1. Introduction and Overview of Requirements

1.1. Purpose of this Request for Proposal (RFP)

The State of California, Department of General Services, Procurement Division (DGS-PD) is releasing an RFP for Aftermarket Automotive Parts in furtherance of the WSCA-NASPO Cooperative Purchasing Program (WSCA-NASPO). The purpose of this RFP is to establish a Master Agreement(s) with a qualified Proposer(s) to provide Aftermarket Automotive Parts to the State of California (the Lead State) and all Participating State(s). A Master Agreement does not guarantee a minimum purchase amount.

The RFP leverages the collective volume of potential purchases by numerous State and Local Government entities to obtain the most favorable pricing and discounts available in the marketplace.

Proposers submitting a Proposal for Aftermarket Automotive Parts must propose costs for all categories listed in Exhibit 7.1, Final Cost Workbook. The awarded Contractor(s) are required to provide data collection, reporting, and distribution of Automotive Parts to the Participating State(s) and entities.

The term of the Master Agreement resulting from this RFP will be for three (3) years from date of award. The contract will also contain options to extend the contract for two (2) additional one (1) year periods upon agreement between the Contractor and the Lead State. All discounts, terms, and conditions will remain the same for the entire contract period including any extension periods.

The use of this contract will be non-mandatory for all California State departments.

The awarded Contractor must provide Aftermarket Automotive Parts to the Lead State, Local Governmental agencies and Participating WSCA-NASPO States and other Participating Entities consistent with the requirements set forth in Section 6 of this RFP. For the purpose of this Proposal, Local Government agencies are defined as "any city, county, city and county, district or other governmental body or corporation empowered to expend public funds for the Acquisition of products", (Reference California Public Contract Code Chapter 2, section 10298 (a) (b)). Participating Entities are defined in the RFP Glossary, Exhibit 1.1. Local Governmental agencies and WSCA-NASPO Participating Entities shall have the same rights and privileges as the Lead State under the terms of this Master Agreement. Any Local Governmental agency desiring to participate shall be required to submit to the same responsibilities as does Lead State agencies and has no authority to amend, modify or change any terms and conditions of this contract.

SECTION 1

General Information

1.2. WSCA-NASPO Background Information

Since 1993, the Western States Contracting Alliance (WSCA) served as the primary cooperative purchasing arm of The National Association of Procurement Officials (NASPO) and encouraged, fostered and guided participating members to work collaboratively in an effort to create true procurement cooperatives.

NASPO formed a subsidiary entity, the WSCA-NASPO Cooperative Purchasing Organization (WSCA-NASPO), LLC to facilitate management of its WSCA-NASPO Cooperative Purchasing Program among the states.

WSCA-NASPO represents a unified, nationally-focused cooperative purchasing program that will leverage the collective expertise and experience of WSCA and NASPO, aggregate the demand of all 50 states, the District of Columbia and the five organized territories and their political subdivisions and other eligible entities, to help spur innovation and competition in the marketplace.

1.3. Participating States

The states listed below have signed their intent to participate in the Master Agreement(s) resulting from this RFP. These states are known as Participating States for the purpose of this RFP and its resulting Master Agreement(s): Alaska, Arkansas, Hawaii, Montana, Nevada, North Dakota, Rhodes Island, South Dakota, Utah and Vermont.

Contractor shall comply with the California Terms and Conditions. After Master Agreement award, Participating States and Entities may add individual state terms and conditions when signing Participating Addendum with Contractors.

Political subdivisions and other entities (including cooperatives) authorized by participating state's statutes to use state contracts are subject to the approval of the Participating State Chief Procurement Official. Issues of interpretation and eligibility for participation are solely within the authority of the Participating State Chief Procurement Official.

1.4. Overview of the RFP

The DGS-PD is issuing a two phase RFP. Phase 1 will evaluate and score the administrative and technical compliance of responsive and responsible Proposers. Phase 2 will evaluate and score cost. After the RFP responses have been received and evaluated by the Lead State's Evaluation Team, the Lead State reserves the right to award Master Agreement(s) to the responsive and responsible Proposers meeting the technical, administrative and cost requirements.

1.5. Scope of the RFP and Proposer's Admonishment

SECTION 2
Rules Governing Competition

SECTION 2

RULES GOVERNING COMPETITION

SECTION 2 Rules Governing Competition

2. Identification And Classification Of Solicitation Document Requirements

2.1.1 Requirements

The State has established certain requirements with respect to Proposals to be submitted by prospective Contractors. The use of "shall," "must," or "will" (except to indicate simple futurity) in the RFP indicates a requirement or condition which is mandatory. A deviation from a requirement is material if the response is not in substantial accord with the RFP requirements, provides an advantage to one Proposer over other Proposers, or has a potentially significant effect on the delivery, quantity or quality of items proposed, amount paid to the supplier, or on the cost to the Lead State. Material deviations cannot be waived. A deviation, if not material, may be waived by the Lead State.

2.1.2 Desirable Items

The words "should" or "may" in the RFP indicate desirable attributes or conditions that are non-mandatory in nature. Deviation from, or omission of, such a desirable feature, will not in itself cause rejection of the Proposal.

2.2 PROPOSAL REQUIREMENT AND CONDITIONS

2.2.1 General

This RFP, the evaluation of responses, and the award of any resulting Master Agreement(s) shall be made in conformance with current competitive Proposal procedures as they relate to the procurement of goods and services by public bodies in the Lead State of California. A Proposal is an irrevocable offer for sixty (60) days following the scheduled date for contract award as specified in RFP Section 1.9, Key Action Dates. A Proposer may extend the offer in the event of a delay of contract award.

2.2.2 RFP Document

This RFP includes, in addition to an explanation of the Lead State's needs which must be met, instructions which prescribe the format and content of Proposals to be submitted. If a Proposer discovers any ambiguity, conflict, discrepancy, omission, or other error in this RFP, the Proposer shall immediately notify the Procurement Official identified in Section 1.8, Procurement Official, of such error in writing and request clarification or modification of the document.

Modifications will be made by Addenda and/or public notice on the Lead State's website. An awarded Contractor who fails to notify the Lead State of an error in the RFP shall not be entitled to additional compensation or time by reason of the error or its later correction.

2.2.3 Examination of Work

The Proposer should carefully examine the entire RFP document and any Addenda thereto, and all related materials and data referenced in the RFP document or otherwise available to the Proposer, and should become fully aware of Attachment 2, Statement of Work.

SECTION 2

Rules Governing Competition

2.2.4 Questions Regarding the RFP

Proposers requiring clarification of the intent or content of this RFP document or on procedural matters regarding the competitive Proposal process may request clarification by submitting questions in BidSync, or in an email to the Procurement Official. To ensure a response, questions should be received by the time and date specified in specified in RFP Section 1.9., Key Action Dates. At the sole discretion of the Lead State, questions may be paraphrased or consolidated by the Lead State for clarity and answered in sets posted on the Lead State eProcurement website (Bidsync).

2.2.5 Joint Proposals

A joint Proposal or joint venture (two or more Proposers quoting jointly on one Proposal) may be submitted and each participating Proposer must sign the joint Proposal. If the contract is awarded to joint proposers, it shall be one indivisible contract. Each joint Contractor will be jointly and severally responsible for the performance of the entire contract, and the joint Proposers must designate, in writing, one individual having authority to represent them in all matters relating to the Proposal and any resulting contract. The Lead State assumes no responsibility or obligation for the division of orders or purchases among joint Contractors.

2.3 CONFIDENTIALITY

Proposers should be aware that marking a file or document "confidential", "proprietary," or "trade secret" in a Proposal may exclude it from consideration for award and will not keep that document from being released after award as part of the California Public Records Act, unless the Proposer successfully petitions a court of competent jurisdiction on a timely basis to order the Lead State not to release the document.

2.4 SUBMISSION OF PROPOSALS

2.4.1 General

Proposal submissions are mandatory for all Proposers. All other steps are optional unless otherwise stated in this RFP. However, all Proposers are strongly encouraged to follow the scheduled steps of this RFP document in order to submit compliant Proposals.

2.4.2 Preparation

Proposals are to be prepared in such a way as to provide a straightforward, concise delineation of capabilities to satisfy the requirements of this RFP document. Images, colored displays, promotional materials, etc., are not necessary or desired. Emphasis should be concentrated on conformance to the RFP document instructions, responsiveness to the RFP document requirements, and on completeness and clarity of content.

2.4.3 Proposal Development Cost

Costs for developing Proposals are the sole responsibility of the Proposer and shall not be chargeable to the Lead State.

2.4.4 Prompt Payment Discounts

Cash discounts offered by Proposers for the prompt payment of invoices will not be considered in evaluating offers for award purposes; however, all offered discounts will be taken if the payment is made within the discount period, even though not considered in the evaluation of offers.

SECTION 2
Rules Governing Competition

2.4.5 Completion of Proposals

Proposals must be complete in all respects as required by the RFP. A Proposal may be rejected if it is conditional or incomplete, or if it contains any alterations of form or other irregularities of any kind. A Proposal may be rejected if any such defect or irregularity constitutes a material deviation from the solicitation document requirements.

2.4.6 False or Misleading Statements

Proposals which contain false or misleading statements, or which provide references that do not support an attribute or condition claimed by the Proposer, may be rejected. If, in the opinion of the Lead State, such information was intended to mislead the State in its evaluation of the Proposal, and the attribute, condition, or capability is a requirement of this RFP document, it will be the basis for rejection of the Proposal.

2.4.7 Proposal Signature

A cover letter shall be signed by an individual who is authorized to bind the proposing firm(s) contractually. The signature block must indicate the title or position that the individual holds in the firm. An unsigned Proposal may be rejected. The wet-ink signed Cover Letter must be received with the Proposal on the date scheduled for Submission of Final Proposals as specified in RFP Section 1.9, Key Action Dates.

2.4.8 Delivery of Proposals

The Final Proposal must be submitted no later than the date and time specified in Section 1.9, Key Action Dates. If mailed, proposals must be received by the Department of General Services on or before the specified date and time. Mail or deliver proposals to the Department of General Services Procurement Official listed in Section 1.8, Procurement Official. If mailed, it is suggested that the Proposer use certified or registered mail with return receipt requested as delivery of proposals is done at the Proposer's own risk of untimely delivery, lost mail, etc.

Proposals must be received in the number of copies stated in Section 8, Proposal Format. Proposals must be received no later than the dates and times in Section 1.9, Key Action Dates. One (1) copy must be clearly marked "Master Copy". All copies of Proposals must be under sealed cover, which is to be plainly marked "FINAL PROPOSAL for RFP DGS- 1304-017". Final Proposals not received by the date and time in Section 1.9, Key Action Dates, shall be rejected.

As required in Section 8, Proposal Format, all cost data must be submitted under separate, sealed cover and clearly marked "COST DATA for RFP DGS-1304-017". If cost data is not submitted separately sealed, the Proposal shall be rejected. Proposals submitted under improperly marked covers may be rejected. If discrepancies are found between two or more copies of the proposal, the proposal may be rejected. However, if not rejected, the Master Hard Copy is the basis for resolving discrepancies.

SECTION 2

Rules Governing Competition

2.4.9 Withdrawal and Resubmission/Modification of Proposals

A Proposer may withdraw its Administrative and Technical Proposal and/or Cost Proposal at any time prior to the Final Proposal submission date and time specified in RFP Section 1.9, Key Action Dates by submitting a request for withdrawal. The Proposer may thereafter submit a new Proposal. Proposals cannot be withdrawn without the Lead State's consent after the date and time designated for receipt.

2.5 EVALUATION AND SELECTION PROCESS

2.5.1 Contract Award

Contract award, if made, will be in accordance with RFP Section 9: Evaluation to responsive and responsible Proposer(s).

Notice of Award, if made, will occur pursuant to Section 1.9, Key Action Dates. However, the Lead State, at its sole option, may change the Notice of Intent to Award date without prior notification. The Lead State reserves the right to modify or cancel in whole or in part its RFP document.

2.5.2 Evaluation Questions

During the evaluation and selection process, the Lead State and its evaluation team may require the availability of a Proposer's representative, who is able to bind the Proposer contractually, to answer specific questions in writing.

2.5.3 Rejection of Proposals

The Lead State may reject any or all Proposals and may waive any immaterial deviation or defect in a Proposal. The Lead State's waiver of any immaterial deviation or defect shall in no way modify the RFP document or excuse the Proposer from full compliance with the RFP document specifications if awarded a contract.

2.5.4 Errors in the Proposal

An error in a Proposal may cause the rejection of that Proposal. However, the Lead State may at its sole option retain the Proposal and make certain corrections.

In determining if a correction will be made, the Lead State will consider the conformance of the Proposal to the format, content and unusual complexities required by the RFP as follows:

- a. If the Proposer's intent is clearly established based on review of the complete Proposal submittal, the Lead State may at its sole option correct an error based on that established intent.
- b. The Lead State may at its sole option correct obvious clerical errors.
- c. The State may at its sole option correct discrepancy and arithmetic errors on the basis that if intent is not clearly established by the Proposal; the Proposal narrative shall have priority over the contract, the contract shall have priority over the cost work sheets, and within each of these, the lowest level of detail will prevail. If necessary, the extensions and summary will be recomputed accordingly, even if the lowest level of detail is obviously misstated.

SECTION 2 Rules Governing Competition

- d. In the event an ambiguity or discrepancy between the general requirements described in RFP Section 4: Proposed Agreement and the specific technical requirements set forth in RFP Section 6: Technical Requirement is detected after the opening of Proposals, RFP Section 6: Technical Requirement and the Proposer's response thereto, shall have priority. Refer to Section 2.2.2, RFP Document regarding immediate notification to Lead State contact when any ambiguity, conflict, discrepancy, omission, or other errors are discovered.

2.6 DEBRIEFING

A debriefing may be held after contract award at the request of any Proposer for the purpose of receiving specific information concerning its evaluation. The discussion will be based primarily on the administrative, technical and cost evaluations of the Proposer's response. A debriefing is not the forum to challenge the RFP document specifications or requirements.

For this situation, the Proposer may submit a protest of the selection as described below. Protests regarding selection of the "successful Proposer(s)" will be heard and resolved by the Office of Administrative Hearings, whose decision will be final.

5.16 State of California Darfur Contracting Act of 2008 (M)

The Act was passed by the California Legislature and signed into law by the Governor to preclude State agencies generally from contracting with "scrutinized" companies that do business in the African nation of Sudan (of which the Darfur region is a part), for the reasons described in PCC, section 10475.

A scrutinized company is a company doing business in Sudan as defined in PCC section 10476. Scrutinized companies are ineligible to, and cannot, Propose on or submit a Proposal for a contract with a State agency for goods or services. (PCC, Section 10477(a)).

Therefore, PCC, section 10478 (a) requires a company that currently has (or within the previous three (3) years has had) business activities or other operations outside of the United States to certify that it is not a "scrutinized" company when it submits a bid or Proposal to a State agency.

A scrutinized company may still, however, submit a Proposal for a contract with a State agency for goods or services if the company first obtains permission from the Department of General Services (DGS) according to the criteria set forth in PCC, section 10477(b).

SECTION 5
Administrative Requirements

Proposers are required to complete Exhibit 5.7, Darfur Contracting Act, and submit it with their Proposal in accordance with Section 8, Proposal Format. Failure to provide the completed exhibit will result in the Proposal being considered non-responsive.

5.17 State of California Plastic Trash Bag Certification Violations (M)

Public Resources Code section 42290 et seq. prohibits the Lead State from contracting with any supplier, manufacturer, or wholesaler, and any of its divisions, subsidiaries, or successors that have been determined to be noncompliant with the recycled content plastic trash bag certification requirements. This includes award of a State contract or subcontract or renewal, extension, or modification of an existing contract or subcontract. Prior to award, the State shall ascertain if the intended awardee or proposed subcontractor is a business identified on the current Department of Resources Recycling and Recovery (Cal-Recycle) noncompliant list(s). In the event of any doubt of the status or identity of the business in violation, the Lead State will notify the Board of the proposed award and afford the Board the opportunity to advise the Lead State. No award will be made when either the Proposer or a subcontractor has been identified either by published list or by advice from the Board, to be in violation of certification requirements.

5.18 State of California Unfair Practices Act and Other Laws (M)

For the State of California, the Proposer warrants that its proposal complies with the Unfair Practices Act (Business and Professions Code section 17000 et seq.) and all applicable State and Federal laws and regulations.

5.19 State of California Fair Employment and Housing Commission Regulations (M)

The California Government Code section 12990 requires all State contractors to have implemented a Nondiscrimination Program before entering into any contract with the State. The Department of Fair Employment and Housing (DFEH) randomly selects and reviews State contractors to ensure their compliance with the law. DFEH periodically disseminates a list of Proposers who have not complied. Any Proposer so identified is ineligible to enter into any State contract.

5.20 State of California Air or Water Pollution Violations (M)

For the Lead State of California, unless the contract is less than \$25,000 or with a non-competitively bid contractor, Government Code section 4477 prohibits the State from contracting with a person, including a corporation or other business association, who has been determined to be in violation of any state or federal air or water pollution control law.

Prior to an award, the Lead State shall ascertain if the intended awardee is a person included in notices from the Boards. In the event of any doubt of the intended awardees identity or status as a person who is in violation of any state or federal air or water pollution law, the Lead State will notify the appropriate Board of the proposed award and afford the Board the opportunity to advise the Department that the intended awardee is such a person.

No award will be made to a person who is identified either by the published notices or by advice, as a person in violation of state or federal air or water pollution control laws.

SECTION 5 Administrative Requirements

5.21 State of California Preferences and Incentives (NM)

Proposers are not required to request the following preferences and incentives and the Lead State's denial(s) of these preferences and incentives is not a basis for rejection of a Proposal.

Upon award to a Proposer claiming Small Business or DVBE participation, notice shall be given by the Lead State to the California Certified Small Business or a California Certified Disabled Veteran Business Enterprise listed in Exhibit 5.3, Proposer Declaration Form, of their participation in the contract.

The Lead State will monitor the life of a Master Agreement awarded with any applied preference or incentive for compliance to statutory, regulatory and contractual requirements. After award, the Contractor is required to respond to the Lead State's request for evidence of performance. The Lead State will take appropriate corrective actions and may apply sanctions as necessary to enforce preference and incentive programs.

For this RFP, the DVBE Program goals and incentive have been waived.

5.21.1 State of California Small Business Preference (NM)

California Government Code section 14835, et seq. requires that a five percent (5%) preference be given to Proposers who qualify as a California certified Small Business or Proposers who qualify as a non-small business claiming at least twenty-five percent (25%) California certified Small Business subcontractor participation.

The rules and regulations of this law, including the definitions of a Small Business, or qualifying non-small business, are contained in Title 2, California Code of Regulations, section 1896 et seq. Small Business Non-Profit Veteran Service Agencies (SB/NVSA) Proposers meeting requirements specified in section 999.50 et seq. of the Military and Veterans Code and obtaining California certification as a Small Business are also eligible for this preference. Questions regarding regulations and/or certifications should be directed to the Office of Small Business and DVBE Services at (916) 375-4940.

Proposers desiring to claim this preference must submit completed Exhibit 5.8, Small Business Preference Information, and Exhibit 5.3, Proposer Declaration Form, with the Proposal.

For the purposes of this RFP, the Small Business Preference, if applicable, will be applied in accordance with Section 9, Evaluation.

SECTION 5 Administrative Requirements

5.21.2 Commercially Useful Function (M)

Contractor, whether the Proposer or a subcontractor, who have a California certification for one or more of the socio-economic programs (i.e., SB or DVBE), must perform a commercially useful function (CUF) in the resulting contract. CUF is defined in the Military and Veterans Code Section 999(b)(5)(B) for Disabled Veteran Business Enterprises and in the Government Code Section 14837(d)(4)(A) for Small Businesses.

At the State's option, Proposers may be required to submit additional written clarifying information regarding CUF. Failure to submit the requested written information, as specified, may be grounds for rejection of the Proposal.

Proposers must describe compliance with CUF requirement for each certified supplier (Proposer or subcontractors) on Exhibit 5.9, Commercially Useful Function (CUF) Worksheet. Proposers must complete one (1) worksheet for each certified supplier

5.21.3 State of California Target Area Contract Preference Act (TACPA) (NM)

This Proposal contains new and revised procedures for Proposers who wish to apply for TACPA preferences. Proposers are encouraged to review the preference program materials carefully to ensure that their submittals conform to the programs' requirements.

Pursuant to the enactment of Assembly Bill 93 (Chapter 69, Statutes of 2013) the contracting preferences of the Enterprise Zone Act and the Local Agency Military Base Recovery Act are repealed. Proposers may no longer apply for these preferences.

1. A contract preference will be granted to California-Based Proposers in accordance with the Target Area Contract Preference Act (TACPA), Government Code section 4530 et seq., whenever contracts for goods are in excess of \$100,000 and the Proposers meet certain requirements as defined in the California Code of Regulations, Title 2, Section 1896.30-1896.41 regarding labor needed to provide the goods being procured.
2. The requirement to provide the TACPA Monthly Performance Report of Labor Hours is a mandatory contract requirement that demonstrates your company is being a responsible supplier to the State of California. The required reports shall be submitted to the Dispute Resolution Unit (DRU) no later than the 15th day of each proceeding month during the contract period. If the Lead State does not receive the required reports by the required due date, it may impact future contract awards to your company.
3. Proposers are alerted that Workforce Preferences for TACPA MUST be met regardless of preference amount needed to win a contract award. The State will hold the awardee to meeting the workforce preference requested in the preference application. Failure to meet the obligation could result in Default by Supplier and be subject to sanctions as set forth in law.

SECTION 5 Administrative Requirements

4. Proposers desiring to claim TACPA preferences must submit a fully executed copy of the Standard Form 830 with their bid. This form can be found at:
<http://www.dgs.ca.gov/pd/Programs/DisputeResolution.aspx> under "Resource Information". The Lead State reserves the right to verify, validate, and clarify all information contained in the Proposal. This includes, but is not limited to, information from Proposers, manufacturers, subcontractors, and any other sources available at time of Proposal evaluation. Proposer's refusal to agree or comply with these terms, or failure to provide additional supporting information at the Lead State's request may result in denial of the requested preference.
5. Proposers are advised that TACPA workforce preferences between 1-4 percent are based on the Proposer agreeing to hire certain identified persons equal to a percentage of its workforce during the contract performance period. The application form, STD 830, incorrectly lists workforce preference as percentage of total contract labor hours.

Proposers are not required to apply for TACPA preferences. Denial of TACPA preference requests is not a basis for rejection of the Proposal. Contracts awarded with applied preferences will be monitored throughout the life of the Contract for compliance to statutory, regulatory and contractual requirements. The Lead State will take appropriate corrective action to apply sanctions as necessary to enforce performance programs.

5.22 Catalog Submission

Proposer shall provide a link to the commercially available catalog described in requirement 6.8

The Proposal must contain all the material requested and address all requirements identified in the RFP.

Each Proposer is responsible for providing sufficient information and documentation for their Proposal to be thoroughly evaluated. Additional information deemed appropriate by the Proposer should be included. However, material in the Proposal which conflicts with the RFP requirements may be cause for rejection.

It is the Proposer's responsibility to ensure their Proposal is submitted in a manner that enables the Evaluation Team to easily locate response descriptions and exhibits for each requirement of this RFP.

8.2. General Format Requirements

The pages in the Proposer's RFP response must be standard 8.5" x 11" paper. Larger paper is permissible for charts, diagrams, spreadsheets, etc. Font size should be no smaller than 10 fonts. Pages should be placed within a binder with tabs delineating each section.

SECTION 9
Evaluation

SECTION 9

EVALUATION

SECTION 9

Evaluation

9. Evaluation

9.1 Introduction

This Section describes how the Lead State and the Sourcing Team will evaluate and identify Proposals that meet the RFP's objectives and provide the best value for the Lead State and Participating States. It is the Lead State's intent to conduct a comprehensive, impartial evaluation of all Proposals received. The Lead State and the Sourcing Team will use a pass/fail and weighted score, two-envelope method of selection.

Award of Master Agreement resulting from this RFP may be made to multiple Proposers in accordance with the method identified within this section

9.2 Evaluation Team

A multi-state Sourcing Team will be responsible for the review and evaluation of Proposal in accordance with the process described in the RFP. The Lead State may engage additional qualified individuals during the process to assist the Evaluation Team in understanding technical, financial, legal, contractual, or program matters.

9.3 Overview of Evaluation Process

Evaluations will be conducted in a six (6) step process as follows:

- 1) Evaluate each Proposal to determine if a Proposer's Final Proposal is responsive and responsible to all mandatory (pass/fail) requirements in Section 5, Administrative Requirements. Note: If a Proposer is deemed non-compliant with any mandatory requirements, evaluation of the Proposal will not proceed to Step 2.
- 2) Evaluate each Proposal to determine if a Proposer's Final Proposal is responsive and responsible to mandatory (pass/fail) requirements in Section 6, Technical Requirements. Note: If a Proposer is deemed non-compliant with any mandatory requirement, the evaluation of the Proposal will not proceed to Step 3.
- 3) Determine the Technical Requirements Score for each Proposer's Final Proposal compliant with Steps 1 and 2 above.
- 4) Determine the Cost Score for each Proposer's Final Proposal. Note: If a Proposer is deemed non-compliant with cost requirements, the evaluation of the Proposal will not proceed to Step 5.
- 5) Determine the Total Score for each Proposer's Final Proposal by aggregating the Technical Requirements Score and Cost Score for each Proposal.
- 6) Determine and apply any applicable preferences and/or incentives to each qualified Final Proposal.

SECTION 9 Evaluation

9.4 Proposal Opening

All Proposals received by the time and date specified in RFP Section 1.9, Key Action Dates, will be reviewed and evaluated. No Final Proposals will be accepted after the date and time specified in Section 1.9, Key Action Dates. There will be no announcement identifying Proposers until the Public Cost Opening.

The Proposals will be checked for conformance to Section 8, Proposal Format. The separately sealed envelope containing Cost Data identified in Section 8.3.8 will remain sealed and will be stored under lock and key until completion of the administrative and technical evaluations. Absence of required information may deem the Proposal to be non-responsive and may cause rejection.

After the administrative and technical evaluations are complete, Volume II of all compliant (non-rejected) Final Proposals will be opened at the Public Cost Opening and subsequently evaluated. (See Section 1.9, Key Action Dates)

9.5 Validation Against Requirements

The Evaluation Team shall check each Proposal in detail to determine compliance to the RFP requirements. The Lead State reserves the right to determine if the Proposer's response to a requirement, as detailed in their description and/or supporting documentation, supports or contradicts the Proposer's claim of intended compliance.

If a Proposal fails to meet a mandatory RFP requirement, the Evaluation Team will determine if the deviation is material as defined in RFP Section 2, Rules Governing Competition. A material deviation of a mandatory RFP requirement will cause rejection of the Proposal. An immaterial deviation of a mandatory RFP requirement will be examined to determine if the deviation will be accepted. If accepted, the Proposal may be processed as if no deviation had occurred.

During the evaluation of the Proposal, the Evaluation Team may request from the Proposer clarification of any area of the Proposal determined to be unclear. However, this request for clarification will not be an opportunity for the Proposer to change their Proposal.

9.6 Proposal Scoring

The Evaluation Team will evaluate and score the responses in each Proposal to determine a Total Score. The maximum points available are 1000. The Total Score includes two (2) components:

TABLE 2: Total Score Components	
Component Description	Total Available Points
Technical and Administrative Requirements Score	250
Cost Score	750
Total Score	1000

SECTION 9
Evaluation

The Evaluation Team will determine the Total Score for each Proposal by aggregating the Technical Requirements Score and the Cost Score.

9.7 Administrative and Technical Requirements

The Administrative and Technical Requirements Score represents 25% (250 points) of the total points available.

The Administrative and Technical Requirements Score will be determined by evaluating the Proposer's responses to the scorable requirements identified in Table 3 below.

TABLE 3: Administrative and Technical Requirements Score Components			
RFP Reference	Component Title	Type	Maximum Points Available
5.8	Customer References	MS	150
6.13.	Retail Sales Establishment	NMS	100
Total Technical Points Available			250

9.7.1 Retail Sales Establishment:

- A maximum of 10 points is assigned to Proposers who provide a narrative for their walk-in and will call order system.
- A maximum of 10 points is assigned to Proposers who provide a narrative on their customer service associate who will supports walk-in and will-call order system.
- A maximum of 20 points is assigned to Proposers who provide narrative for sales receipts availability for all walk-in and will-call transaction.
- A maximum of 20 points is assigned to Proposer who provides narrative supporting availability of delivery.
- A maximum of 20 points is assigned to Proposer who accepts State P-Card.
- A maximum of 20 points is assigned to Proposer who provides narrative on participation of independently owned franchise and payment to a single location.

SECTION 9
Evaluation

Points are assigned based on the following criteria:

% of Points	Scoring Guideline for Narrative Response
100	The response exceeds the requirement by providing a narrative regarding the process that will ensure contract pricing at Retail Sales Establishment. Evaluator has the highest degree of confidence in the Proposer's response.
60	The response addresses the requirement by providing a narrative regarding the process that will ensure contract pricing at Retail Sales Establishment. Evaluator has an acceptable degree of confidence in the Proposer's response.
0	The response failed to provide a narrative regarding the process that will ensure contract pricing/discount at Retail Sales Establishment.

9.7.2 Customer Reference Scoring

The Customer Reference requirement will be evaluated and scored separately.

Each Customer Reference Form (Exhibit 5.2) has ten (10) questions. For evaluation purposes, the Evaluation Team will evaluate the rating (provided by the customer) as the number of points the Proposer will receive per question (i.e. a rating of 5 will result in 5 points). Note: If a narrative comment is not provided on a rating of 5, the State will evaluate the question rating as a 4.

Each Customer Reference Form may receive a maximum of 50 points. The total Customer Reference Score will be determined by aggregating the scores for each of the three (3) customer reference forms. It is possible to arrive at a total Customer Reference Score of 150.

The Evaluation Team will contact customer references to verify customer provided ratings.

9.8 Cost Score Evaluation

The Cost Score represent 75% (750 points) of the points available.

The following describes how cost will be evaluated.

Parts provided for Market Basket Evaluation Form shall be based on the following 2008 vehicle models:

- Chevy Impala
- Chevy Silverado
- Chevy Tahoe

SECTION 9
Evaluation

The Evaluation Team and Subject Matter Experts will verify that each item proposed meets the description of the line item on the Market Basket Evaluation Form for each vehicle.

The Evaluation Team will calculate the final net cost to the State for each Proposer's Market Basket Evaluation Form. Proposer's Market Basket Evaluation Form for each vehicle will be totaled to arrive at a dollar value total. A cost factor will be calculated using the dollar value totals to determine Cost Score Totals.

9.9 Cost Workbook (Summary scoring)

The points for Proposer's total Market Basket Evaluation Form worksheet shall be calculated as follow:

Step one:

Determine total dollar value for each for each Proposer.

Example:

Proposer	Total State Net Cost - Chevy Impala	Total State Net Cost – Chevy Silverado	Total State Net Cost – Chevy Tahoe	Total
Proposer 1	\$45	\$100	\$100	\$245
Proposer 2	\$100	\$75	\$100	\$275
Proposer 3	\$150	\$100	\$100	\$350
Proposer 4	\$100	\$100	\$100	\$300

Step Two:

Determine the lowest total dollar value for all Proposers.

Example:

Proposer	Total
Proposer 1	\$245 ⇐ lowest total
Proposer 2	\$275
Proposer 3	\$350
Proposer 4	\$300

SECTION 9
Evaluation

Step Three:

For each Proposer, use the lowest total as the Numerator and the respective Proposer's total as the Denominator. The result is referred to as the cost factor.

Example:

Proposer	Lowest total(Numerator)	Cost Factor
	Individual Proposer total (Denominator)	
Proposer 1	\$245÷\$245	=1.0000
Proposer 2	\$245÷\$275	=0.8909
Proposer 3	\$245÷\$350	=0.7000
Proposer 4	\$245÷\$300	=0.8167

Step Four:

Multiply each Proposer's Cost Factor by the points available to obtain the Proposer's score for the Proposal. Cost Scores are rounded to the nearest whole numbers with no decimal points.

Example:

Proposer	Cost Factor (a)	Maximum Point Available (b)	Cost Score (a x b)
Proposer 1	1.0000	700	700
Proposer 2	0.8909	700	624
Proposer 3	0.7000	700	490
Proposer 4	0.8167	700	572

SECTION 9
Evaluation

9.10 Total Score

The total score will be calculated by aggregating the Technical Requirement Score and Cost Score.

Example:

Proposer	Technical Requirement Score (a)	Cost Score (b)	Total Score (a + b)
Proposer 1	375	700	1,075
Proposer 2	320	624	944
Proposer 3	300	490	790
Proposer 4	360	572	932

9.11 Preference Point Calculation

Small Business (SB) Preference Calculation

If the small business preference is to be applied to a California-certified small business's total score, the following formula will be utilized:

SB Preference Points= (Highest Non-Small Business Total Score) X (5%)

Example: the highest non-small business' Total Score is 1075 points. The SB Preference formula would calculate as $1075 \times 0.05 = 54$ Points rounded to a whole number. The 54 points would be added to the total score for all Small Business Proposers, who qualify for this preference.

Note: If a non-small business is subcontracting with a certified small business for twenty-five percent (25%) of the resulting contract, it will receive the same five (5%) preference as described above. However, a non-small business cannot use this preference to displace a small business in the line for award

SECTION 9 Evaluation

Proposer	Small Business	Total Score	Small Business Preference	Adjusted Total Score
Proposer 1	No	1,075	0	1,075
Proposer 2	Yes	944	54	998
Proposer 3	Yes	790	54	844
Proposer 4	No	932	0	932

9.12 TACPA Preference Calculation

TACPA preference will be applied to a qualified Proposer's total score in accordance with Government Code.

9.13 Award

Master Agreement awards will be made to the responsive and responsible Proposer within a 20% range of the Proposer with the highest number of points including all applicable preference points. The Lead State reserves the right to eliminate any specific category(s) from the final award.

Proposer	Adjusted Total Score	Award Threshold (20% of highest score)	Award
Proposer 1	1,075	860	Yes
Proposer 2	998	860	Yes
Proposer 3	844	860	No
Proposer 4	932	860	Yes

9.14 Negotiation

The State may elect to enter into negotiations pursuant to Public Contract Code §6611, if conditions exist.

Such notice of rejection will state the respects in which the Goods do not substantially conform to their specifications. If the State does not provide such notice of rejection within thirty (30) days, unless otherwise specified in the Statement of Work, of delivery, such Goods and services will be deemed to have been accepted. Acceptance by the State will be final and irreversible, except as it relates to latent defects, fraud, and gross mistakes amounting to fraud. Acceptance shall not be construed to waive any warranty rights that the State might have at law or by express reservation in this Contract with respect to any nonconformity.

The Department of General Services, Deputy Director, Procurement Division, or designee, shall terminate by delivering to the Contractor a Notice of Termination specifying the extent of termination and the effective date thereof. The parties agree that, as to the terminated portion of the Contract, the Contract shall be deemed to remain in effect until such time as the termination settlement, if any, is concluded and the Contract shall not be void.
- b) After receipt of a Notice of Termination, and except as directed by the State, the Contractor shall immediately proceed with the following obligations, as applicable, regardless of any delay in determining or adjusting any amounts due under this clause. The Contractor shall:
 - i) Stop work as specified in the Notice of Termination.

24. TERMINATION FOR DEFAULT:

- a) The State may, subject to the Force Majeure paragraph contained herein, by written notice of default to the Contractor, terminate this Contract in whole or in part if the Contractor fails to:
 - i) Deliver the Goods or to perform the services within the time specified in the Contract or any amendment thereto;

- ii) Make progress, so as to endanger performance of this Contract (but see subparagraph (b) below); or
- iii) Perform any of the other provisions of this Contract (but see subparagraph (b), below).
- b) The State's right to terminate this Contract under subparagraphs (a)(ii) and (a)(iii) above, may be exercised if the Contractor does not cure such failure within the time frame stated in the cure notice issued by the Buyer.
- c) If the State terminates this Contract in whole or in part, it may acquire, under the terms and in the manner the Buyer considers appropriate, Goods or services similar to those terminated, and the Contractor will be liable to the State for any excess costs for those Goods or services. However, the Contractor shall continue the work not terminated.
- d) If the Contract is terminated for default, the State may require the Contractor to transfer title and deliver to the State, as directed by the Buyer, any:

 - ii) Partially completed Goods and materials, parts, tools, dies, jigs, fixtures, plans, drawings, information, and Contract rights (collectively referred to as "manufacturing materials" in this clause) that the Contractor has specifically produced or acquired for the terminated portion of this Contract. Upon direction of the Buyer, the Contractor shall also protect and preserve property in its possession in which the State has an interest.
- e) The State shall pay Contract price for completed Goods delivered and accepted. The Contractor and Buyer shall agree on the amount of payment for manufacturing materials delivered and accepted for the protection and preservation of the property. Failure to agree will be a dispute under the Disputes clause. The State may withhold from these amounts any sum the Buyer determines to be necessary to protect the State against loss because of outstanding liens or claims of former lien holders.
- f) If, after termination, it is determined that the Contractor was not in default, or that the default was excusable, the rights and obligations of the parties shall be the same as if the termination had been issued for the convenience of the State.
- g) The rights and remedies of the State in this clause are in addition to any other rights and remedies provided by law or under this Contract.

- b) Acts of the federal or state government in either its sovereign or contractual capacity.

If the failure to perform is caused by the default of a subcontractor at any tier, and if the cause of the default is beyond the control of both the Contractor and subcontractor, and without the fault or negligence of either, the Contractor shall not be liable for any excess costs for failure to perform.

26. RIGHTS AND REMEDIES OF STATE FOR DEFAULT:

Unless expressly exempted by statute, the Act requires state agencies to pay properly submitted, undisputed invoices not more than 45 days after (i) the date of acceptance of Goods or performance of services; or (ii) receipt of an undisputed invoice, whichever is later.
- 31. TAXES:** Unless otherwise required by law, the State of California is exempt from Federal excise taxes. The State will only pay for any State or local sales or use taxes on the services rendered or Goods supplied to the State pursuant to this Contract.
- 32. NEWLY MANUFACTURED GOODS:** All Goods furnished under this Contract shall be newly manufactured Goods; used or reconditioned Goods are prohibited, unless otherwise specified.

- 34. CONFIDENTIALITY OF DATA:** All financial, statistical, personal, technical and other data and information relating to the State's operation which are designated confidential by the State and made available to the Contractor in order to carry out this Contract, or which become available to the Contractor in carrying out this Contract, shall be protected by the Contractor from unauthorized use and disclosure through the observance of the same or more effective procedural requirements as are applicable to the State. The identification of all such confidential data and information as well as the State's procedural requirements for protection of such data and information from unauthorized use and disclosure shall be provided by the State in writing to the Contractor. If the methods and procedures employed by the Contractor for the protection of the Contractor's data and information are deemed by the State to be adequate for the protection of the State's confidential information, such methods and procedures may be used, with the written consent of the State, to carry out the intent of this paragraph. The Contractor shall not be required under the provisions of this paragraph to keep confidential any data or information which is or becomes publicly available, is already rightfully in the Contractor's possession, is independently developed by the outside the scope of this Contract, or is rightfully obtained from third parties.

- a) Contractor shall hold the State of California, its officers, agents and employees, harmless from liability of any nature or kind, including costs and expenses, for infringement or use of any copyrighted or uncopyrighted composition, secret process, patented or unpatented invention, article or appliance furnished or used in connection with the Contract.
 - b) Contractor may be required to furnish a bond to the State against any and all loss, damage, costs, expenses, claims and liability for patent, copyright and trade secret infringement.
 - c) Contractor, at its own expense, shall defend any action brought against the State to the extent that such action is based upon a claim that the Goods or software supplied by the Contractor or the operation of such Goods pursuant to a current version of Contractor supplied operating software infringes a United States patent or copyright or violates a trade secret. The Contractor shall pay those costs and damages finally awarded against the State in any such action. Such defense and payment shall be conditioned on the following:
 - i) That the Contractor shall be notified within a reasonable time in writing by the State of any notice of such claim; and,
 - ii) That the Contractor shall have the sole control of the defense of any action on such claim and all negotiations for its settlement or compromise, provided, however, that when principles of government or public law are involved, the State shall have the option to participate in such action at its own expense.

GENERAL PROVISIONS**Attachment 1**

or to replace or modify the same so that they become non-infringing. If none of these options can reasonably be taken, or if the use of such Goods or software by the State shall be prevented by injunction, the Contractor agrees to take back such Goods or software and make every reasonable effort to assist the State in procuring substitute Goods or software. If, in the sole opinion of the State, the return of such infringing Goods or software makes the retention of other Goods or software acquired from the Contractor under this Contract impractical, the State shall then have the option of terminating such Contracts, or applicable portions thereof, without penalty or termination charge. The Contractor agrees to take back such Goods or software and refund any sums the State has paid Contractor less any reasonable amount for use or damage.

- e) The Contractor shall have no liability to the State under any provision of this clause with respect to any claim of patent, copyright or trade secret infringement which is based upon:

Contractor's written demand shall be fully supported by factual information, and if such demand involves a cost adjustment to the Contract, Contractor shall include with the demand a written statement signed by an authorized person indicating that the demand is made in good faith, that the supporting data are accurate and complete and that the amount requested accurately reflects the Contract adjustment for which Contractor believes the State is liable. If the Contractor is not satisfied with the decision of the Department Director or designee, the Contractor may appeal the decision to the Department of General Services, Deputy

Director, Procurement Division. In the event that this Contract is for information technology Goods and/or services, the decision may be appealed to an Executive Committee of State and Contractor personnel.

- b) Pending the final resolution of any dispute arising under, related to or involving this Contract, Contractor agrees to diligently proceed with the performance of this Contract, including the delivery of Goods or providing of services in accordance with the State's instructions. Contractor's failure to diligently proceed in accordance with the State's instructions shall be considered a material breach of this Contract.
- c) Any final decision of the State shall be expressly identified as such, shall be in writing, and shall be signed by the Department Director or designee or Deputy Director, Procurement Division if an appeal was made. If the State fails to render a final decision within 90 days after receipt of Contractor's demand, it shall be deemed a final decision adverse to Contractor's contentions. The State's final decision shall be conclusive and binding regarding the dispute unless Contractor commences an action in a court of competent jurisdiction to contest such decision within 90 days following the date of the final decision or one (1) year following the accrual of the cause of action, whichever is later.

39. STOP WORK:

The Stop Work Order shall be specifically identified as such and shall indicate it is issued under this clause. Upon receipt of the Stop Work Order, the Contractor shall immediately comply with its terms and take all reasonable steps to minimize the incurrence of costs allocable to the work covered by the Stop Work Order during the period of work stoppage. Within a period of 90 days after a Stop Work Order is delivered to the Contractor, or within any extension of that period to which the parties shall have agreed, the State shall either:

The State shall make an equitable adjustment in the delivery schedule, the Contract price, or both, and the Contract shall be modified, in writing, accordingly, if:

 - ii) The Contractor asserts its right to an equitable adjustment within 30 days after the end of the period of work stoppage; provided, that if the State decides the facts justify the action, the State may receive and act upon a proposal submitted at any time before final payment under this Contract.
- c) If a Stop Work Order is not canceled and the work covered by the Stop Work Order is terminated in accordance with the provision entitled Termination for the Convenience of the State, the State shall allow reasonable costs resulting from the Stop Work Order in arriving at the termination settlement.
- d) The State shall not be liable to the Contractor for loss of profits because of a Stop Work Order issued under this clause.

4. WSCA-NASPO eMarket Center

a. In July 2011, WSCA-NASPO entered into a multi-year agreement with SciQuest, Inc. whereby SciQuest will provide certain electronic catalog hosting and management services to enable eligible WSCA-NASPO entity's customers to access a central online website to view and/or shop the goods and services available from existing WSCA-NASPO Cooperative Contracts. The central online website is referred to as the WSCA-NASPO eMarket Center Contractor shall either upload a hosted catalog into the eMarket Center or integrate a punchout site with the eMarket Center.

b. Supplier's Interface with the eMarket Center. There is no cost charged by SciQuest to the Contractor for loading a hosted catalog or integrating a punchout site.

c. At a minimum, the Contractor agrees to the following:

(1) Implementation Timeline: WSCA-NASPO eMarket Center Site Admin shall provide a written request to the Contractor to begin enablement process. The Contractor shall have fifteen (15) days from receipt of written request to work with WSCA-NASPO and SciQuest to set up an enablement schedule, at which time SciQuest's technical documentation shall be provided to the Contractor. The schedule will include future calls and milestone dates related to test and go live dates. The contractor shall have a total of Ninety (90) days to deliver either a (1) hosted catalog or (2) punch-out catalog, from date of receipt of written request.

SPECIAL PROVISIONS

(2) WSCA-NASPO and SciQuest will work with the Contractor, to decide which of the catalog structures (either hosted or punch-out as further described below) shall be provided by the Contractor. **Whether hosted or punch-out, the catalog must be strictly limited to the Contractor's awarded contract offering (e.g. products and/or services not authorized through the resulting cooperative contract should not be viewable by WSCA-NASPO Participating Entity users).**

(a) Hosted Catalog. By providing a hosted catalog, the Contractor is providing a list of its awarded products/services and pricing in an electronic data file in a format acceptable to SciQuest, such as Tab Delimited Text files. In this scenario, the Contractor must submit updated electronic data once a year for all Master Agreement items with exception of lubricant which shall be updated quarterly to the eMarket Center for the Lead State's approval to maintain the most up-to-date version of its product/service offering under the cooperative contract in the eMarket Center.

(b) Punch-Out Catalog. By providing a punch-out catalog, the Contractor is providing its own online catalog, which must be capable of being integrated with the eMarket Center as a. Standard punch-in via Commerce eXtensible Markup Language (cXML). In this scenario, the Contractor shall validate that its online catalog is up-to-date by providing a written update once a year for all Master Agreement items with exception of lubricant which shall be updated quarterly to the Lead State stating they have audited the offered products/services and pricing listed on its online catalog. The site must also return detailed UNSPSC codes (as outlined in line 3) for each line item. Contractor also agrees to provide e-Quote functionality to facilitate volume discounts.

d. No cooperative contract enabled in the eMarket Center may include price changes on a more frequent basis than once a year for all Master Agreement items with exception of lubricant which shall be updated quarterly. The following conditions apply with respect to hosted catalogs:

(1). Updated pricing files are required by the 1st of the month and shall go into effect in the eMarket Center on the 1st day of the following month (i.e. file received on 1/01/13 would be effective in the eMarket Center on 2/01/13). Files received after the 1st of the month may be delayed up to a month (i.e. file received on 11/06/09 would be effect in the eMarket Center on 1/01/10).

(2) Lead State-approved price changes are not effective until implemented within the eMarket Center. Errors in the Contractor's submitted pricing files will delay the implementation of the price changes in eMarket Center.

SPECIAL PROVISIONS

e. Supplier Network Requirements: Contractor shall join the SciQuest Supplier Network (SQSN) and shall use the SciQuest's Supplier Portal to import the Contractor's catalog and pricing, into the SciQuest system, and view reports on catalog spend and product/pricing freshness. The Contractor can receive orders through electronic delivery (cXML) or through low-tech options such as fax. More information about the SQSN can be found at: www.sciquest.com or call the SciQuest Supplier Network Services team at 800-233-1121.

f. Minimum Requirements: Whether the Contractor is providing a hosted catalog or a punch-out catalog, the Contractor agrees to meet the following requirements:

(1) Catalog must contain the most current pricing, including all applicable administrative fees and/or discounts, as well as the most up-to-date product/service offering the Contractor is authorized to provide in accordance with the cooperative contract; and

(2) The accuracy of the catalog must be maintained by Contractor throughout the duration of the cooperative contract between the Contractor and the Contract Administrator; and

(3) The Catalog must include a Lead State contract identification number; and

(4) The Catalog must include detailed product line item descriptions; and

(5) The Catalog must include pictures when possible; and

(6) The Catalog must include any additional WSCA-NASPO and Participating Addendum requirements. Although suppliers in the SQSN normally submit one (1) catalog, it is possible to have multiple contracts applicable to different WSCA-NASPO Participating Entities. For example, a supplier may have different pricing for state government agencies and Board of Regents institutions. Suppliers have the ability and responsibility to submit separate contract pricing for the same catalog if applicable. The system will deliver the appropriate contract pricing to the user viewing the catalog.

g. Order Acceptance Requirements: Contractor must be able to accept Purchase Orders via fax or cXML. The Contractor shall provide positive confirmation via phone or email within 24 hours of the Contractor's receipt of the Purchase Order. If the Purchasing Order is received after 3pm EST on the day before a weekend or holiday, the Contractor must provide positive confirmation via phone or email on the next business day.

More information about the UNSPSC is available at: <http://www.unspsc.com> and <http://www.unspsc.com/FAQs.asp#howdoesunspscwork>.

i. Applicability: Contractor agrees that WSCA-NASPO controls which contracts appear in the eMarket Center and that WSCA-NASPO may elect at any time to remove any supplier's offering from the eMarket Center.

j. The Lead State reserves the right to approve the pricing on the eMarket Center. This catalog review right is solely for the benefit of the Lead State and Participating Entities, and the review and approval shall not waive the requirement that products and services be offered at prices (and approved fees) required by the Master Agreement.

k. Several WSCA-NASPO Participating Entities currently maintain separate SciQuest eMarketplaces, these Participating Entities do enable certain WSCA-NASPO Cooperative Contracts. In the event one of these entities elects to use this WSCA-NASPO Cooperative Contract (available through the eMarket Center) but publish to their own eMarketplace, the Contractor agrees to work in good faith with the entity and WSCA-NASPO to implement the catalog. WSCA-NASPO does not anticipate that this will require substantial additional efforts by the Contractor; however, the supplier agrees to take commercially reasonable efforts to enable such separate SciQuest catalogs.

5. Administrative Fees

a. The Contractor shall pay to the WSCA-NASPO Cooperative Purchasing Organization, or its assignee, a WSCA-NASPO Administrative Fee of one-quarter of one percent (0.25% or 0.0025) no later than 60 days following the end of each calendar quarter. The requirements of the State of California are set forth in RFP Section 6.48. For all other such requests, the fee level, payment method and schedule for such reports and payments will be incorporated into the Participating Addendum that is made a part of the Master Agreement.
