source Selection – Contractor shall develop and prepare source selection plans, in accordance with State statute and rules; instruct evaluation team members on roles and responsibilities; act in the capacity of an advisory role during the evaluation, which may include cost estimating or technical subject matter expertise; ensure Conflict of Interest/Nondisclosure forms are signed; prepare evaluation sheets or score sheets; and prepare draft of source selection decision memorandum.

Outputs: Source Selection Plans (SSP), Evaluation Sheets

8. Subcategory Eight – Cost Realism Analysis

Cost Realism Analysis is usually conducted after cost proposals have been received in response to a RFP. Cost Realism Analysis may be requested by States to determine if all components of cost have been contemplated from all vendors. Determining if cost proposals are acceptable and fair will assist States in a successful evaluation and award of a contract which is in the best interest of the State. Cost realism is about the system of logic, the assumptions about the future, and the reasonableness of the historical basis of the estimate. It's about the estimating information (cost data) that makes up the foundation of the estimate.

This category of services is for **consultation and/or assistance with cost realism analysis services**. Services within this category are as follows:

Cost Realism – The Contractor shall independently review and evaluate specific elements of each Offeror’s proposed cost estimate to determine whether the cost estimate is realistic for the work to be performed; reflects a clear understanding of the requirements; and is consistent with the unique methods of performance and materials described in the Offeror’s technical proposal. Cost realism analysis is conducted by evaluating the supportive data that form the bases of the individual elements of cost to determine probable cost of the performance. The probable cost shall be used for the purposes of evaluation to determine the best value. The probable cost is determined by adjusting each Offeror’s proposed cost, and fee when appropriate, to reflect any additions or reductions in cost elements to realistic levels based on the results of the cost realism analysis.

Probable Cost Estimate: is the Purchasing Entity's estimate of what it will cost for the Offeror to complete the contract based on the Purchasing Entity's evaluation of the offeror's technical proposal and proposed costs. This estimate is complimentary with and must be performed in conjunction with all cost realism analyses and is a principal product of the Purchasing Entity in the source selection evaluation process.

Cost Realism services shall include, but are not limited to:

- Determining the Offeror’s price is realistic for the work proposed
- Understanding and implementation of contract risk factors
- Developing a Purchasing Entity’s probable cost estimate
- Conducting cost to technical realism analysis

Outputs: Cost realism analyses.

9. Subcategory Nine - Contract Development/Contract Formation

The goal of contract development is to reduce in writing contract goals, contract type and contract elements. Identification of contract goals include the description of goods or services; delivery information (if applicable); protection of the financial interests of the agency; and any potential areas of dispute such as defining acceptance, handling wrong product, delays, personality conflicts, breach, payment or changes in a contract. The goals also include change order procedures.

The Contractor shall provide assistance to the government entity in the formulation of the contract between the awarded vendor and government entity.

This category of services is for **consultation and/or assistance with contract development**. Services within this category are as follows:

Contract Development

- Appropriate staff with the level of experience to handle the different needs or difficulties of the contract.
- To be able to work with the state entity to develop a schedule for completion of the contract.

- Must have existing legal staff available to vet the contract for each entity's legal requirements.
- Must be able to interact with the awarded vendor's attorney to produce a contract that is amicable to both parties.
- Must be able to format the contract to the entity's preference.
- Must provide pricing for the different levels of staffing that will provide service.
- Will be required to be available to administer and manage supplemental agreements or legal issues that arise out of the formation of the contract for the duration of the contract.

Outputs: Contract documentation.

10. Subcategory Ten – Contract Management

Contract management refers to post-award type activities, such as contract implementation, contract administration, measurement of work completion and payment computation. Moreover, it involves the monitoring of a contract, making important changes and modifications to the contract and dealing with related problems. Activities in contract management facilitate a positive working relationship between the government customer, procurement staff, and the contractor for the successful implementation of the contract award. Acquisition consultants can assist the government procurement staff and program managers in various capacities of administration and facilitation with the contractor, not including any inherent governmental duties.

Services within this category are as follows:

1. Contract Administration. Manage the relationship between the Contractor and end user, including the monitoring contract fulfillment on the part of government agencies. Development of the Contract Administration Plan (CAP) which will define how the contract will be administered. Monitor contractor compliance with terms of the contract, including site visits and labor interviews.

The CAP provides a mechanism to reconcile the various contract documents and the order of precedence into a management tool that can be used to focus and govern implementation activities. The plan itself will vary based on the complexity, risk, and scope along with the requirements of each contract. In many cases a CAP should only be developed for high-risk or highly complex procurements. The frame of the plan should focus on the Who, What, When, Where, and How of contract administration. CAPs generally address a common set of topics, with particular emphasis on process, output and outcome. In government contract management, there may be less emphasis on the "process" the contractor uses to achieve the goals of the contract than of the achievement of the expected outputs and outcomes.

While Contract Administration Plans generally share a similar structure, the inclusion of each topic into the CAP should be chosen based on necessity rather than out of formality. Contract Administration Plan topics may include:

- Project description
- Period of performance
- Schedule, critical milestones and/or delivery dates
- Critical path tasks and deliverables

- Roles and responsibilities
- Data and reporting
- Inspection and acceptance
- Personnel requirements
- Testing
- Warranty provisions
- Watch list items
- Special terms and conditions
- Insurance
- Process for managing change and issue resolution

Outputs: Performance Workplan or CAP; Documentation of Contract Performance such as Observation Record, Compliance Record, Discrepancy Record, Unsatisfactory Performance Report, Summary Evaluation Report, Contractor Status Report.

2. Vendor Performance Plan Development/Review. The Contractor shall have experience drafting comprehensive plans outlining the agency and vendor responsibilities and requirements in an easy to understand document. The plan must describe processes needed and recommend tools that will guide the contracting agency through the vendor performance evaluation. The plan shall include, but not be limited to, how to:

- Improve communication between buyers and vendors regarding performance
- Encourage better performance and accountability through incentives and penalties
- Enable performance analysis through Key Performance Indicators (KPI) and benchmarking
- Capture performance data
- Identify strategic priorities and set targets
- Capture performance data
- Meet strategic priorities and improve programs

The plan shall include the method for scoring and weighting the evaluation criteria and how scores shall be tied to an award or incentive fee determination along with penalties. The plan shall explain how Contractors must receive evaluation criteria, be informed of their performance during the contract, be debriefed at the end of the contract and deal with appeals.

3. Contract Modifications. Assist in the preparation of incentive and award fees. Incentive fees are typically dependent upon the performance over a given period and are usually taken in relation to a benchmark index. Award fees provides an additional profit or fee amount that may be awarded, in whole or in part, based upon periodic evaluations of ongoing contractor performance. Assist in review of directed changes, formal changes to the original contract resulting from the buyer's actions or directions that impact the cost or schedule for performance. Determine if a constructive change has occurred, that is, any action or inaction on the part of the agency that have not been made through a formal change order, which causes the Contractor to perform additional work outside the scope of the original contract. Contractor can assist government procurement staff and program managers in review and recommendation to make the appropriate contract modification.

Outputs: Award or incentive fee determinations; contract modification determination.

11. Subcategory Eleven – Vendor Performance Evaluation Program

Contract closeout involves several activities. Unlike a purchase order where receipt of the items ordered and subsequent payment constitute closure, a contract requires documentation to the contract file that includes a written report with the description and analysis of the Contractor's performance. A quality vendor performance review (aka performance evaluation) assesses how the vendor is performing against Key Performance Indicators (KPI)'s and Service Level Agreements (SLA)'s established in the vendor's contract. However, it can also show non-contractual performance issues, such as incidents that aren't measured by a service level.

This category for services is for the assistance in the development and implementation of a Vendor Performance Evaluation Program. This does not include vendor performance evaluation for construction contracts. Services within this category are as follows:

Evaluation Program. The contractor shall understand and have insights into the requirements needed to develop a vendor performance evaluation program. The contractor shall work with the contracting agency to determine information that is useful in creating a vendor performance evaluation to include, but not limited to:

- When the vendor performance evaluation is needed and how often it should be measured.
- The KPI's, such as contract compliance, customer satisfaction, cost competitiveness, cost control, continuous improvements, and timeliness should be clearly identified along with formulation of templates for the evaluation which shall become standardized.

Output: Key Performance Indicators, Vendor Performance Evaluation Program.

2. Value Add 2 – Category Management

Category management is a strategic approach to purchasing that allocates a government's procurement resources into specific categories of spending to be analyzed by category managers and aligned with the marketplace through in-depth spend and market analyses.

The main objective of Category management is to build efficiencies and maximize purchasing decisions across the agency by reducing duplication in the contracting process; better leveraging the government's buying power, and promoting the use of innovative and best in class solutions.

By consolidating purchases into main areas of spend, category management serves to move the government away from managing purchases and evaluating prices individually across multiple purchasing units to more directly managing entire categories of common spend to deliver better value for the entire agency.

This category for services is for the **assistance in development and implementation of** an action plan for Category Management or Product and Service Catalogs. If not available in-house, the action plan development or implementation by a subject-matter-expert shall be obtained/contracted by the awarded contractor(s) for this category. Services within this category are as follows:

1. Data analysis. The Contractor shall have knowledge of principles and practices in public procurement including category management and have a clear understanding of various types of
