

ଚକ୍ଷୁର ପ୍ରମୁଖ କ୍ଷତି
କରିବା ପ୍ରମୟରେ କିଛିଟା ଭୁଲ ହୋଇଥାଏ ଯାହାଦ୍ୱାରା ଚକ୍ଷୁ
e. ଚକ୍ଷୁ ଖୋଲିଲା ବେଳେ ଦୁଇ ହାତରେ ଚକ୍ଷୁ ଖୋଲିବା ଦରକାର ।
ଚକ୍ଷୁ ଆଖିରୁ କାଢ଼ିଲାବେଳେ ଗୋଟିଏ ହାତରେ କାଢ଼ିଲେ ଫ୍ରେମ ଖରାପ ହୋଇଯାଏ
ରେ ଭଲରେ ଲାଗିବ ନାହିଁ ।
କ୍ଷୁ ସାଦୃଶ ବ୍ୟବହାର କରିବ
ସଫା କରିବା ପାଇଁ

ENSURING QUALITY PRIMARY EYE CARE THROUGH ACCREDITED VISION CENTERS

VISION CENTER

A sustainable way of delivering Primary Eye Care Services

100%

Community Based Facility to provide Primary Eye Care

80%

of avoidable causes of blindness and visual impairment can be addressed at the primary level

Equitable access for women to primary eye care services

Community gateway to secondary and tertiary level care for advanced eye care needs

Strategic to India's commitment to Universal Eye Health and WHO's Integrated People-Centred Eye Care (IPEC)

ACCREDITATION STANDARDS

A game-changer for Primary Eye Care

WHAT?

Developed by:

Quality & Accreditation Institute (QAI) with leading eye health institutions

Contains:

9 chapters, 32 standards, and 95 criteria for standardized, high-quality care

Ensures:

Reliable, consistent, and safe service delivery in underserved communities at the primary level

HOW?

Standardized Quality:

Reliable, Consistent, and Safe eye care to ensure improved treatment outcomes

People-Centered Care:

Focused on safety, availability, accessibility, affordability, and awareness, leading to an improved level of satisfaction

Human Resource for Eye Health:

Professionally trained team with clearly defined roles to achieve a high quality of care

Data Management System:

Focus on managing and utilizing data to improve the efficiency and effectiveness of primary eye care

Community Recognition:

The accreditation helps build credibility of eye health services in the community

Environmental Sustainability:

Eco-friendly Green Vision Centers to positively impact the environment while providing primary eye care

WHY?

Quality & Safety:

It ensures delivering standardized, patient-centered care with safe clinical practices

Credibility & Trust:

It builds trust and confidence among communities, partners, and stakeholders

Staff Efficiency:

It boosts performance through clear roles and continuous training

Structural Systems:

It ensures consistent service delivery processes, strengthened clinical practices, and improved documentation

Ongoing Improvement:

It drives service improvement on continuous basis, leading to optimized utilization of services by the community

CLEAR VISION, GREENER FUTURE

Standards for
Delivering Eye Care with
Environmental Responsibility

1 WHY CHOOSE GREEN EYE CARE?

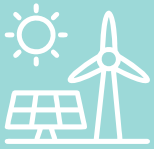

Promote sustainable,
greener practices in
eye care services

Minimise our contribution
to the environmental footprint
while improving community health

2 SUSTAINABILITY IN ACTION

Green & Sustainable Eye Care Practices

Adoption of renewable
energy sources
(e.g., solar power)

Policies and practices that
ensure focus on efficient
water consumption

Facility design and
refurbishment aligned with
low-carbon and
environmentally
responsible approaches,
including the use of
energy-efficient appliances

Digital Community Eye Care

Use of electronic medical
records to reduce paper
uses

Digital data management
for efficient and
sustainable operations

Responsible Waste Management

Policies for waste
minimisation practices

Safe segregation and
disposal of biomedical
waste

Reduction of single-use
materials where possible

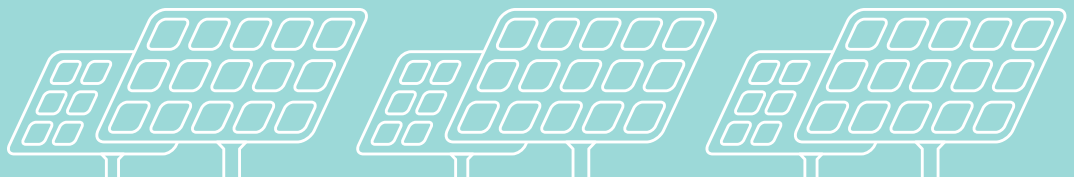

Greener Access, Healthier Communities

E-vehicle for community
outreach activities

Support healthier and
sustainable living
environments

Tele-ophthalmology to
provide remote access to
specialty eye care services

3 BEYOND COMPLIANCE TOWARDS IMPACT

Contributes to sustainable healthcare
ecosystems

Aligns with Universal Health Coverage &
public health goals

Aligns with Sustainable Development Goals

Clean, safe, and resource-efficient facility
management

Builds trust and reputation in the
community, promoting integrated people-
centred care.
