**Changing  
The Way The  
World Sees**

Volume 2 | Issue 2 | October 2022

## From the Country Director's Desk

Dear Friends,

I am thrilled to share the latest edition of our quarterly newsletter to share insights into our work over the last quarter. Orbis continues to make advances in its endeavor to make quality eye health services accessible to all. We are delighted to share the report on the Cost-Benefit Analysis of Investing In Child Eye Health highlighting the economic impact of childhood blindness in India. The study is the first of its kind since 1997. Moreover, through Hospital Based Trainings, we continue to support training and capacity building of eye care fraternity professionals. The Vision Vans have been instrumental in enabling the last mile connect between the communities and eye health services. Further, we would also like to give you a glimpse of our initiative aimed at strengthening systems and processes for improved patient communication.

We are also sharing impact stories as a testament of the change at grassroots level, and something for you to look forward to over the next quarter.

**Dr. Rishi Raj Borah**

Country Director - India, Orbis
