Ochsner has a security feature called Two-Step Verification.

With two-step verification your health information is now only accessible from devices you trust, such as your cell phone or home computer. This is done by a unique code that is sent to either your email address or mobile phone.

Here’s how to do it:

1. Select **Security Settings** under Account Settings inside the Profile menu.

2. Select the **Turn On Two-Step Verification** option.

3. Fill in the required information to verify your identity:

   - **Verify Your Identity**
     - Two-step verification uses the contact information we have on file to verify your identity. Before we begin, please make sure the information below is up to date and enter your password.
     - **Your email**
       - MyOchsner@ochsner.org
     - **Your phone**
       - 877-339-2637
     - **Password**
       - Password
     - **CONTINUE**
     - **CANCEL**
4. Select a method in which the security code will be sent.

5. Enter the security code when prompted:
7. Once the code has been entered Two-Step Verification will be enabled.

Two-step verification is now turned on for your account
This extra layer of security will help to keep your account secure.
