DAS and the Contractor are bound by the terms of National Association of State Procurement Officials ("NASPO") master agreement number LS5002, attached as Exhibit 1, entered into between the Contractor and the State of Utah, effective September 16, 2026, (the "Master Agreement") for the purchase of cloud and software solutions, including Software as a Service (SaaS), Infrastructure as a Service (IaaS), Platform as a Service (PaaS), On-premises, and Value-Added Services, as a direct service provider or as a reseller of such services, except as modified by Attachment 1.
2. This Participating Addendum shall be in effect from the date that the Connecticut Attorney General's Office approves it, as evidenced by its signature below (the "Effective Date"), or September 16, 2026, whichever is later.

4. For purposes of this Participating Addendum, references to the Lead State in the Master Agreement intended to be obligations of the Participating Entity or obligations of the Contractor to the Participating Entity, shall be interpreted to mean DAS. To the extent references to the Lead State are obligations of the State of Utah, said references shall not be interpreted to mean DAS.
5. Order of Precedence:

By way of example but not limitation, if a Service Level Agreement is executed with or included in the SOW, such language shall prevail over any similar language in the Master Agreement.

- C. Unless specifically included in this Contract, all terms listed or referenced in any solicitation documents or in the Contractor's response to any solicitation documents are excluded.
 - D. Subject to the terms in this Section 5, all other terms in the Master Agreement not specifically deleted or modified in Attachment 1 remain in full force and effect as to the Contractor, DAS and the Client Agency.
- 6. The Contractor shall comply with the Connecticut Standard Terms, attached as Exhibit 2. As used in this Participating Addendum, the capitalized word "Contract" is deemed to refer to this Participating Addendum and its exhibits.
 - 7. To the extent that DAS or the Client Agency fails to meet its obligations under this Participating Addendum, the Contractor's exclusive remedies will be to seek redress in accordance with applicable Connecticut law, including the claims commissioner process set forth in Chapter 53 of the Connecticut General Statutes concerning claims against the State.
 - 8. Nothing in the Master Agreement as modified by this Participating Addendum shall be construed as a modification, compromise or waiver by DAS or the State of any rights or defenses of any immunities provided by Federal law or the laws of the State of Connecticut to the State of Connecticut or any of its officers and employees, which they may have had, now have or will have with respect to all matters arising out of the Master Agreement as modified by this Participating Addendum. Deletions and Modifications

1. The last sentence in Subsection III.1.3 of Section III (Order of Precedence) of Attachment A (NASPO ValuePoint Master Agreement Terms and Conditions) of the Master Agreement which reads as follows is deleted in its entirety: "End User Agreements are expected to be negotiated by a Purchasing Entity seeking to utilize the solution at the time a Project is entered into."
2. Section IX (Inspection and Acceptance) of Attachment A (NASPO ValuePoint Master Agreement Terms and Conditions) of the Master Agreement is deleted in its entirety and replaced with the following:

"IX. Inspection and Acceptance

IX.1 Laws and Regulations. Any and all Products offered and furnished must comply fully with all applicable Federal, State, and local laws and regulations.

IX.2 Applicability. Unless otherwise specified in the Master Agreement, Participating Addendum, or ordering document, the terms of this Section IX will apply. This section is not intended to limit rights and remedies under the applicable commercial code.

IX.3 Inspection. All Products are subject to inspection at reasonable times and places before acceptance. Contractor shall provide right of access to the Lead State, or to any other authorized agent or official of the Lead State or other Participating or Purchasing Entity, at reasonable times, to monitor and evaluate performance, compliance, and/or quality assurance requirements under this Master Agreement.

IX.3.1 Products that do not meet specifications may be rejected. Failure to reject upon receipt, however, does not relieve the Contractor of liability for material (nonconformity that substantially impairs value) latent or hidden defects subsequently revealed when goods are put to use.

IX.3.2 Acceptance of such goods may be revoked in accordance with the provisions of the applicable commercial code, and the Contractor is liable for any resulting expense incurred by the Purchasing Entity related to the preparation and shipping of Product rejected and returned, or for which acceptance is revoked.

IX.4 Failure to Conform. If any services do not conform to contract requirements, the Purchasing Entity may require the Contractor to perform the services again in conformity with contract requirements, at no increase in Order amount. When defects cannot be corrected by re-performance, the Purchasing Entity may require the Contractor to take necessary action to ensure that future performance conforms to contract requirements and reduce the contract price to reflect the reduced value of services performed.

IX.5 Acceptance Testing. Purchasing Entity may establish a process, in keeping with industry standards, to ascertain whether the Product meets the standard of performance or specifications prior to acceptance by the Purchasing Entity.

IX.5.1 The acceptance testing period will be thirty (30) calendar days, unless otherwise specified, starting from the day after the Product is delivered or, if installed by Contractor, the day after the Product is installed and Contractor certifies that the Product is ready for acceptance testing.

IX.5.2 If the Product does not meet the standard of performance or specifications during the initial period of acceptance testing, Purchasing Entity may, at its discretion, continue acceptance testing on a day-to-day basis until the standard of performance is met.

IX.5.3 Upon rejection, the Contractor will have fifteen (15) calendar days to cure. If after the cure period, the Product still has not met the standard of performance or specifications, the Purchasing Entity may, at its option: (a) declare Contractor to be in breach and terminate the Order; (b) demand replacement Product from Contractor at no additional cost to Purchasing Entity; or, (c) continue the cure period for an additional time period agreed upon by the Purchasing Entity and the Contractor.

IX.5.4 Contractor shall pay all costs related to the preparation and shipping of Product returned pursuant to the section.

IX.5.5 No Product will be deemed Accepted and no charges will be paid until the standard of performance or specification is met.”

3. The following is added as a new Section X.5 of Section X (Warranty) of Attachment A (NASPO ValuePoint Master Agreement Terms and Conditions) of the Master Agreement: “Breach of Warranty. Upon breach of the warranty set forth above, the Contractor will repair or replace (at no charge to the Purchasing Entity) the Product whose nonconformance is discovered and made known to the Contractor. If the repaired and/or replaced Product proves to be inadequate, or fails of its essential purpose, the Contractor will refund the full amount of any payments that have been made.”

4. Section 12.1 of Section XII (Indemnification) of Attachment A (NASPO ValuePoint Master Agreement Terms and Conditions) of the Master Agreement is deleted in its entirety and replaced with the following:

“XII.1 General Indemnification. The Contractor shall defend, indemnify and hold harmless NASPO, NASPO ValuePoint, the Lead State, Participating Entities, and Purchasing Entities, along with their officers and employees, from and against any and all third party claims, damages or causes of action including reasonable attorneys’ fees and related costs for any death, injury, or damage to tangible property arising from any negligent or willful act, error, or omission of the Contractor, its employees or Subcontractors or volunteers, at any tier, relating to performance under this Master Agreement.”

5. Section 12.2.4 of Section XII (Indemnification) of Attachment A (NASPO ValuePoint Master Agreement Terms and Conditions) of the Master Agreement is deleted in its entirety and replaced with the following: “Unless otherwise set forth herein, Section 12 is not subject to any limitations of liability in this Master Agreement or in any other document executed in conjunction with this Master Agreement.”

6. Section XIII.3 of Section XIII (Insurance) of Attachment A (NASPO ValuePoint Master Agreement Terms and Conditions) of the Master Agreement is deleted in its entirety and replaced with the following:

“XIII.3 Coverage. Coverage must be written on an occurrence basis, except Data Breach and Privacy/Cyber Liability including Technology Errors and Omissions coverage which is on a claims-made basis. 7. Section XIV.2.3 of Section XIV (General Provisions) of Attachment A (NASPO ValuePoint Master Agreement Terms and Conditions) of the Master Agreement is deleted in its entirety and replaced with the following:

“XIV.2.3 Injunctive Relief. Contractor acknowledges that Contractor’s breach of Section 14.2 would cause irreparable injury to the Purchasing Entity that cannot be adequately compensated in monetary damages. Accordingly, Purchasing Entity may seek and obtain injunctive relief against the breach or threatened breach of the foregoing undertakings, in addition to any other legal remedies that may be available. Contractor acknowledges and agrees that the covenants contained herein are necessary for the protection of the legitimate business interests of Purchasing Entity and are reasonable in scope and content.”

- II.1 Initial Term.** The initial term of this Master Agreement is for ten (10) years. The Lead State may, prior to execution, adjust the effective date or duration of the initial term or renewal period of any Master Agreement for the purpose of making the Master Agreement coterminous with others.
- II.2 Amendment Limitations.** The terms of this Master Agreement will not be waived, altered, modified, supplemented, or amended in any manner whatsoever without prior written agreement of the Lead State and Contractor.
- II.3 Amendment Term.** The term of the Master Agreement may be amended past the initial term and stated renewal periods for a reasonable period if in the judgment of the Lead State a follow-on competitive procurement will be unavoidably delayed (despite good faith efforts) beyond the planned date of execution of the follow-on master agreement. This subsection will not be deemed to limit the authority of a Lead State under its state law to otherwise negotiate contract extensions.

III. Order of Precedence

- III.1 Order of Precedence.** The following Order of Precedence will apply to any purchase or Order made under this Master Agreement:

III.1.1 A Participating Entity's Participating Addendum ("PA");

III.1.2 The following Master Agreement Attachments: Attachment A: NASPO

ValuePoint Master Agreement Terms and Conditions, including A.1, A.2, and A.3 as applicable, Attachment B: Scope of Work, and Attachment C: Pricing Discounts and Schedule,

- III.1.3** Attachment E: Contractor, Fulfillment Partner, or Third-party Provider's End User Agreement issued against a Participating Addendum. End User Agreements are expected to be negotiated by a Purchasing Entity seeking to utilize the solution at the time a Project is entered into;
 - III.1.4** A Purchase Order, Service Level Agreement, or Statement of Work/specifications issued against the Master Agreement;
 - III.1.5** The Solicitation or, if separately executed after award, the Lead State's bilateral agreement that integrates applicable provisions;
 - III.1.6** Attachment D: Contractor's response to the Solicitation, as revised (if permitted) and accepted by the Lead State;
 - III.1.7** Any other Attachments to the Master Agreement not listed above.
- III.2 Conflict.** These documents will be read to be consistent and complementary. Any conflict among these documents will be resolved by giving priority to these documents in the order listed above. Contractor terms and conditions that apply to this Master Agreement are only those that are expressly accepted by the Lead State and must be in writing and attached to this Master Agreement as an Exhibit or Attachment.
- III.3 Participating Addenda.** Participating Addenda will not be construed to diminish, modify, or otherwise derogate any provisions in this Master Agreement between the Lead State and Contractor. The term of a Participating Addendum will not exceed the term of this Master Agreement, except when a Participating Entity determines an extension of its Participating Addendum is necessary to avoid a lapse in contract coverage and is permitted by law.

IV. Participants and Scope

- IV.1 Requirement for a Participating Addendum.** Contractor may not deliver Products under this Master Agreement until a Participating Addendum acceptable to the Participating Entity and Contractor is executed.
- IV.2 Applicability of Master Agreement.** NASPO ValuePoint Master Agreement Terms and Conditions are applicable to any Order by a Participating Entity (and other Purchasing Entities covered by their Participating Addendum), except to the extent altered, modified, supplemented or amended by a Participating Addendum, subject to Section III. For the purposes of illustration and not limitation, this authority may apply to unique delivery and invoicing requirements, confidentiality requirements, defaults on Orders, governing law and venue relating to Orders by a Participating Entity, indemnification, and insurance requirements. Statutory or constitutional requirements relating to availability of funds may require specific language in some Participating Addenda in order to comply with applicable law. The expectation is that these alterations, modifications, supplements, or amendments will be addressed in the Participating Addendum or, with the consent of the Purchasing Entity and Contractor, may be included in the ordering document (e.g., purchase order or contract) used by the Purchasing Entity to place the Order.

- IV.3 Scope of Work Updates.** At the discretion of the Lead State, and subject to agreement by the parties, the scope of this Master Agreement may be amended to include or accommodate new or updated models, versions, or technologies related to the objectives and deliverables set forth in the Solicitation.
- IV.4 Obligated Entities.** Obligations under this Master Agreement are limited to those Participating Entities who have signed a Participating Addendum and Purchasing Entities within the scope of those Participating Addenda. States or other entities permitted to participate may use an informal competitive process to determine which Master Agreements to participate in through execution of a Participating Addendum. Participating Entities incur no financial obligations on behalf of other Purchasing Entities.
- IV.5 Notice of Participating Addendum.** Contractor shall email a fully executed PDF copy of each Participating Addendum to pa@naspovaluepoint.org to support documentation of participation and posting in appropriate databases.
- IV.6 Participating Entities.**
- IV.6.1** If not proscribed by law or by the Chief Procurement Official of the state in which the entity is located, an entity may be eligible to execute a Participating Addendum directly with Contractor. Such entities may include:
- IV.6.1.1** Political subdivisions, public agencies, and service districts;
 - IV.6.1.2** Public and private educational institutions, including K-12 public, charter, and private schools; institutions of higher education; and trade schools;
 - IV.6.1.3** Federally recognized tribes;
 - IV.6.1.4** Quasi-governmental entities; and
 - IV.6.1.5** Eligible non-profit organizations.
- IV.6.2** Prior to execution of a Participating Addendum with an entity listed above, Contractor shall coordinate with NASPO to confirm the entity's eligibility to execute a Participating Addendum. A determination that an entity is eligible to execute a Participating Addendum is not a determination that procurement authority exists; each entity must ensure it has the requisite procurement authority to execute a Participating Addendum.
- IV.7 Prohibition on Resale.** Subject to any specific conditions included in the Solicitation or Contractor's proposal as accepted by the Lead State, or as explicitly permitted in a Participating Addendum, Purchasing Entities may not resell Products purchased under this Master Agreement. Absent any such condition or explicit permission, this limitation does not prohibit: payments by employees of a Purchasing Entity for Products; sales of Products to the general public as surplus property; and fees associated with inventory transactions with other governmental or nonprofit entities and consistent with a Purchasing Entity's laws and regulations. Any sale or transfer permitted by this subsection must be consistent with license rights granted for use of Intellectual Property.
- IV.8 Individual Customers.** Except as may otherwise be agreed to by the Purchasing Entity and Contractor, each Purchasing Entity shall follow the terms and conditions

of the Master Agreement and applicable Participating Addendum and will have the same rights and responsibilities for their purchases as the Lead State has in the Master Agreement and as the Participating Entity has in the Participating Addendum, including but not limited to any indemnity or right to recover any costs as such right is defined in the Master Agreement and applicable Participating Addendum for their purchases. Each Purchasing Entity will be responsible for its own charges, fees, and liabilities. The Contractor will apply the charges and invoice each Purchasing Entity individually.

IV.9 Release of Information. Throughout the duration of this Master Agreement, Contractor must secure from the Lead State prior approval for the release of information that pertains to the potential work or activities covered by the Master Agreement. This limitation does not preclude publication about the award of the Master Agreement or marketing activities consistent with any proposed and accepted marketing plan.

IV.10 No Representations. The Contractor shall not make any representations of NASPO ValuePoint, the Lead State, any Participating Entity, or any Purchasing Entity's opinion or position as to the quality or effectiveness of the services that are the subject of this Master Agreement without prior written consent.

V. NASPO ValuePoint Provisions

V.1 Applicability. NASPO ValuePoint is not a party to the Master Agreement. The terms set forth in Section V are for the benefit of NASPO ValuePoint as a third-party beneficiary of this Master Agreement.

V.2 Administrative Fees

V.2.1 NASPO ValuePoint Fee. Contractor shall pay to NASPO ValuePoint, or its assignee, a NASPO ValuePoint Administrative Fee of one-quarter of one percent (0.25% or 0.0025) no later than sixty (60) days following the end of each calendar quarter. The NASPO ValuePoint Administrative Fee must be submitted quarterly and is based on all sales of Products and Services under the Master Agreement (less any charges for taxes or shipping). The NASPO ValuePoint Administrative Fee is not negotiable. This fee is to be included as part of the pricing submitted with a vendor's response to the Lead State's Solicitation.

V.2.2 State Imposed Fees. Some states may require an additional fee be paid by Contractor directly to the state on purchases made by Purchasing Entities within that state. For all such requests, the fee rate or amount, payment method, and schedule for such reports and payments will be incorporated into the applicable Participating Addendum. Unless agreed to in writing by the state, Contractor may not adjust the Master Agreement pricing to include the state fee for purchases made by Purchasing Entities within the jurisdiction of the state. No such agreement will affect the NASPO ValuePoint Administrative Fee percentage or the prices paid by Purchasing Entities outside the jurisdiction of the state requesting the additional fee.

V.3 NASPO ValuePoint Summary and Detailed Usage Reports

V.3.1 Sales Data Reporting. In accordance with this section, Contractor shall

report to NASPO ValuePoint all Orders under this Master Agreement for which Contractor has invoiced the ordering entity or individual, including Orders invoiced to Participating Entity or Purchasing Entity employees for personal use if such use is permitted by this Master Agreement and the applicable Participating Addendum ("Sales Data"). By placing an Order under this Master Agreement, a Purchasing Entity agrees to have their Data (i) included in reports submitted by Contractor to NASPO ValuePoint and (ii) used by NASPO ValuePoint as set forth in this Master Agreement without limitation, unless otherwise requested in writing by the Purchasing Entity and agreed to in writing by NASPO. Timely and complete reporting of Sales Data by Contractor is a material requirement of this Master Agreement. Reporting requirements, including those related to the format, contents, frequency, or delivery of reports, may be updated by NASPO ValuePoint with reasonable notice to Contractor and without amendment to this Master Agreement. NASPO ValuePoint shall have exclusive ownership of any media on which reports are submitted and shall have a perpetual, irrevocable, non-exclusive, royalty free, and transferable right to display, modify, copy, and otherwise use reports, Data, and information provided under this section.

- V.3.2 Summary Sales Data.** "Summary Sales Data" is Sales Data reported as cumulative totals by state. Contractor shall, using the reporting tool or template provided by NASPO ValuePoint, report Summary Sales Data to NASPO ValuePoint for each calendar quarter no later than thirty (30) days following the end of the quarter. If Contractor has no reportable Sales Data for the quarter, Contractor shall submit a zero-sales report.
- V.3.3 Detailed Sales Data.** "Detailed Sales Data" is Sales Data that includes for each Order all information required by the Solicitation or by NASPO ValuePoint, including customer information, Order information, and line-item details. Contractor shall, using the reporting tool or template provided by NASPO ValuePoint, report Detailed Sales Data to NASPO ValuePoint for each calendar quarter no later than thirty (30) days following the end of the quarter. Detailed Sales Data shall be reported in the format provided in the Solicitation or provided by NASPO ValuePoint. The total sales volume of reported Detailed Sales Data shall be consistent with the total sales volume of reported Summary Sales Data.
- V.3.4 Sales Data Crosswalks.** Upon request by NASPO ValuePoint, Contractor shall provide to NASPO ValuePoint tables of customer and Product information and specific attributes thereof for the purpose of standardizing and analyzing reported Sales Data ("Crosswalks"). Customer Crosswalks must include a list of existing and potential Purchasing Entities and identify for each the appropriate customer type as defined by NASPO ValuePoint. Product Crosswalks must include Contractor's part number or SKU for each Product in Offeror's catalog and identify for each the appropriate Master Agreement category (and subcategory, if applicable), manufacturer part number, Product description, eight-digit UNSPSC Class Level commodity code, and (if applicable) EPEAT value and Energy Star rating. Crosswalk requirements and fields may be updated by NASPO ValuePoint with reasonable notice to Contractor and without amendment to this

Master Agreement. Contractor shall work in good faith with NASPO ValuePoint to keep Crosswalks updated as Contractor's customer lists and Product catalog change.

V.3.5 Executive Summary. Contractor shall, upon request by NASPO ValuePoint, provide NASPO ValuePoint with an executive summary that includes but is not limited to a list of states with an active Participating Addendum, states with which Contractor is in negotiations, and any Participating Addendum roll-out or implementation activities and issues. NASPO ValuePoint and Contractor will determine the format and content of the executive summary.

V.3.6 Obligation to Act in Good Faith. The parties acknowledge that this Master Agreement and its terms and pricing have been negotiated for the benefit of the parties, NASPO ValuePoint, Participating Entities, and Purchasing Entities. Apart from a Participating Addendum or Order, Contractor shall not intentionally induce a potential Participating Entity or Purchasing Entity to enter into a separate agreement, the pricing and terms of which are derived from this Master Agreement, for the purpose of avoiding compliance with Contractor's obligations under Section V. Nothing in this Section 5.3.6 shall prohibit Contractor from contracting with an entity with substantially similar pricing and terms if such pricing and terms are independently negotiated with the entity or are consistent with pricing and terms ordinarily offered by Contractor to public sector customers.

V.4 NASPO ValuePoint Cooperative Program Marketing, Training, and Performance Review

V.4.1 Staff Education. Contractor shall work cooperatively with NASPO ValuePoint personnel. Upon request by NASPO ValuePoint, Contractor shall present plans to NASPO ValuePoint for the education of Contractor's contract administrator(s) and sales/marketing workforce regarding the Master Agreement contract, including the competitive nature of NASPO ValuePoint procurements, the master agreement and Participating Addendum process, and the manner in which eligible entities can participate in the Master Agreement.

V.4.2 Onboarding Plan. Upon request by NASPO ValuePoint, Contractor shall, as Participating Addendums are executed, provide plans to launch the program for the Participating Entity. Plans will include time frames to launch the agreement and confirmation that the Contractor's website has been updated to properly reflect the scope and terms of the Master Agreement as available to the Participating Entity and eligible Purchasing Entities.

V.4.3 Annual Contract Performance Review. Contractor shall participate in an annual contract performance review with the Lead State and NASPO ValuePoint, which may at the discretion of the Lead State be held in person and which may include a discussion of marketing action plans, target strategies, marketing materials, Contractor reporting, and timeliness of payment of administration fees.

V.4.4 Use of NASPO ValuePoint Logo. The NASPO ValuePoint logos may not be used by Contractor in sales and marketing until a separate logo use agreement is executed with NASPO ValuePoint.

V.4.5 NASPO ValuePoint eMarketPlace

V.4.6 The NASPO ValuePoint cooperative provides an eMarketPlace for public entities to access a central online platform to view and/or purchase the goods, services, and solutions available from NASPO ValuePoint's cooperative Master Agreements. This eMarketPlace is provided by NASPO at no additional cost to the Contractor or public entities. Its purpose is to facilitate the connection of public entities with Contractors who meet the requisite needs for a good, service, or solution by that entity through a NASPO ValuePoint Master Agreement.

V.4.7 Contractor shall cooperate in good faith with NASPO, and any third party acting as an agent on behalf of NASPO, to integrate Contractor's industry presence by either an electronic hosted catalog, punchout site, providing eQuotes, or other mutually agreed upon solution through the NASPO eMarketPlace, per the Implementation Timeline as further described below.

V.4.8 Regardless of how Contractor's presence is reflected in the eMarketPlace (*i.e.*, hosted catalog, punchout site, eQuote, or other mutually agreed upon solution), Contractor's listed offerings must be strictly limited to Contractor's awarded contract offerings through the NASPO award. Products and/or services not authorized through the resulting NASPO cooperative contract should not be viewable by NASPO ValuePoint eMarketPlace users. Furthermore, Products and/or Services not authorized through a Participating Addendum should not be viewable by NASPO ValuePoint eMarketPlace users utilizing that Participating Addendum. The accuracy of Contractor's offerings through the eMarketPlace must be maintained by Contractor throughout the duration of the Master Agreement.

V.4.9 Contractor agrees that NASPO controls which Master Agreements appear in the eMarketPlace and that NASPO may elect at any time to remove any of Contractor's offerings from the eMarketPlace.

V.4.10 Contractor is solely responsible for the accuracy, quality, and legality of Contractor's Content on the eMarketPlace. "Content" means all information that is generated, submitted, or maintained by Contractor or otherwise made available by Contractor on the eMarketPlace, including Contractor catalogs. Contractor's Content shall comply with and accurately reflect the terms and pricing of this Master Agreement.

V.4.11 Contractor's use of the eMarketPlace shall comply with the eMarketPlace's Terms of Use.

V.4.12 Contractor is solely responsible for the security and accuracy of transactions facilitated through the eMarketPlace, including the assessment, collection, and remittance of any sales tax.

V.4.13 Lead State reserves the right to approve all pricing, catalogs, and

information on the eMarketPlace. This catalog review right is solely for the benefit of the Lead State and Participating Entities, and the review and approval shall not waive the requirement that Products and Services be offered at prices required by the Master Agreement.

- V.4.14** NASPO Participating Entities may have their own procurement system, separate from the NASPO eMarketPlace, that enables the use of certain NASPO Master Agreements. In the event one of these entities elects to use this NASPO ValuePoint Master Agreement (available through the eMarketPlace) but publish to their own eMarketPlace, Contractor agrees to work in good faith with the entity and NASPO to implement the catalog.
- V.4.15** In the event a Participating Entity has entity-specific catalog requirements set forth in its Participating Addendum (e.g., entity-specific pricing, restrictions in the scope of offerings, etc.), Contractor shall ensure its eMarketPlace Content for that Participating Entity accurately reflects and is compliant with these requirements.
- V.4.16** Implementation Timeline: Following the execution of Contractor's Master Agreement, NASPO will provide a written request to Contractor to begin the onboarding process into the eMarketPlace. Contractor shall have fifteen (15) days from receipt of written request to work with NASPO to set up an enablement schedule, at which time the technical documentation for onboarding shall be provided to Contractor. The schedule will include future calls and milestone dates related to test and go live dates.
- V.4.16.1** Contractor's NASPO eMarketPlace account with eQuoting functionality shall minimally be established within thirty (30) days following the written request.
- V.4.16.2** Contractor shall deliver a (1) hosted catalog, (2) punchout site, or (3) other mutually agreed upon solution, pursuant to the mutually agreed upon enablement schedule.
- V.4.16.3** NASPO will work with Contractor to decide which structures between hosted catalog, punchout site, eQuoting, or other mutually agreed upon solution as further described below will be provided by Contractor.
- V.4.16.3.1** Hosted Catalog. By providing a hosted catalog, Contractor is providing a list of its awarded Products/Services and pricing in an electronic Data file in a format acceptable to NASPO, such as a tab delimited text file. Contractor is solely responsible for ensuring the most up-to-date versions of its Product/Service offerings approved by the Lead State under this Master Agreement are reflected in the eMarketPlace.
- V.4.16.3.2** Punchout Site. By providing a punchout site, Contractor is providing its own online catalog, which must be capable of being integrated with the eMarketPlace as a Standard punchout via Commerce eXtensible Markup Language (cXML). Contractor shall validate that its online

catalog is up-to-date. The site must also return detailed UNSPSC codes for each line item.

V.4.16.3.3 eQuoting. NASPO will work with Contractor to set up participation and use to provide eQuotes through the NASPO eMarketPlace. This requirement would be in addition to any requirement to provide a hosted catalog or punchout site.

V.4.16.3.4 Other Mutually Agreed Upon Solution. NASPO will work with Contractor to identify a solution to allow the Contractor to have a presence in the eMarketPlace.

V.4.17 Hosted catalogs and punchout sites will provide all of the eMarketPlace standard Data elements/information including, but not limited to, the following:

V.4.17.1 The most current pricing, including all applicable administrative fees and/or discounts, as well as the most up-to-date Product/Service offering the Contractor is authorized to provide in accordance with this Master Agreement;

V.4.17.2 A Lead State contract identification number for this Master Agreement;

V.4.17.3 Detailed Product line-item descriptions;

V.4.17.4 Pictures illustrating Products, services, or solutions where practicable; and

V.4.17.5 Any additional NASPO, Lead State, or Participating Addendum requirements.

V.5 Cancellation In consultation with NASPO ValuePoint, the Lead State may, in its discretion, cancel the Master Agreement or not exercise an option to renew, when utilization of Contractor's Master Agreement does not warrant further administration of the Master Agreement. The Lead State may also exercise its right to not renew the Master Agreement if the Contractor fails to record or report revenue for three consecutive quarters, upon 60-calendar day written notice to the Contractor. Cancellation based on nonuse or under-utilization will not occur sooner than two years after execution of the Master Agreement. This subsection does not limit the discretionary right of either the Lead State or Contractor to cancel the Master Agreement or terminate for default subject to the terms herein. This subsection also does not limit any right of the Lead State to cancel the Master Agreement under applicable laws.

V.6 Canadian Participation. Subject to the approval of Contractor, any Canadian provincial government or provincially funded entity in Alberta, British Columbia, Manitoba, New Brunswick, Newfoundland and Labrador, Nova Scotia, Ontario, Prince Edward Island, Quebec, or Saskatchewan, and territorial government or territorial government funded entity in the Northwest Territories, Nunavut, or Yukon, including municipalities, universities, community colleges, school boards, health authorities, housing authorities, agencies, boards, commissions, and crown corporations, may be eligible to use Contractor's Master Agreement.

- V.7 Additional Agreement with NASPO.** Upon request by NASPO ValuePoint, awarded Contractor shall enter into a direct contractual relationship with NASPO ValuePoint related to Contractor's obligations to NASPO ValuePoint under the terms of the Master Agreement, the terms of which shall be the same or similar (and not less favorable) than the terms set forth in the Master Agreement.

VI. Pricing, Payment & Leasing

- VI.1 Pricing.** The prices contained in this Master Agreement or offered under this Master Agreement represent the not-to-exceed price to any Purchasing Entity.

VI.1.1 All discounts must be guaranteed for the initial term of the Master Agreement.

VI.1.2 Requests for a discount adjustment must include sufficient documentation supporting the request. Any adjustment or amendment to the Master Agreement will not be effective unless approved in writing by the Lead State.

VI.1.3 No retroactive adjustments to prices or rates will be allowed.

- VI.2 Payment.** Unless otherwise agreed upon in a Participating Addendum or Order, Payment after acceptance will be made within thirty (30) days following the date the entire order or milestone, as applicable, is delivered or the date a correct invoice is received whichever is later. After 45 days the Contractor may assess overdue account charges up to a maximum rate of one percent per month on the outstanding balance, unless a different late payment amount is specified in a Participating Addendum or Order, or otherwise prescribed by applicable law. Payments will be remitted in the manner specified in the Participating Addendum or Order. Payments may be made via a purchasing card with no additional charge.

- VI.3 Leasing or Alternative Financing Methods.** The procurement and other applicable laws of some Purchasing Entities may permit the use of leasing or alternative financing methods for the acquisition of Products under this Master Agreement. Where the terms and conditions are not otherwise prescribed in an applicable Participating Addendum, the terms and conditions for leasing or alternative financing methods are subject to negotiation between the Contractor and Purchasing Entity.

VII. Ordering

- VII.1 Order Numbers.** Master Agreement order and Purchase Order numbers must be clearly shown on all acknowledgments, packing slips, invoices, and on all correspondence.

- VII.2 Quotes.** Purchasing Entities may define entity-specific or project-specific requirements and informally compete the requirement among companies having a Master Agreement on an "as needed" basis. This procedure may also be used when requirements are aggregated or other firm commitments may be made to achieve reductions in pricing. This procedure may be modified in Participating Addenda and adapted to the Purchasing Entity's rules and policies. The Purchasing Entity may in its sole discretion determine which Master Agreement Contractors should be solicited for a quote. The Purchasing Entity may select the quote that it considers most advantageous, cost, and other factors considered.

- VII.3 Applicable Rules.** Each Purchasing Entity will identify and utilize its own appropriate purchasing procedure and documentation. Contractor is expected to become familiar with the Purchasing Entities' rules, policies, and procedures regarding the ordering of supplies and/or services contemplated by this Master Agreement.
- VII.4 Required Documentation.** Contractor shall not begin work without a valid Purchase Order or other appropriate commitment document under the law of the Purchasing Entity.
- VII.5 Term of Purchase.** Orders may be placed consistent with the terms of this Master Agreement and applicable Participating Addendum during the term of the Master Agreement and Participating Addendum.
- VII.5.1** Orders must be placed pursuant to this Master Agreement prior to the termination date thereof, but may have a delivery date or definite performance period past the then-current termination date of this Master Agreement. In the event the term of any such Order placed under this Master Agreement extends past the termination or expiration of this Master Agreement, the terms and conditions of this Master Agreement shall remain in full force and effect as it applies to such Order and will continue in effect for such Order until the term of that Order expires.
- VII.5.2** Notwithstanding the previous, Orders must also comply with the terms of the applicable Participating Addendum, which may further restrict the period during which Orders may be placed or delivered.
- VII.5.3** Financial obligations of Purchasing Entities payable after the current applicable fiscal year are contingent upon agency funds for that purpose being appropriated, budgeted, and otherwise made available.
- VII.5.4** Notwithstanding the expiration, cancellation or termination of this Master Agreement, Contractor shall perform in accordance with the terms of any Orders then outstanding at the time of such expiration or termination. Contractor shall not honor any Orders placed after the expiration, cancellation, or termination of this Master Agreement, or in any manner inconsistent with this Master Agreement's terms.
- VII.5.5** Orders for any separate indefinite quantity, task order, or other form of indefinite delivery order arrangement priced against this Master Agreement may not be placed after the expiration or termination of this Master Agreement, notwithstanding the term of any such indefinite delivery order agreement.
- VII.5.6** An Order, including a recurring service, maintenance, or software subscription or upcoming renewal, may be canceled before delivery or performance with 30 days advanced written notice provided by the Purchasing Entity unless the Order or any related agreement expressly provides for a fixed multi-year term or states that the Order is non-cancellable as agreed to in writing by the Purchasing Entity. Purchasing Entity will compensate Contractor up to the date of the cancellation notice for expenses incurred, if any. Any order cancellation will not impact the Master Agreement.

VII.6 Order Form Requirements. All Orders pursuant to this Master Agreement, at a minimum, must include:

VII.6.1 The services or supplies being delivered;

VII.6.2 A shipping address and other delivery requirements, if any;

VII.6.3 A billing address;

VII.6.4 Purchasing Entity contact information;

VII.6.5 Pricing consistent with this Master Agreement and applicable Participating Addendum and as may be adjusted by agreement of the Purchasing Entity and Contractor;

VII.6.6 A not-to-exceed total for the Products or Services being ordered; and

VII.6.7 The Master Agreement number or the applicable Participating Addendum number, provided the Participating Addendum references the Master Agreement number.

VII.7 Communication. All communications concerning administration of Orders placed must be furnished solely to the authorized purchasing agent within the Purchasing Entity's purchasing office, or to such other individual identified in writing in the Order.

VII.8 Contract Provisions for Orders Utilizing Federal Funds. Pursuant to Appendix II to 2 Code of Federal Regulations (CFR) Part 200, Contract Provisions for Non-Federal Entity Contracts Under Federal Awards, Orders funded with federal funds may have additional contractual requirements or certifications that must be satisfied at the time the Order is placed or upon delivery. These federal requirements may be proposed by Participating Entities in Participating Addenda and Purchasing Entities for incorporation in Orders placed under this Master Agreement.

VIII. Shipping and Delivery

VIII.1 Shipping Terms. All deliveries of Hardware Products will be F.O.B. destination, freight pre-paid, with all transportation and handling charges paid by the Contractor.

VIII.1.1 Notwithstanding the above, responsibility and liability for loss or damage will remain the Contractor's until final inspection and acceptance when responsibility will pass to the Purchasing Entity except as to latent defects, fraud, and Contractor's warranty obligations.

VIII.2 Minimum Shipping. The minimum shipment amount, if any, must be contained in the Master Agreement. Any order for less than the specified amount is to be shipped with the freight prepaid and added as a separate item on the invoice. Any portion of an Order to be shipped without transportation charges that is back ordered will be shipped without charge.

VIII.3 Inside Deliveries. To the extent applicable, all deliveries of Hardware Products will be "Inside Deliveries" as designated by a representative of the Purchasing Entity placing the Order. Inside Delivery refers to a delivery to a location other than a loading dock, front lobby, or reception area. Specific delivery instructions will be noted on the order form or Purchase Order. Costs to repair any damage to the building interior (e.g., scratched walls, damage to the freight elevator, etc.) caused

by Contractor or Contractor's carrier will be the responsibility of the Contractor. Immediately upon becoming aware of such damage, Contractor shall notify the Purchasing Entity placing the Order.

VIII.4 Packaging. All Hardware Products must be delivered in the manufacturer's standard package. Costs must include all packing and/or crating charges. Cases must be of durable construction, in good condition, properly labeled and suitable in every respect for storage and handling of contents. Each shipping carton must be marked with the commodity, brand, quantity, item code number and the Purchasing Entity's Purchase Order number.

IX. Inspection and Acceptance

IX.1 Laws and Regulations. Any and all Products offered and furnished must comply fully with all applicable Federal, State, and local laws and regulations.

IX.2 Applicability. Unless otherwise specified in the Master Agreement, Participating Addendum, or ordering document, the terms of this Section IX will apply. This section is not intended to limit rights and remedies under the applicable commercial code.

IX.3 Inspection. All Hardware Products are subject to inspection at reasonable times and places before acceptance. Contractor shall provide right of access to the Lead State, or to any other authorized agent or official of the Lead State or other Participating or Purchasing Entity, at reasonable times, to monitor and evaluate performance, compliance, and/or quality assurance requirements under this Master Agreement.

IX.3.1 Hardware Products that do not meet specifications may be rejected. Failure to reject upon receipt, however, does not relieve the Contractor of liability for material (nonconformity that substantially impairs value) latent or hidden defects subsequently revealed when goods are put to use.

IX.3.2 Acceptance of such goods may be revoked in accordance with the provisions of the applicable commercial code, and the Contractor is liable for any resulting expense incurred by the Purchasing Entity related to the preparation and shipping of Hardware Product rejected and returned, or for which acceptance is revoked.

IX.4 Failure to Conform. If any services do not conform to contract requirements, the Purchasing Entity may require the Contractor to perform the services again in conformity with contract requirements, at no increase in Order amount. When defects cannot be corrected by re-performance, the Purchasing Entity may require the Contractor to take necessary action to ensure that future performance conforms to contract requirements and reduce the contract price to reflect the reduced value of services performed.

IX.5 Acceptance Testing. Purchasing Entity may establish a process, in keeping with industry standards, to ascertain whether the Hardware Product meets the standard of performance or specifications prior to acceptance by the Purchasing Entity.

IX.5.1 The acceptance testing period will be thirty (30) calendar days, unless otherwise specified, starting from the day after the Hardware Product is delivered or, if installed by Contractor, the day after the Hardware Product

is installed and Contractor certifies that the Hardware Product is ready for acceptance testing.

IX.5.2 If the Hardware Product does not meet the standard of performance or specifications during the initial period of acceptance testing, Purchasing Entity may, at its discretion, continue acceptance testing on a day-to-day basis until the standard of performance is met.

IX.5.3 Upon rejection, the Contractor will have fifteen (15) calendar days to cure. If after the cure period, the Hardware Product still has not met the standard of performance or specifications, the Purchasing Entity may, at its option: (a) declare Contractor to be in breach and terminate the Order; (b) demand replacement Hardware Product from Contractor at no additional cost to Purchasing Entity; or, (c) continue the cure period for an additional time period agreed upon by the Purchasing Entity and the Contractor.

IX.5.4 Contractor shall pay all costs related to the preparation and shipping of Hardware Product returned pursuant to the section.

IX.5.5 No Hardware Product will be deemed Accepted and no charges will be paid until the standard of performance or specification is met.

X. Warranty

X.1 Applicability. Unless otherwise specified in the Master Agreement, Participating Addendum, or ordering document, the terms of this Section X will apply.

X.2 Warranty. The Contractor warrants for Products (if applicable) for a period of 90 days from the date of acceptance that: (a) the Product performs according to all specific claims that the Contractor made in its response to the Solicitation, (b) the Product is suitable for the ordinary purposes for which such Product is used, (c) the Product is suitable for any special purposes identified in the Solicitation or for which the Purchasing Entity has relied on the Contractor's skill or judgment, (d) the Product is designed and manufactured in a commercially reasonable manner, and (e) the Product is free of defects.

X.3 Rights Reserved. The rights and remedies of the parties under this warranty are in addition to any other rights and remedies of the parties provided by law or equity, including, without limitation, actual damages, and, as applicable and awarded under the law, to a prevailing party, reasonable attorneys' fees and costs.

X.4 Warranty Period Start Date. The warranty period will begin upon acceptance, as set forth in Section IX.

XI. Product Title

XI.1 Conveyance of Title. If both the Contractor and Purchasing Entity intend for any Products or Services being purchased to be owned by the Purchasing Entity after the sale (as opposed to a subscription service, service term, or other right of use), upon acceptance by the Purchasing Entity, Contractor shall convey to Purchasing Entity title to the Product free and clear of all liens, encumbrances, or other security interests.

XI.2 Embedded Software. Transfer of title to the Product must include an irrevocable and perpetual license to use any Embedded Software in the Product. If Purchasing

XII. Indemnification

- XII.1 General Indemnification.** The Contractor shall defend, indemnify and hold harmless NASPO, NASPO ValuePoint, the Lead State, Participating Entities, and Purchasing Entities, along with their officers and employees, from and against third-party claims, damages or causes of action including reasonable attorneys' fees and related costs for any death, injury, or damage to tangible property arising directly from any negligent or willful act, error, or omission of the Contractor, its employees or Subcontractors or volunteers, at any tier, relating to performance under this Master Agreement.

XII.2.1.4 reasonably expected to be used in combination with the Product.

- XII.2.2** The Indemnified Party shall notify the Contractor within a reasonable time after receiving notice of an Intellectual Property Claim. Even if the Indemnified Party fails to provide reasonable notice, the Contractor

If the Contractor promptly and reasonably investigates and defends any Intellectual Property Claim, it shall have control over the defense and settlement of the Intellectual Property Claim. However, the Indemnified Party must consent in writing for any money damages or obligations for which it may be responsible.

XII.2.3 The Indemnified Party shall furnish, at the Contractor's reasonable request and expense, information and assistance necessary for such defense. If the Contractor fails to vigorously pursue the defense or settlement of the Intellectual Property Claim, the Indemnified Party may assume the defense or settlement of the Intellectual Property Claim and the Contractor shall be liable for all costs and expenses, including reasonable attorneys' fees and related costs, incurred by the Indemnified Party in the pursuit of the Intellectual Property Claim.

Accordingly, Purchasing Entity may seek and obtain injunctive relief against the breach or threatened breach of the foregoing undertakings, in addition to any other legal remedies that may be available.

Contractor acknowledges and agrees that the covenants contained herein are necessary for the protection of the legitimate business interests of Purchasing Entity and are reasonable in scope and content. Notwithstanding the foregoing, damages attributable to a Data Breach shall be subject to the section of the Master Agreement titled "Limitation of Liability" except for damages attributable to a Data Breach that is caused by the gross negligence or willful misconduct of the Contractor.

XIV.2.4 Purchasing Entity Law. These provisions will be applicable only to extent they are not in conflict with the applicable public disclosure laws of any Purchasing Entity.

XIV.2.5 NASPO ValuePoint. The rights granted to Purchasing Entities and Contractor's obligations under this section will also extend to NASPO ValuePoint's Confidential Information, including but not limited to Participating Addenda, Orders or transaction Data relating to Orders under this Master Agreement that identify the entity/customer, Order dates, line-item descriptions and volumes, and prices/rates. Often AI models that are purchased to assist an entity, rely on having some type of access, license, and/or approval to use the data for the purpose of continually updating the AI model. This allows them to enhance, modify, and/or update the AI model so that the Purchasing Entity has the most up to date model for the best user experience. A Purchasing Entity has the default of

section 14.2.7 applied unless a different standard is negotiated specific to AI.

XIV.3 Assignment/Subcontracts

XIV.3.1 Contractor shall not assign, sell, transfer, subcontract or sublet rights, or delegate responsibilities under this Master Agreement, in whole or in part, without the prior written approval of the Lead State.

XIV.6 Cancellation. Unless otherwise set forth herein, this Master Agreement may be canceled by either party upon sixty (60) days' written notice prior to the effective date of the cancellation. Further, any Participating Entity may cancel its participation upon thirty (30) days' written notice, unless otherwise limited or stated in the Participating Addendum. Cancellation may be in whole or in part. Any cancellation under this provision will not affect the rights and obligations attending Orders outstanding at the time of cancellation, including any right of a Purchasing Entity to indemnification by the Contractor, rights of payment for Products delivered and accepted, rights attending any warranty or default in performance in association with any Order, and requirements for records administration and audit. Cancellation of the Master Agreement due to Contractor default may be immediate if defaults cannot be reasonably cured as allowed per Defaults and Remedies terms.

XIV.7 Force Majeure. Neither party to this Master Agreement shall be held responsible for delay or default caused by one or more of the following events, if such occurrence or continuation of such occurrence is beyond the party's reasonable control and substantially inhibits the party's ability to deliver Product or other deliverables in accordance with this Master Agreement: fire, riot, unusually severe weather, other acts of God, acts of war or terrorism, and restrictions on the movement of people or goods imposed in a public health order or by a declared state of emergency. The Lead State may terminate this Master Agreement upon determining such delay or default will reasonably prevent successful performance of the Master Agreement

XIV.8 Defaults and Remedies

XIV.8.1 The occurrence of any of the following events will be an event of

default under this Master Agreement:

XIV.8.1.1 Nonperformance of contractual requirements;

XIV.8.1.2 A material breach of any term or condition of this Master Agreement;

XIV.8.1.3 Any certification, representation or warranty by Contractor in response to the Solicitation or in this Master Agreement that proves to be untrue or materially misleading;

XIV.8.1.4 Institution of proceedings under any bankruptcy, insolvency, reorganization or similar law, by or against Contractor, or the appointment of a receiver or similar officer for Contractor or any of its property, which is not vacated or fully stayed within thirty (30) calendar days after the institution or occurrence thereof; or

XIV.8.1.5 Any default specified in another section of this Master Agreement.

XIV.8.2 Upon the occurrence of an event of default, the Lead State shall issue a written notice of default, identifying the nature of the default, and providing a period of thirty (30) calendar days in which Contractor shall have an opportunity to cure the default. The Lead State shall not be required to provide advance written notice or a cure period and may immediately terminate this Master Agreement in whole or in part if the Lead State, in its sole discretion, determines that it is reasonably necessary to preserve public safety or prevent immediate public crisis. Time allowed for cure will not diminish or eliminate Contractor's liability for damages.

XIV.8.3 If Contractor is afforded an opportunity to cure and fails to cure the default within the period specified in the written notice of default, Contractor shall be in breach of its obligations under this Master Agreement and the Lead State shall have the right to exercise any or all of the following remedies:

Unless otherwise specified in

an Order, a Purchasing Entity shall provide written notice of default as described in this section and have all of the rights and remedies under this paragraph and any applicable Participating Addendum with respect to an Order placed by the Purchasing Entity. Nothing in these Master Agreement Terms and Conditions will be construed to limit the rights and remedies available to a Purchasing Entity under the applicable commercial code.

XIV.9 Waiver of Breach. Failure of the Lead State, Participating Entity, or Purchasing Entity to declare a default or enforce any rights and remedies will not operate as a waiver under this Master Agreement, any Participating Addendum, or any Purchase Order. Any waiver by the Lead State, Participating Entity, or Purchasing Entity must be in writing. Waiver by the Lead State or Participating Entity of any default, right or remedy under this Master Agreement or Participating Addendum, or by Purchasing Entity with respect to any Purchase Order, or breach of any terms or requirements of this Master Agreement, a Participating Addendum, or Purchase Order will not be construed or operate as a waiver of any subsequent default or breach of such term or requirement, or of any other term or requirement under this Master Agreement, any Participating Addendum, or any Purchase Order.

XIV.10 Debarment. The Contractor certifies that neither it nor its principals are presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation in public procurement or contracting by any governmental department or agency. This certification represents a recurring certification made at the time any Order is placed under this Master Agreement. If the Contractor cannot certify this statement, attach a written explanation for review by the Lead State.

XIV.11 No Waiver of Sovereign Immunity

XIV.11.1 In no event will this Master Agreement, any Participating Addendum or any contract or any Purchase Order issued thereunder, or any act of the Lead State, a Participating Entity, or a Purchasing Entity be a waiver of any form of defense or immunity, whether sovereign immunity, governmental immunity, immunity based on the Eleventh Amendment to the Constitution of the United States or otherwise, from any claim or from the jurisdiction of any court.

XIV.11.2 This section applies to a claim brought against the Participating Entities who are states only to the extent Congress has appropriately abrogated the state's sovereign immunity and is not consent by the state to be sued in federal court. This section is also not a waiver by the state of any form of immunity, including but not limited to sovereign immunity and immunity based on the Eleventh Amendment to the Constitution of the United States.

XIV.12 Governing Law and Venue

XIV.12.1 The procurement, evaluation, and award of the Master Agreement will be governed by and construed in accordance with the laws of the Lead State sponsoring and administering the procurement. The construction and effect of the Master Agreement after award will be governed by the law of the State serving as Lead State. The construction and effect of

any Participating Addendum or Order against the Master Agreement will be governed by and construed in accordance with the laws of the Participating Entity's or Purchasing Entity's State.

XIV.12.2 Unless otherwise specified in the RFP, the venue for any protest, claim, dispute or action relating to the procurement, evaluation, and award is in the state serving as Lead State. Venue for any claim, dispute or action concerning the terms of the Master Agreement will be in the state serving as Lead State. Venue for any claim, dispute, or action concerning any Order placed against the Master Agreement or the effect of a Participating Addendum will be in the Purchasing Entity's state.

XIV.12.3 If a claim is brought in a federal forum, then it must be brought and adjudicated solely and exclusively within the United States District Court for (in decreasing Order of priority): the Lead State for claims relating to the procurement, evaluation, award, or contract performance or administration if the Lead State is a party; a Participating State if a named party; the state where the Participating Entity or Purchasing Entity is located if either is a named party.

XIV.13 Assignment of Antitrust Rights. Contractor irrevocably assigns to a Participating Entity who is a state any claim for relief or cause of action which the Contractor now has or which may accrue to the Contractor in the future by reason of any violation of state or federal antitrust laws (15 U.S.C. § 1-15 or a Participating Entity's State antitrust provisions), as now in effect and as may be amended from time to time, in connection with any goods or services provided in that state for the purpose of carrying out the Contractor's obligations under this Master Agreement or Participating Addendum, including, at the Participating Entity's option, the right to control any such litigation on such claim for relief or cause of action.

XIV.14 Survivability. Unless otherwise explicitly set forth in a Participating Addendum or Order, the terms of this Master Agreement as they apply to the Contractor, Participating Entities, and Purchasing Entities, including but not limited to pricing and the reporting of sales and payment of administrative fees to NASPO ValuePoint, shall survive expiration of this Master Agreement and shall continue to apply to all Participating Addenda and Orders until the expiration thereof.

XIV.15 Limitation of Liability Except for (a) claims, losses, and liabilities arising from a Party's gross negligence or willful misconduct; (b) claims, losses, and liabilities arising from death, injury, or damage to tangible property; (c) claims, losses, and liabilities arising from a Party's violation of applicable law; and (d) each Party's indemnification obligations, each Party's aggregate liability to the other Party for all other claims (including for direct damages) under this Master Agreement, a Participating Addendum, or an Order, shall not exceed the greater of (i) five million dollars (\$5,000,000), or (ii) the total fees paid and payable in the twenty-four (24) months immediately preceding the event giving rise to liability.

XIV.15.1 Indirect/Special Damages. Except for fraud and Contractor's obligations under the subsection titled "Indemnification", neither party will be liable for any indirect, special, incidental or consequential damages,

nor damages for loss of business profits, business interruption, loss of business information and the like, arising in any way out of the Purchase Order, any of the documents referenced in the Purchase Order (or any addenda or amendment thereto), or the use or inability to use any Products or Services, even if advised of the possibility of such damages.

- a. **Authorized Persons:** The service provider's employees, contractors, Subcontractors or other agents who need to access the public jurisdiction's personal data to enable the service provider to perform the services required.
- b. **Individually Identifiable Health Information:** Information that is a subset of health information, including demographic information collected from an individual, and (1) is created or received by a health care provider, health plan, employer or health care clearinghouse; and (2) relates to the past, present, or future physical or mental health or condition of an individual; the provision of health care to an individual; or the past, present or future payment for the provision of health care to an individual; and (a) that identifies the individual; or (b) with respect to which there is a reasonable basis to believe the information can be used to identify the individual.
- c. **d. Infrastructure-as-a-Service (IaaS):** The capability provided to the consumer to provision processing, storage, networks and other fundamental computing resources where the consumer is able to deploy and run arbitrary software, including operating systems and applications. The consumer does not manage or control the underlying cloud infrastructure but has control over operating systems, storage, deployed applications and possibly limited control of select networking components (e.g., host firewalls).
- d. **Public Jurisdiction:** Any government or government agency that uses these terms and conditions. The term is a placeholder for the government or government agency.
- e. **Public Jurisdiction Data:** All data created or in any way originating with the public jurisdiction, and all data that is the output of computer processing of or other electronic manipulation of any data that was created by or in any way originated with the public jurisdiction, whether such data or output is stored on the public jurisdiction's hardware, the service provider's hardware or exists in any system owned, maintained or otherwise controlled by the public jurisdiction or by the service provider.

- f. **Public Jurisdiction Identified Contact:** The person or persons designated in writing by the public jurisdiction to receive security incident or breach notification.
- g. **Security Incident:** The unauthorized access by non-authorized persons to personal data or non-public data the service provider believes could reasonably result in the use, disclosure or theft of a public jurisdiction's unencrypted personal data or non-public data within the possession or control of the service provider. A security incident may or may not turn into a data breach.
- h. **Service Provider:** The Contractor and its employees, Subcontractors, agents, affiliates, and IaaS providers who are performing the services agreed to under the contract. Service provider also includes a Third-party Provider providing services under the contract.
- i. **Statement of Work:** A Statement of Work (SOW) is a detailed document issued against the Master Agreement that defines the scope, deliverables, timelines, responsibilities, and acceptance criteria for Products and Services to be performed, ensuring clear expectations between the Contractor or Third-Party Provider and Purchasing Entities.

2. Data Ownership: The public jurisdiction will own all right, title and interest in its public jurisdiction data that is related to the services provided by this contract. The service provider shall not access public jurisdiction user accounts or public jurisdiction data except (1) during data center operations, (2) in response to service or technical issues, (3) as required by the express terms of this contract or (4) at the public jurisdiction's written request.

3. Data Protection: Protection of personal privacy and data shall be an integral part of the business activities of the service provider to ensure there is no inappropriate or unauthorized use of public jurisdiction information at any time. To this end, the service provider shall safeguard the confidentiality, integrity and availability of public jurisdiction information within its control and comply with the following conditions:

- a. The Service Provider shall implement and maintain appropriate administrative, technical and organizational security measures to safeguard against unauthorized access, disclosure or theft of personal data and non-public data within its control. Such security measures shall be in accordance with NIST SP 800-53 (then current, or prior version compliant with the appropriate certification body's requirements) and not less stringent than the measures the Service Provider applies to its own personal data and non-public data of similar kind.
- b. All data obtained by the Service Provider within its control in the performance of this contract shall become and remain property of the Public Jurisdiction.
- c. Unless otherwise stipulated, all personal data and non-public data shall be encrypted at rest and in transit with controlled access in accordance with NIST SP 800-53 (then current, or prior version compliant with the appropriate certification body's requirements). The SLA or End User Agreement and contract document will specify which party is responsible for encryption and access control of the public jurisdiction

data for the service model under contract. If the statement of work and the contract are silent, then the public jurisdiction is responsible for encryption and access control.

- d. Unless otherwise stipulated, it is the public jurisdiction's responsibility to identify data it deems as non-public data to the service provider. The level of protection and encryption for all non-public data shall be identified and made a part of this contract. At no time shall any data or processes which either belong to or are intended for the use of public jurisdiction or its officers, agents or employees be copied, disclosed or retained by the service provider or any party related to the service provider for subsequent use in any transaction that does not include the public jurisdiction.

4. Data Privacy: The service provider's privacy controls must abide by the following:

- a. No type of data mining may be performed on any public jurisdiction data without permission from the public jurisdiction. This includes mining location data from users of applications running on behalf of the public jurisdiction in accordance with NIST SP 800-53 (then current, or prior version compliant with the appropriate certification body's requirements) Privacy Controls.
- b. No public jurisdiction data may be sold or transferred to any third party, including service provider affiliates, without permission from the public jurisdiction in accordance with NIST SP 800-53 (then current, or prior version compliant with the appropriate certification body's requirements) Privacy Controls.

5. Data Location: The service provider shall provide its Services to the public jurisdiction and its end users solely from data centers in the U.S. Storage of public jurisdiction data at rest shall be located solely in data centers in the U.S in accordance with NIST SP 800-53 (then current, or prior version compliant with the appropriate certification body's requirements). The service provider shall not allow its personnel or contractors to store public jurisdiction data on portable devices, including personal computers, except for devices that are used and kept only at its U.S. data centers. The service provider shall permit its personnel and contractors to access public jurisdiction data remotely only as required to provide technical support (see also below regarding offshore access and follow the sun technical support). Unless specifically stated otherwise, these restrictions to not apply to indirect or "overhead" services, redundant back-office services, or services that are incidental to the performance of the Master Agreement.

6. Data Access: The service provider is responsible for:

- a. Providing a multifactor authentication access mechanism for all its personnel and contractors to access any system and data management tool which acts upon any public jurisdiction data in accordance with NIST SP 800-53 (then current, or prior version compliant with the appropriate certification body's requirements) Access Controls.
- b. Preventing offshore access by service provider employees and contractors unless explicitly authorized by the Purchasing Entity for follow the sun.

- c. Maintaining government data and allowing the downloading of that data for a minimum period of 90 days after the termination of the agreement between the public jurisdiction and the service provider. After this period, the service provider will destroy/delete the data and all copies wherever they may reside and, if requested, provide a certificate of destruction/deletion to the public jurisdiction.

7. Import and Export of Data: The public jurisdiction shall have the ability to import or export data:

- a. In piecemeal or in entirety at its discretion without interference and with support from the service provider as described in the contract, End User Agreement, or SLA. This includes the ability for the public jurisdiction to import or export data to/from other service providers.
- b. At intervals as frequent as the public jurisdiction requires.

8. Security Incident or Data Breach Notification: The service provider shall inform the public jurisdiction of any security incident or data breach.

- a. **Incident Response:** The service provider may need to communicate with outside parties regarding a security incident, which may include contacting law enforcement, fielding media inquiries and seeking external expertise as mutually agreed upon, defined by law or contained in the contract. Discussing security incidents with the public jurisdiction should be handled on an urgent as-needed basis, as part of service provider communication and mitigation processes as mutually agreed upon, defined by law or contained in the contract.
- b. **Security Incident Reporting Requirements:** The service provider shall report a security incident to the appropriate public jurisdiction identified contact within the manner and timeframe defined in law, a Participating Addendum, or End User Agreement.
- c. **Breach Reporting Requirements:** If the service provider has actual knowledge of a confirmed data breach that affects the security of any public jurisdiction content that is subject to applicable data breach notification law, the service provider shall notify the appropriate public jurisdiction identified contact within 48 hours or sooner — unless shorter time is required by applicable law and take commercially reasonable measures to address the data breach in a timely manner.

9. Breach Responsibilities: This section only applies when a Data Breach occurs with respect to personal data within the possession or control of a Service Provider and related to service provided under this contract.

- a. The service provider, unless stipulated otherwise, shall immediately notify the appropriate public jurisdiction identified contact by telephone in accordance with the agreed upon security plan or security procedures if it reasonably believes there has been a security incident.

- b. The service provider, unless stipulated otherwise, shall notify the appropriate public jurisdiction identified contact within 48 hours or sooner by telephone, unless shorter time is required by applicable law, if it confirms that there is a data breach. The service provider shall (1) cooperate with the public jurisdiction as reasonably requested by the public jurisdiction to investigate and resolve the data breach, (2) promptly implement necessary remedial measures, if necessary, and (3) document actions taken in response to the data breach, including any post-incident review of events and changes in business practices.
- c. Unless otherwise stipulated, if a data breach is a direct result of the service provider's breach of its contract obligation to encrypt personal data or otherwise prevent its release, the service provider shall bear the costs associated with (1) the investigation and resolution of the data breach; (2) notifying individuals, regulators or others required by state law; (3) providing a credit monitoring service required by state or federal law; (4) providing a website or a toll-free number and call center for affected individuals required by state law; and (5) completing all corrective actions as reasonably determined by the service provider based on root cause. These costs shall not exceed the average per-record, per-person cost calculated for data breaches in the United States in the most recent Cost of Data Breach Study: Global Analysis published by the Ponemon Institute at the time of the data breach. Service Provider will not be obligated or liable under this paragraph to the extent the Data Incident resulted from the acts or omissions of a Participating Entity or any of Participating Entity's directors, officers, agents, representatives or contractors (other than Service Provider and Service Provider's subcontractors). All actions [1 through 5] are subject to this contract's limitation of liability.

10. Background Checks: Upon the request of the Public Jurisdiction, The service provider shall conduct criminal background checks and not utilize any staff, including Subcontractors, to fulfill obligations of the contract who have been convicted of any crime of dishonesty if such staff in fulfilling the obligations of the contract would have access to Purchasing Entity data or access onsite to Purchasing Entity's facilities. This includes but is not limited to criminal fraud or conviction of any felony or misdemeanor offense with an authorized penalty of up to one year of incarceration. The service provider shall promote and maintain an awareness among its employees and agents of the importance of securing the public jurisdiction's information. Each State/Participating Entity may have different background check requirements that must be followed for work performed in its jurisdiction, and such requirements would be discussed at the time a Participating Addendum is entered into.

11. Non-Disclosure and Separation of Duties: The service provider shall enforce separation of job duties, require commercially reasonable non-disclosure agreements and limit staff knowledge of customer data to that which is absolutely necessary to perform job duties.

12. Right to Remove Individuals: The public jurisdiction may at any time require the service provider remove from interaction with the public jurisdiction any service provider representative who the public jurisdiction believes is detrimental to its working relationship with the service provider. The public jurisdiction shall notify the service provider of its determination and its reasons for requesting the removal. If the public jurisdiction signifies that a potential security

violation exists with respect to the request, the service provider shall immediately remove such individual. The service provider shall not assign the person to any aspect of the contract or future work orders without the public jurisdiction's consent.

13. Security: At the request of the Public Jurisdiction, the service provider shall disclose its non-proprietary security protocols, processes, tools and technical limitations to the public jurisdiction such that adequate protection and flexibility can be attained between the public jurisdiction and the service provider. The service provider's disclosures shall include information related to:

1. Governance and compliance
2. Standards and policies
3. Security and risk assessments
4. Continuous monitoring and alerting
5. Privilege and identity access management
6. Data protections
7. Infrastructure and application protections
8. Native cloud service provider SIEM/log management tools
9. System health and resource monitoring
10. Incident response and recovery

The public jurisdiction and the service provider shall understand each other's roles and responsibilities and document them within the SLA or End User Agreement.

14. Access to Security Logs and Reports:

- a. At the request of the Public Jurisdiction, the service provider shall provide reports to the public jurisdiction directly related to the infrastructure that the service provider controls upon which the Public Jurisdiction account resides in a format specified in the SLA or End User Agreement and agreed to by the Service Provider and Public Jurisdiction. Unless otherwise agreed to in the SLA or End User Agreement, the service provider shall provide the public jurisdiction a history of all API calls for the public jurisdiction's account. This report shall include the identity of the API caller, the date and time of the API call, the source IP address of the API caller, the request parameters, and the response elements returned by the service provider. The report will be sufficient to enable the public jurisdiction to perform security analysis, resource change tracking and compliance auditing.
- b. The service provider and the public jurisdiction share security responsibilities. The service provider is responsible for providing a secure infrastructure (e.g., storage and servers) and virtualization/hypervisor. The service provider and the public jurisdiction typically share responsibility for identity, credential and access management; networking; and data. The public jurisdiction is responsible for its secure guest operating system, middleware, runtime, applications, firewalls and other logs captured within the guest operating system. The methods and conditions for access to logs/reports and the format for logs/reports are to be specified and agreed upon by both parties in the SLA or End User Agreement. Specific shared responsibilities are identified within the SLA or End User Agreement.

15. Retention, Preservation and Archival of Security Logs and Reports: The service provider shall retain security logs and reports in a usable format for a minimum of 6 years and a maximum retention/archival of 6 years beyond the termination of the contract. The methods and timeframes for the retention, preservation (i.e., legal hold), and archival for the logs and reports will be specified and agreed upon by both parties in the SLA or End User Agreement.

16. Encryption of Data at Rest: Not relevant to service model. Standards would be selected by the public jurisdiction.

17. Contract Audit: The service provider shall cooperate with public jurisdiction audit of conformance to the contract terms. The public jurisdiction or a contractor of its choice may perform the audit. The cost of the audit is the responsibility of the public jurisdiction. If information deemed confidential or proprietary must be reviewed during a contract compliance audit, either party may request the execution of a non-disclosure agreement (NDA), to the extent such agreements are allowed by the public jurisdiction's state law or municipal code.

18. Data Center Audit: An annual audit as required by StateRAMP and/or FedRAMP shall be performed for all relevant data centers associated with provision of the cloud service at the data center provider's expense. Providers must grant the government's information security office access to view the audit and artifacts through StateRAMP, if applicable.

- a. Some governments may accept a SOC 2 Type 2 audit annually for all relevant data centers associated with provision of the cloud service at the service provider's expense. The audit must be made available to the jurisdiction if requested under unilateral NDA or after being redacted.

19. Continuous Monitoring: The service provider shall, at the service provider's expense, conduct continuous monitoring of its compliance with security controls required within the contract. Continuous monitoring shall be conducted via one or a combination of the following methods approved by the public jurisdiction:

- a. Reliance on StateRAMP authorization and independent assessments by third-party assessment organizations (3PAOs)
- b. Reliance on FedRAMP authorization and independent assessments by 3PAOs
Review of control documentation by internal staff or 3PAOs
- c. Acceptance of the service provider's third-party attestation (e.g. AICPA SOC2-Type 2 audit)
- d. Self-assessment by the service provider

20. Responsibilities and Uptime Guarantee: The service provider shall be responsible for the acquisition and operation of all hardware, software and network support related to the services being provided. The technical and professional activities required for establishing, managing and maintaining the environment are the responsibility of the service provider. The

Service Provider will make the system available in accordance with the SLA or End User Agreement.

21. Change Control and Advance Notice: The service provider shall give advance written notice (to be determined at contract time and included in the SLA or End User Agreement) to the public jurisdiction of any upgrades (e.g., major upgrades, minor upgrades or system changes) that may impact service availability and performance. A major upgrade is a replacement of hardware, software or firmware with a newer or better version to bring the system up to date or improve its characteristics. It usually includes a new version number.

22. Subcontractor Disclosure: The service provider shall identify all Subcontractors or other entities or individuals who may be a party to a joint venture or similar agreement with the service provider, and who shall be involved in any application development and/or operations for the specific Products or Services being provided to a Purchasing Entity under this contract, upon request by that Purchasing Entity.

23. Business Continuity and Disaster Recovery: The service provider shall provide a business continuity and disaster recovery plan upon request and upon execution of an NDA and ensure the public jurisdiction's recovery time objective (RTO) is met.

24. Compliance with Accessibility Standards: Not relevant to service model. Standards would be selected by the public jurisdiction.

25. Web Services: Not relevant to service model. Standards would be selected by the public jurisdiction.

26. Subscription Terms: Contractor resells to a purchasing entity a license to: (1) access and use the service for its business purposes; (2) for IaaS, use underlying software as embodied or used in the service; (3) view, copy, upload and download (where applicable), and use contractor's documentation.

27. Notification of Legal Requests: The service provider shall contact the public jurisdiction upon receipt of any electronic discovery, litigation holds, discovery searches and expert testimonies related to the public jurisdiction's data under this contract, or which might reasonably require access to the data of the public jurisdiction. The service provider shall not respond to subpoenas, service of process and other legal requests related to the public jurisdiction without first notifying the public jurisdiction, unless prohibited by law from providing such notice.

28. Termination and Suspension of Service:

- a. In the event of a contract termination, the service provider shall allow the public jurisdiction to retrieve its digital content and provide for the subsequent secure disposal of public jurisdiction digital content.

- b. During any period of suspension, the service provider shall not intentionally erase any public jurisdiction digital content.
- c. If any services are terminated or the entire agreement is terminated, the service provider shall not intentionally erase any public jurisdiction data for a period of 45 days after the effective date of a termination for convenience, or 60 days after the effective date of a termination for cause. After such period, the service provider has no obligation to maintain or provide any public jurisdiction data and shall thereafter, unless legally prohibited, delete all public jurisdiction data in its systems or otherwise in its possession or under its control. In the event of a termination for cause, the service provider will impose no fees the customer for access and retrieval of digital content.
- d. After termination of the contract and the prescribed retention period, the provider shall securely dispose of all digital content in all forms, such as disk, CD/ DVD, backup tape and paper. The public jurisdiction's digital content shall be permanently deleted and shall not be recoverable, according to NIST-approved methods. Certificates of destruction shall be provided to the public jurisdiction.

-----END of IaaS Terms and Conditions-----

Attachment A.2 – On-Premises Terms and Conditions

Due to the nature of on-premise software solutions, the Master Agreement defers these terms and conditions to be negotiated on a case by case basis by the entity seeking an on-premise software solution. As most Purchasing Entities will have very specific technology restrictions and/or statutes within its jurisdiction, creating a standard set of terms for this type of implementation was not reasonable. Each State and/or Participating Entity may add in specific on-premise terms and conditions to be negotiated at the time a Participating Entity seeks to enter a PA with an awarded Offeror.

Attachment B

SCOPE OF WORK

This Scope of Work describes the solutions and services Contractor will provide through the Master Agreement.

The Master Agreement is not intended to replace or materially overlap in scope with other NASPO ValuePoint contract portfolios, including, but not limited to, the following:

1. Data Communications
2. eProcurement Solutions
3. Multi-Function Devices
4. Citizen Engagement Platforms
5. IT Research and Advisory Services
6. Audio Video Equipment, Software, and Services
7. MMIS
 - a. Medicaid Enterprise Systems - Provider Services Module
 - b. Medicaid Enterprise Systems - Claims Processing and Management Services Module
 - c. Medicaid Enterprise Systems - Third Party Liability
 - d. Medicaid Enterprise Systems - Pharmacy Benefits Manager (PBM)

Contractor may include equipment, accessories, and services available under these portfolios only to the extent that such solutions are complementary to the equipment, products, or services being offered. The Lead State may, at its sole discretion, reject products and services from a Contractor's catalog, or remove products and services from a Contractor's Master Agreement, if the Lead State determines that such products and services exceed the intended scope of this Master Agreement or do not comply with this requirement.

I. Scope of Work Overview:

This Scope of Work includes the award categories listed below. For any awarded category, Contractor may also provide related Value-Added Services. Contractor's awarded categories are listed below:

1. Value-Added Reseller: SAAS
2. Value-Added Reseller: IaaS
3. Value-Added Reseller: PaaS
4. Value-Added Reseller: On-Premise
5. Value-Added Reseller: Value Added Services

Hardware is generally not within the scope of this Master Agreement, however, some hardware that is an integral part of a Cloud or On-premises solution may be sold as part of an overall solution. Hardware is not available as a standalone purchase from the Master Agreement and Participating Addenda, except as replacement parts as needed for previously purchased hardware that was not purchased as a standalone but rather was incidental, ancillary, and/or required as part of an overall Cloud or On-Premises solution purchased under this contract. Internet Service Provider services are not within the scope of this Master Agreement.

Definitions:

Cloud and other software services terminology varies greatly within the information technology industry. To clarify the target audience and the intent of the Master Agreement, the following definitions shall apply:

1. Definitions, Roles, and Responsibilities:

Direct Service Providers: A Direct Service Provider is the entity responsible for making a service available to Purchasing Entities. A Direct Service Provider for a cloud solution or other software solution could include an original equipment manufacturer ("OEM"), software publisher, etc. A Direct Service Provider for purposes of the Master Agreement is an entity who creates and has its own solutions, and provides their own cloud or software solutions or services, and typically sets the pricing for its own Products and Services that it provides. A Direct Service Provider may or may not necessarily sell directly

to customers and Purchasing Entities (it may onboard and utilize Fulfillment Partners and sell through the Fulfillment Partners exclusively as its authorized resellers as an example). A Direct Service Provider for an On-Premises solution would develop, maintain and support software that is installed locally on a consumer's system, hardware, or infrastructure and which is provided as Product under the Master Agreement.

A Direct Service Provider is responsible for all obligations and performance under its Master Agreement including all Products and Services, solutions, etc. provided by its Subcontractors, Fulfillment Partners, or Third-party Providers.

Value-added Reseller: A Value-added Reseller is an entity which primarily resells or distributes products, software, solutions, services, etc. that are developed and provided by a Subcontractor or Third-party Provider. Value-added Reseller may also include a firm, implementer, integrator, etc. that partners with a cloud or software solution provider, publisher, original equipment manufacturer ("OEM"), etc. to provide a solution. The value is generated by the Value-added Reseller's ability to help Purchasing Entities source multiple solutions through a one stop shop or to help create an overall cloud or software solution composed of multiple systems and services.

A Value-added Reseller is responsible for all obligations and performance under its Master Agreement, including all Products and Services, solutions, etc. provided by its Subcontractors, Fulfillment Partners, or Third-party Providers.

Fulfillment Partner: Is an agent authorized to act on behalf of a Contractor including a Contractor who is either a Direct Service Provider or Value-added Reseller. Fulfillment Partners may act as an authorized reseller, implementer, service provider, or other related role to fulfill and complete the delivery and performance of a Product or solution that is being purchased through a Master Agreement. Fulfillment Partners may quote, invoice, and receive payment on behalf of a Contractor. To add a Fulfillment Partner to a Master Agreement, the Contractor must submit a request to the Lead State for approval providing the Fulfillment Partner's vendor information, W-9, and updated list of Fulfillment Partners containing their contact information, which states/areas they are authorized to act in, and other pertinent information related to the products, services, solutions, etc. Fulfillment Partners are authorized to provide Products or resell on behalf of the Contractor.

A Contractor, whether in their role as a Direct Service Provider or Value-added Reseller (i.e. the Master Agreement holders), is fully responsible for all actions and performance of its Fulfillment Partners. A Purchasing Entity typically should not need to sign an End User Agreement to utilize a Fulfillment Partner because the Fulfillment Partner is acting on behalf of the primary Contractor and has been approved by the Lead State.

Subcontractor: A Subcontractor may be onboarded by a Contractor to provide additional Products and Services that are within the Contractor's Master Agreement award(s). A Subcontractor may include a software publisher, OEM, cloud provider, service provider, consultant, implementer, etc. and will provide Products and Services on a Contractor's Master Agreement in accordance with the terms and conditions of the Master Agreement. Because a Contractor is fully responsible for a Subcontractor and Subcontractor's Products and Services, the Subcontractor is not required to sign a Third-party Provider Agreement, but Contractor must have a Subcontractor approved by the Lead State to add its Products and Services to Contractor's Master Agreement (see Catalog Updates below). Contractor must ensure when onboarding a Subcontractor that the Subcontractor understands and accepts that the Master Agreement's and applicable Participating Addendum's terms and conditions will apply to Subcontractor's Products and Services when sold and provided through the Contractor's Master Agreement. Additionally, if a Subcontractor requires an End User Agreement, the Contractor must ensure its Subcontractors understand and accept the Order of Precedence outlined in the Master Agreement and where the Subcontractor's End User Agreements falls within the Order of Precedence. All End User Agreements for Subcontractors must meet the requirements outlined in the Master Agreement.

Subcontractors may not quote, invoice, or receive payment on behalf of a Contractor unless they are set up as a Fulfillment Partner by the Contractor and approved by the Lead State.

Third-party Provider: A Third-party Provider is not a Contractor and does not hold a Master Agreement. A Third-party Provider is a third-party publisher, developer, service provider, OEM, etc. who has executed a Third-party Provider Agreement with a Contractor and which has been approved by the Lead State. After executing a Third-party Provider agreement with a Contractor and receiving approval from the Lead State, a Third-party Provider allows their products, solutions, services, etc. to be sold and provided through the Contractor's Master Agreement. By executing a Third-party Provider Agreement with a Contractor and receiving approval from the Lead State, a Third-party Provider becomes party to the Master Agreement as a Third-party Provider as defined in the Master Agreement. In their role as a Third-party Provider, it agrees to, is bound by, and required to perform in accordance with all the terms and conditions of the Master Agreement and applicable Participating Addendum as it relates to all Products and Services it offers under the Master Agreement. This includes but is not limited to, that all its Products comply with all security standards/requirements, insurance requirements, and acknowledge the Order of Precedence contained in the Master Agreement.

Contractor, whether in a role as a Direct Service Provider or a Value-added Reseller, may utilize Third-party Providers in accordance with the terms of its Master Agreement. Because Third-party Providers receive compensation and a benefit for providing their Products and Services through a Master Agreement, and sign a Third-party Provider Agreement, it is the intent of the parties that both the Third-party Providers and Contractors are jointly and severally liable for the Products provided by a Third-party Provider. Third-party Providers are not responsible or liable for Products and Services provided by other Third-party Providers, only joint and severally liable, along with the Contractor, for the Products and Services the Third-party Provider itself offers. Contractor will always serve as the main points of contact for Purchasing Entities and Participating Entities for any and all issues related to the performance and delivery of Products provided under the Master Agreement. Contractors must make best efforts to assist Purchasing Entities and Participating Entities with any issues involving Third-party Providers that the Contractor may not have direct control over. A Third-party Provider is liable for the Products it provides via the Master Agreement in accordance with the Master Agreement, Participating Addendum, and applicable End User Agreement terms and conditions. Any breach of the Master Agreement, Participating Addendum, and applicable End User Agreement terms and conditions by the Third-party Provider may be enforced against the Third-party Provider as though it were a Contractor and signatory to the Master Agreement.

A template of the Third-party Provider Agreement to be executed at a later date between a Contractor and Third-party Provider is attached to the Master Agreement. Unless and until a Third-party Provider Agreement is executed between the Contractor and Third-party Provider, approved by the Lead State, and posted on NASPO ValuePoint's website on the Contractors landing page, it is not considered a valid agreement.

Third-party Providers may not quote, invoice, or receive payment on behalf of a Contractor unless they are set up as a Fulfillment Partner by the Contractor and approved by the Lead State.

Software Online Marketplace: A software online marketplace is a curated digital storefront or online catalog where customers can find, buy and manage software, data, services, etc. Use of a software online marketplace or digital catalog (e.g. AWS Marketplace, Azure Marketplace, etc.) by a Contractor is allowable to sell a Contractor's Products and Services (including Products and Services it may offer through Subcontractors or Third-party Providers), but only if there is a process through the online marketplace to incorporate the terms and conditions of the Contractor's Master Agreement and applicable Participating Addendum, and Contractor ensures the correct process for doing so is completed. Before any Subcontractor's, or Third-party Provider's solution may be sold by the Contractor via the online marketplace the Subcontractor or Third-party Provider Products and Services must be properly onboarded to Contractor's Master Agreement, including receiving approval from the Lead State (see above regarding Subcontractors and Third-party Providers, and see below regarding Catalog Updates).

2. Categorization of Risk

Contractor must store and secure one, all, or a combination of data¹ Risk categories of the data are defined as:

a. Low Risk Data

Definition: FIPS PUB 199, Standards for Security Categorization of Federal Information and Information Systems (“Low Impact Data”).

Low Impact levels are defined in FIPS 199 as follows:

The potential impact is low if the loss of confidentiality, integrity, or availability could be expected to have a limited adverse effect on organizational operations, organizational assets, or individuals. A limited adverse effect could mean that the loss of confidentiality, integrity, or availability might:

- Cause a degradation in mission capability to an extent and duration that the organization is able to perform its primary functions, but the effectiveness of the functions is noticeably reduced;
- Results in minor damage to organizational assets, minor financial loss, or minor harm to individuals.

b. Moderate Risk Data

Definition: FIPS PUB 199, Standards for Security Categorization of Federal Information and Information Systems (“Moderate Impact Data”).

The potential impact is moderate if the loss of confidentiality, integrity, or availability could be expected to have a serious adverse effect on organizational operations, organizational assets, or individuals. A serious adverse effect could mean that the loss of confidentiality, integrity, or availability might:

- Cause a significant degradation in mission capability to an extent and duration that the organization is able to perform its primary functions, but the effectiveness of the functions is significantly reduced;
- Result in significant damage to organizational assets, significant financial loss, or significant harm to individuals, but not loss of life or serious life-threatening injuries.

c. High Risk Data

Definition: FIPS PUB 199, Standards for Security Categorization of Federal Information and Information Systems (“High Impact Data”).

The potential impact is high if the loss of confidentiality, integrity, or availability could be expected to have a severe or catastrophic adverse effect on organizational operations, organizational assets, or individuals. A severe or catastrophic adverse effect could mean that the loss of confidentiality, integrity, or availability might:

- Cause a severe degradation in or loss of mission capability to an extent and duration that the organization is not able to perform one or more of its primary functions;
- Result in major damage to organizational assets, major financial loss, or severe or catastrophic harm to individuals involving loss of life or serious life-threatening injuries.

Prior to signing a Participating Addendum, a Contractor and a Participating State must cooperate and determine what type of risk categories of the data are going to be utilized in the Participating Addendum.

¹ Data types and classifications may vary depending on the Participating State’s laws and regulations. Participating States may change the classification levels, types, names, and restrictions for certain data during the participating addendum stage.

3. Service Models

All Cloud Service Based Models must follow the NIST definition of cloud computing in NIST Special Publication 800-145. Any applicable standards for such Service Model identified in NIST 800-145 and 800-53 will apply to those Service Models that the Contractor was awarded. Additionally, all solutions and services (whether a Cloud Service Based Model or On-premise) must comply with NIST Special Publication 800-53 and any other applicable NIST standards.

Award Categories:

Below is not considered an exhaustive list of all the available types of cloud or software services that may be available. Often newer solution types may be a combination or a hybrid variation of the below categories. For example, Wi-Fi as a Service may be allowable as it's a combination of SaaS, IaaS and professional services.

All service models must align with all applicable NIST requirements and standards. The 4 main software services models and award categories are defined as:

1. **Software as a Service (SaaS)** - as used in this Master Agreement is defined as the capability provided to the consumer to use the provider's applications running on a cloud infrastructure. The applications are accessible from various client devices through a thin client interface such as a Web browser (e.g., Web-based email), or a program interface. The consumer does not manage or control the underlying cloud infrastructure including network, servers, operating systems, storage, or even individual application capabilities, with the possible exception of limited user-specific application configuration settings. Full terms and conditions applicable to SaaS are located in Attachment A NASPO Master Agreement Terms and Conditions.
2. **Infrastructure as a Service (IaaS)** - as used in this Master Agreement is defined as the capability provided to the consumer for provision processing, storage, networks, and other fundamental computing resources where the consumer is able to deploy and run arbitrary software, which can include operating systems and applications. The consumer does not manage or control the underlying cloud infrastructure but has control over operating systems, storage, deployed applications; and possibly limited control of select networking components (e.g., host firewalls). Full terms and conditions applicable to IaaS are located in Attachment A NASPO Master Agreement Terms and Conditions.
3. **Platform as a Service (PaaS)** - as used in this Master Agreement is defined as the capability provided to the consumer to deploy onto the cloud infrastructure consumer-created or -acquired applications created using programming languages and tools supported by the provider. This capability does not necessarily preclude the use of compatible programming languages, libraries, services, and tools from other sources. The consumer does not manage or control the underlying cloud infrastructure including network, servers, operating systems, or storage, but has control over the deployed applications and possibly application hosting environment configurations. Full terms and conditions applicable to PaaS are located in Attachment A NASPO Master Agreement Terms and Conditions.
4. **On-Premises** – as used in this Master Agreement is defined as Products and Services installed or provided locally on a consumer's hardware, servers, or other infrastructure. On-Premises solutions are not cloud solutions. Consumer maintains and has control over their operating systems, hardware, and infrastructure. Appropriate terms and conditions applicable to On-Premises solutions are being deferred to Participating Entities to negotiate in its Participating Addendum (PA). As On-Premises solutions are unique to each entity and involve individual jurisdictions and applicable code, rule, regulations, and statutes that will oversee this Service Model. This allows each Participating Entity to place its own mandatory requirements.

Value Added Services – Value Added Services includes a variety of professional services such as implementation, consulting, data migration, customization, configuration, installation, setup, etc. Value Added Services must fall within the general scope of an awarded category above.

4. Deployment Models

Contractor must provide software services through one of the following deployment methods:

- a. **Private cloud.** The cloud infrastructure is provisioned for exclusive use by a single organization comprising multiple consumers (e.g., business units). It may be owned, managed, and operated by the organization, a third party, or some combination of them, and it may exist on or off premises.
- b. **Community cloud.** The cloud infrastructure is provisioned for exclusive use by a specific community of consumers from organizations that have shared concerns (e.g., mission, security requirements, policy, and compliance considerations). It may be owned, managed, and operated by one or more of the organizations in the community, a third party, or some combination of them, and it may exist on or off premises.
- c. **Public cloud.** The cloud infrastructure is provisioned for open use by the general public. It may be owned, managed, and operated by a business, academic, or government organization, or some combination of them. It exists on the premises of the cloud provider.
- d. **Hybrid cloud.** The cloud infrastructure is a composition of two or more distinct cloud infrastructures (private, community, or public) that remain unique entities, but are bound together by standardized or proprietary technology that enables data and application portability (e.g., cloud bursting for load balancing between clouds)
- e. **On-Premises.** software is installed and runs on computers on the premises of the person or organization using the software, rather than at a remote facility such as a server farm or cloud. In an On-Premises model the hardware and infrastructure is owned and maintained by the Purchasing Entity.

Note: In order to comply with NIST Standards and Requirements but encourage the development and use of new technologies and as new definitions or modifications of NIST Standards and Requirements are established, the scope of services for the Master Agreement may be modified to align with those definitions, pursuant to Utah Administrative Code R33-12-502. The scope of services may be modified for the Contract if both parties agree to the modification. Contract may not be extended beyond the terms of the contract included in this Master Agreement as a result of a modification.

II. NEW TECHNOLOGY

Pursuant to Utah Administrative Rule R33-12-502 the awarded contract(s) may be modified to incorporate new technology or technological upgrades associated with the procurement item being solicited, including new or upgraded: (i) systems; (ii) apparatuses; (iii) modules; (iv) components; and (v) other supplementary items. Further, a maintenance or service agreement associated with the procurement item under the resulting contract(s) may be modified to include any new technology or technological upgrades. Any contract modification incorporating new technology or technological upgrades will be specific to the procurement item being solicited and substantially within the scope of the original procurement or contract.

III. CATALOG UPDATES

Contractor may only add new Products and Services to their pricing catalog for those categories (i.e., service models - SaaS, IaaS, PaaS, and/or On-premises) that it was awarded.

At a minimum, Contractor's detailed catalog must identify the name and description of the Product offered, the Product provider's name, and the role of the Product provider under the Contract (e.g. Fulfillment Partner, Subcontractor, or Third-party Provider). Contractor catalog must list all Products and Services with SKUs (or some equivalent identifiers) and pricing. Pricing must demonstrate the correct contract price with the MSRP (or list price or equivalent if MSRP is not available), discount percentage, and Master Agreement price clearly listed. Additionally, Contractor must provide a summary catalog document listing all the solutions' names and Products available on the Master Agreement, but without all the pricing, line items, and SKU details. This will help Participating Entities more easily see what is available in a much more accessible document than the full detailed catalog.

Contractor is limited to one catalog and End User Agreement update **per quarter**. To add new Products and Services, the Contractor must submit the following information and documents to the State Lead for approval:

1. A brief description of the Product(s) to be added;
2. The category of the Product that falls within one of the Contractor's awarded categories (i.e. SaaS, PaaS, IaaS, On-Premises, Value Added Services);
3. An updated catalog/price list with a clear description of the Products offered and the category they fall under (SaaS, IaaS, PaaS, On-Premises, or Value Added Services);
4. Any additional terms and conditions that accompany the additional Products and Services, including End User Agreements that will be added to Master Agreement Attachment E. The Lead State will review these additional terms and conditions and End User Agreements to ensure their form complies with requirements in the Master Agreement. The Lead State approving of the addition of End User Agreements to the Master Agreement is not acceptance for purposes of making a purchase, and any additional terms and End User Agreements may be negotiated as needed by Participating Entities and individual Purchasing Entities at the time of ordering and making a purchase.
5. A certification that new catalog additions,(including any Products and Services offered via Subcontractors, Fulfillment Partners, and/or Third-party Providers) meet all the Terms & Conditions and requirements of the Master Agreement. An email message certification will suffice.
6. A certification that the new additions comply with the mandatory minimum discount % (and if applicable maximum mark up percentage for Value-added Resellers) as required in Contractor's Master Agreement. An email message certification will suffice.
7. A copy of the executed Third-party Provider Agreement (using the template provided in the Master Agreement) with a Third-party Provider whose Products the Contractor is reselling or utilizing in an overall solution through its Master Agreement (if applicable).
8. Copies of certificates of insurance that meet the correct coverage amounts for all Third-party Providers as required by the Master Agreement and appropriate for the Products and Services they offer through the Contractor's Master Agreement (if applicable).

Once the new catalog and any applicable End User Agreements are approved by the Lead State, the updated catalog and, if applicable, new End User Agreements will be published on the NASPO ValuePoint website via a Google Drive link or similar file sharing system maintained by the Lead State. Contractor catalogs and other product documents approved by the Lead State and published on or accessible through NASPO ValuePoint's website are incorporated by reference to the Master Agreement. An amendment to the Contractor's Master Agreement is not required for a catalog update that is approved by the Lead State and published on NASPO ValuePoint's website.

Third-Party Provider's additional terms (if any) will follow the order of precedence as established in the Master Agreement. Any breach of the Master Agreement Terms and Conditions by the Third Party may be enforced against the Third Party as though they were a signatory to the Master Agreement.

Contractor and Third-party Provider acknowledge this Third-party Provider Agreement is not effective until it is approved by the Lead State and posted on NASPO ValuePoint's Website on the Contractor's landing page. Third-party Provider may not begin providing services, access to a solution, delivering equipment, or provide any other Deliverables via Contractor's Master Agreement until the Lead State has provided written approval to the Contractor, and this Third-party Provider Agreement is posted on NASPO ValuePoint's website.
