***Profiles in Leadership Journal* Announces the 2025 Women Worth Watching® in Leadership Honorees**

CLEVELAND, OH (August 1, 2025) – *Profiles in Leadership Journal* proudly announces the 31 recipients of its 24th annual **Women Worth Watching® in Leadership Awards**, celebrating women whose careers, leadership, and mentorship continue to inspire change across industries.

These accomplished professionals have risen to the top of their fields—leading major law firms, Fortune 500 teams, health systems, technology enterprises, and community organizations. They embody the spirit of progress and purpose in action.

Each recipient contributes an original essay for the Q3 edition of *Profiles in Leadership Journal*, sharing personal insights on leadership, mentorship, and navigating challenges. Their stories reinforce the values of resilience, innovation, and elevating others.

“We are honored to showcase these exceptional leaders and the organizations that nominated them,” said James R. Rector, Publisher. “Their achievements speak volumes—and their commitment to others is what makes them truly worth watching.”

To date, over 2,100 women have received this recognition since the award's founding in 2001. More information is available at www.womenworthwatching.com.
