RFP OVERVIEW

I. INTRODUCTION

This Request for Proposals (RFP) is being issued by the Department of Transportation through the State of Colorado (“Lead State”) in collaboration with the NASPO ValuePoint cooperative purchasing program. The purpose of this RFP is to establish one or more Master Agreements for **Transit Vehicles and Related Options, Equipment and Accessories**.

This solicitation is designed to structure contracts **awarded to manufacturers** that will provide authorized users flexibility in purchasing public mass transit vehicles and related options, equipment and accessories. Public mass transit vehicles made available for purchase pursuant to any resulting Master Agreement will be based on two (2) primary purchase types:

1. Vehicles purchased by Authorized Users with federal grants (FTA grantees) that are compliant with FTA regulations or
2. FTA compliant vehicles purchased by Authorized Users without federal grants

Offerors may submit proposals under either or both Option 1 and Option 2 listed above.

The solicitation and resulting Master Agreements will be structured with four (4) categories outlined below **for both option 1 and option 2**. Electric bus line items are within each category.

Category 1 Motor Coach - A type of bus used for transporting passengers on excursions and longer-distance. Motor Coach buses often have a front door only, a luggage hold separate from the passenger cabin and can be equipped with facilities required for longer trips, including comfortable seats and a toilet. Motor Coach vehicles are typically 30-foot - 45 foot with forward facing reclining seats. These buses can be made wheelchair accessible and may also be configured for transporting prisoners.

Category 2 Trolley - A transit bus with an interior and exterior designed to look like a streetcar from the early 1900s. They typically hold 20 to 40 passengers.

Category 3 Transit - A type of bus with front and center doors, generally with a rear-mounted engine, low back seating and without luggage compartments or restroom facilities. Transit buses are typically used on a fixed route system. A 30-foot to 45 foot is the standard and the average life expectancy of transit bus chassis is about 12 years. Category 3 includes the following sub-categories:

- 3.1 Light Duty
- 3.2 Medium Duty
- 3.3 Heavy Duty
- 3.4 Low Floor

- 3.5 Alternate Fuel

Category 4 ADA Accessible Van & Minivan - Regular Van: A factory-built 12- or 15-passenger vehicle (including the driver) manufactured by Ford, GM, Chrysler, or other *OEMs. These vehicles have side passenger doors, can be retrofitted with wheelchair lifts, and must meet **ADA requirements. The usual life expectancy of vans ranges from about 125,000 to 150,000 miles.

Minivan: A factory-built vehicle between a Sport Utility Vehicle (SUV) and a van. Examples are the Dodge Caravan and Chevy Astro. They hold seven passengers, including the driver. A wheelchair minivan that has gone through an extensive after-factory conversion. The firms performing this after-factory work raise the roofs and drop the floor of the minivans.

A standard factory-built van that a specialty retrofitter has significantly altered after leaving the van maker's factory. These retrofitters remove the seats and the top half of the van. Among the features are an extended-height roof, a specific wheelchair entry door, a front entry door with a convenient, low step for ambulatory passengers, and new seating with a center aisle. The conversion van has three-across seats: two-person seats on the driver's side and one person on the other. The usual configuration is eight ambulatory seats and one wheelchair tie (8) down.

Many states award both federal and state grant funds for the purchase of transit vehicles. Recipients of these grant awards include but are not limited to public transit agencies, units of local government (cities, towns, counties) and non-profit organizations. Federal Transit Administration (FTA) grant funding is provided for the bulk of these vehicle purchases and the Master Agreements (MAs) resulting from this RFP are subject to financial reimbursement by the FTA. Accordingly, federal requirements apply to the MAs and if those requirements change, then the changed requirements shall apply as required.

About NASPO ValuePoint

NASPO ValuePoint is a division of the National Association of State Procurement Officials (NASPO), a non-profit association dedicated to advancing public procurement through leadership, excellence, and integrity. In accordance with NASPO ValuePoint's Lead State Model™, the Lead State is issuing this RFP, evaluating responses, and establishing Master Agreements with the support and assistance of a Multistate Sourcing Team™ composed of individuals from other member states, representing a broad range of perspectives that ensure the RFP incorporates best practices recognized by public entities across the country.

Participation in NASPO ValuePoint Master Agreements is convenient and cost-effective for eligible entities—including state departments, institutions, agencies, and political subdivisions, federally recognized tribes, and other eligible public and nonprofit entities in the 50 states, the District of Columbia, and U.S. territories—and suppliers, with no

membership or registration required. In 2023, contractors reported a combined **\$20.5 billion** in sales through NASPO ValuePoint Master Agreements awarded through cooperative solicitations like this RFP. This RFP constitutes the first iteration of a NASPO ValuePoint portfolio established for transit vehicles and related options, equipment and accessories, so no historical spend data exists. Market research and internal state membership polling indicate this to be a very attractive portfolio opportunity for NASPO Members.

More information about NASPO, NASPO ValuePoint, and the NASPO ValuePoint Lead State Model can be found at www.naspo.org and www.naspovaluepoint.org and in Attachment E, Participation Information.

TRANSIT VEHICLES AND RELATED OPTIONS, EQUIPMENT AND ACCESSORIES

Issued by the **Department of Transportation through the State of Colorado**
Solicitation Number [RFP 25-023 NM]

documents or responses may be rejected in accordance with Attachment A, RFP Terms and Conditions.

2. **Stage 2: Mandatory Minimum Requirements Evaluation.** Complete and responsive proposals will be reviewed for compliance with mandatory minimum requirements. Proposals failing to meet or exceed all Mandatory Minimum Requirements identified in Attachment C, RFP Evaluation Plan may be rejected in accordance with Attachment A, RFP Terms and Conditions.
3. **Stage 3: Technical Criteria Evaluation.** Proposals meeting or exceeding the Mandatory Minimum Requirements will be evaluated against the Technical Criteria set forth in Attachment C, RFP Evaluation Plan. Offerors earning a minimum of 60% of available points in stage 3, Technical Criteria Evaluation will move on to the stage 4 Cost Evaluation. The proposal of any offeror not earning a minimum of 60% of the available points will be rejected.
4. **Stage 4: Cost Evaluation.** Cost Proposals not rejected following evaluation of Technical Criteria will be evaluated based on the Market Basket pricing. See Attachment C, RFP Evaluation Plan for further details. Cost Proposals may also be subject to an independent review for reasonableness and best value by the Lead State. Costs determined not to be reasonable or best-value by the Lead State may result in all or part of Offeror's proposal being rejected, notwithstanding the results of the Cost Proposal evaluation.
5. All scores will be totaled to arrive at the supplier's total scored evaluation. See Attachment C, RFP Evaluation Plan, for further details.
6. **Best and final offers (BAFOs).** After all interviews have been completed, the Proposers in the Competitive Range may be asked to submit BAFOs. The Request for BAFOs shall include the following:
 - Notice that discussions and negotiations are concluded.
 - A complete listing of the conditions, exceptions, reservations, or understandings that have been approved.
 - A common date and time for submission of written BAFOs, allowing a reasonable opportunity for preparation of the written BAFOs.
 - Notice that if any modification to a BAFO is submitted, it must be received by the date and time specified for the receipt of BAFOs.

**Request for Proposals for
TRANSIT VEHICLES AND RELATED OPTIONS, EQUIPMENT AND ACCESSORIES**

Issued by the **Department of Transportation through the State of Colorado**
Solicitation Number [RFP 25-023 NM]

- Notice to Proposers that do not submit a notice of withdrawal or a BAFO that their immediately previous Proposal will be construed as their BAFO.

Any modification to the initial Proposal made by a Proposer in its BAFO shall be identified. BAFOs will be evaluated by the lead state according to the same requirements and criteria as the initial Proposals. The lead state will make appropriate adjustments to the initial scores for any sub-criteria and criteria that have been affected by Proposal modifications provided in the BAFO.

- B.** After evaluations are completed, the Lead State and Multistate Sourcing Team will determine which proposals are most advantageous to the Lead State and potential Participating Entities and Purchasing Entities.
- C.** Prior to announcement of awards and execution of Master Agreements, the Lead State will present an award recommendation to NASPO ValuePoint for approval of the proposed awards.
- D.** Following approval of NASPO ValuePoint: All Offerors will be notified in writing regarding the results of the RFP evaluation. Upon review and approval of the evaluation committee's recommendation for award(s), the Lead State will issue a "Notice of Intent to Award" letter to the apparent successful Offeror(s).

The "Notice of Intent to Award," by itself, does not guarantee the performance of such work/services. After the ten-business day protest period has ended and any controversies are resolved, the offeror must successfully negotiate and execute a contract before work can begin. Apparent successful Offeror(s) shall not take any actions(s) to prepare for or start the performance of the RFP work/services until a contract is fully negotiated and executed.

After one or more Offerors are selected, an "Intent to Award" is issued and the protest period is over, award results are updated **on the following:**
