

FOR IMMEDIATE RELEASE

PRA Health Sciences, Symphony Health Launch Metys™ National Market Measurement Tool

The first of its kind, Metys™ delivers accurate, reliable data quickly through a single access point

Raleigh, N.C. – September 17, 2019 – PRA Health Sciences (NASDAQ: PRAH) announced today the launch of Symphony Health's new national market measurement tool – Metys™ (pronounced Met-IS), the only completely integrated, all-in-one market research solution available from a contract research organization (CRO).

The first platform of its kind, Metys delivers pharmaceutical market analytics and intelligence that is both timely and comprehensive. Now life sciences and other industries are better equipped to manage diverse portfolios with accuracy, reliability and agility.

Powered by IDV®, the company's Integrated Dataverse, Metys intelligently integrates prescriber, payer, and patient data assets. Source of business, managed care and other key metrics are also included and provide a complete picture of market activity. Speed, ease of access, and insights are all hallmarks of Metys' customizable dashboards and reporting. Metys™ is also the only national market measurement solution in the industry that includes linked diagnosis subgroups to projected prescriptions and writers.

"Because understanding, measuring and influencing treatment decisions is increasingly complex, PRA and Symphony Health have developed a solution that quickly and efficiently brings all of the data to clients' fingertips within the Metys™ platform," said Doug Fulling, President of Symphony Health. "This offering affirms our commitment to serving our clients at the highest level with tools that will move their business forward, while also reinforcing our culture of innovation and excellence."
