**A Report on**  
**One Day Seminar on “Exploring Horizons in Pharmaceutical Careers”**  
**Friday, 25th July 2025**

The Institute organized a One Day Seminar on “Exploring Horizons in Pharmaceutical Careers” on Friday, 25th July 2025, as part of the academic year 2025–2026 activities. The objective of the seminar was to guide budding pharmacists towards understanding the wide horizons in pharmaceutical careers, including clinical research, regulatory affairs, business consultancy, entrepreneurship, and skill-based professions. The seminar was designed to bridge the gap between academic learning and practical industry expectations, thereby equipping students with the knowledge required to build successful professional paths. The session began with a warm welcome and felicitation of the distinguished speakers. Principal Dr. Ashok Bhosale delivered an inaugural address highlighting the importance of industry exposure, professional skill development, and the need for students to adapt to evolving pharmaceutical trends.

The first speaker, Mr. Amitkumar Mane, Founder and CEO of Global Pharma Academy and Global Pharma Consultancy Services, shared his inspiring journey as a pharma professional and entrepreneur. He guided students on career opportunities in clinical data management, pharmacovigilance, medical coding, drug regulatory affairs, and also emphasized entrepreneurship in the pharmaceutical sector. His session encouraged students to explore both employment and business possibilities within the field.

The second session was delivered by Mrs. Manjulika Vijay Gurav, Founder and CEO of AgenoMe Research Institute, Pune. With over 12 years of experience in clinical research and regulatory fields, she provided detailed insights into the conduct of clinical trials, career growth in regulatory affairs, quality audits, and future prospects in research. Her presentation gave

students a clear understanding of the scope and challenges in clinical research careers. The seminar also included an interactive question–answer session, where students actively engaged with the speakers, asking questions related to skill development, career progression, and industry requirements. The sessions were highly appreciated for being both motivating and informative. The program concluded with a Vote of Thanks by Ms. Deepika Prajapati, who expressed gratitude to the speakers for their valuable time, to the Principal for his guidance, to the faculty for their support, and to the students for their enthusiastic participation. This activity was organised by Mrs. Trusha P. Shangrapawar - training and placement officer and co-ordinator Ms. Dipika Prajapati.
