For Orbis Use

Shemsedin, a farmer in Ethiopia, witnessed Orbis's effective sight-saving work firsthand

Having witnessed his grandparents lost their sight due to trachoma, Shemsedin's generation, and that of his 11-month-old daughter, have been spared the same fate through the educational efforts of Orbis, and the antibiotics administered within his village.

"It is expensive to buy the medicines on our own. Thanks to Orbis's mass drug administration, my family and I never miss taking it every year," Shemsedin stated.

2020 brought new challenges to the mass distribution of antibiotics in the community due to COVID-19. Orbis pivoted to a door-to-door approach to make sure that no one would miss the medicines. With Orbis's hygiene education, Shemsedin feels more prepared to fight the diseases. He regularly wears a mask, washes his hands thoroughly, and keeps social distancing – measures that combat both trachoma and the pandemic. **On behalf of Shemsedin and other beneficiaries who can have access to critical eye care because of your support, we thank you once again for your generosity.**

By supporting Orbis World Sight Day ONLINE, you will receive e-receipt instantly and save Orbis's administration costs to help the blind.
