

Ochsner has a security feature called Two-Step Verification.

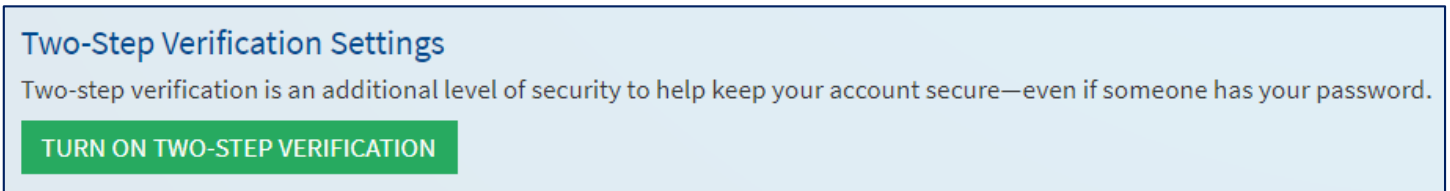

With two-step verification your health information is now only accessible from devices you trust, such as your cell phone or home computer. This is done by a unique code that is sent to either your email address or mobile phone.

## Here's how to do it:

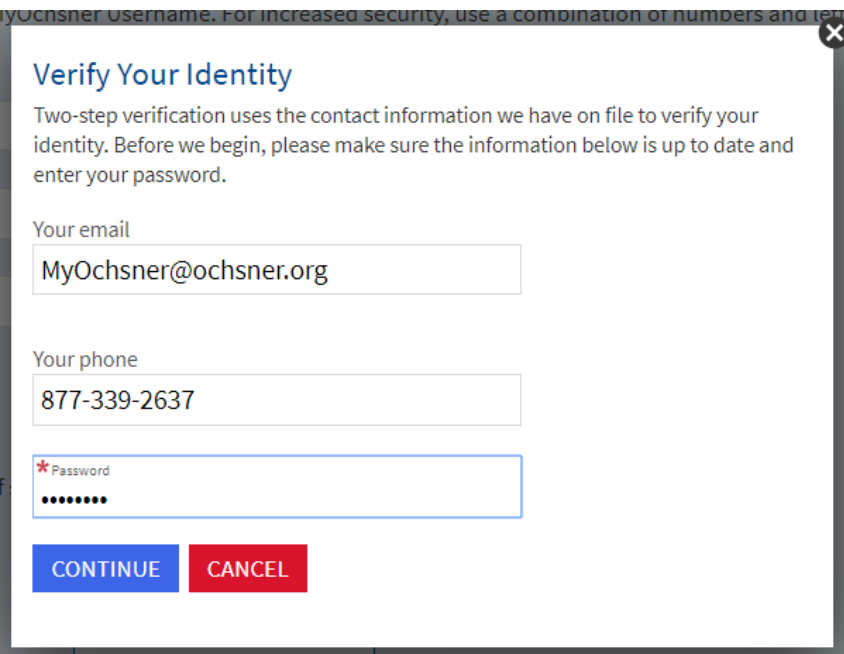

1. Select **Security Settings** under Account Settings inside the Profile menu.

2. Select the **Turn On Two-Step Verification** option.

3. Fill in the required information to verify your identity:

4. Select a method in which the security code will be sent.

### Verify Your Identity

To finish updating your two-step verification settings, we need to send you a security code.

- 1 We'll send a code to your email or phone.
- 2 When you receive the code, enter it on the next screen.
- 3 Once we have verified the code, you will be all set.

How would you like to receive the code?

 SEND TO MY EMAIL  TEXT TO MY PHONE  CANCEL

our selected security question and ask you for your secret answer to verify your identity.

5. Enter the security code when prompted:

### Verify Your Identity

To finish updating your two-step verification settings, we need to send you a security code.

- 1 We'll send a code to your email or phone.
- 2 When you receive the code, enter it on the next screen.
- 3 Once we have verified the code, you will be all set.

We've sent you a security code. Please enter it in the box below.

Enter Code

 NEXT  CANCEL

Didn't receive the code?  
If you haven't received the code within a few minutes, we can send it to you again.

 SEND TO MY EMAIL  TEXT TO MY PHONE

7. Once the code has been entered Two-Step Verification will be enabled.
