FORT LAUDERDALE - HOLLYWOOD INTERNATIONAL AIRPORT'S PUBLIC ART

This guide features public art by local, national, and internationally acclaimed artists on display at Broward County's Fort Lauderdale-Hollywood International Airport (FLL), which has participated in Broward County's award-winning Public Art & Design Program since its inception in 1976.

FLL's terminals include paintings, photographs, sculptures, mosaic and terrazzo floors, and video, light, and sound artworks. Three of these works were recognized by the Americans for the Arts Public Art Network's Year in Review that highlights the best examples of public art in the country. Art exhibitions featuring local artists, youth, and airport employees can also be found in the airport terminals.

This captivating collection, along with more than 200 public artworks in locations throughout Broward County, creatively reflects the spirit and energy of South Florida and its commitment to the cultural arts.

Whether you are in Broward County for business or pleasure, we hope that you will discover and enjoy FLL's public art collection with the help of this brochure and let it serve as your guided tour!

For more information about public art at the Airport and throughout Broward County, visit Broward.org/Arts/PublicArt.

FLL operates as an enterprise fund, meaning that its operation, capital projects, and public art are funded by service and passenger fees, not by Broward County taxpayer dollars. With over 65 artworks, FLL has the highest concentration of public art of any Broward County agency. FLL's public art collection is managed by the Broward County Aviation Department under the auspices of the Broward Cultural Division's Public Art & Design Program.
