

Strategic Solutions in India: A Multi-Skilled Talent Pool for Global Drug Development

Capitalizing on resources in India provides global and regional pharmaceutical and biotechnology companies with quality, flexibility, and value. PRA Health Sciences has been established in India for 12+ years and provides embedded services to local and global biopharmaceutical companies through our Strategic Solutions Division.

SSD provides growth opportunities to access the depth and variety of talent in India. Whether the client is headquartered in India or seeking to expand into the region, we recruit, manage, and maintain qualified resources or functional groups. PRA provides the stability and flexibility needed for rapid, reliable growth, with a focus on high-quality, on-time delivery.

Experience

PRA Embedded Solutions™ provides line and/or functional management of individuals and teams for companies of all sizes, across all stages of clinical development, and in multiple therapeutic areas. Our operations in India have given us a data management advantage for many years, and we have the capacity to provide services through many other roles and skill sets, such as:

Start-up activities

Regulatory services, including dossier preparation for all countries

Clinical monitoring including remote and adaptive monitoring

Medical writing including protocols, submissions, and reports

Pharmacovigilance and safety report writing

Biostatistics and data management

Contract services and grants management

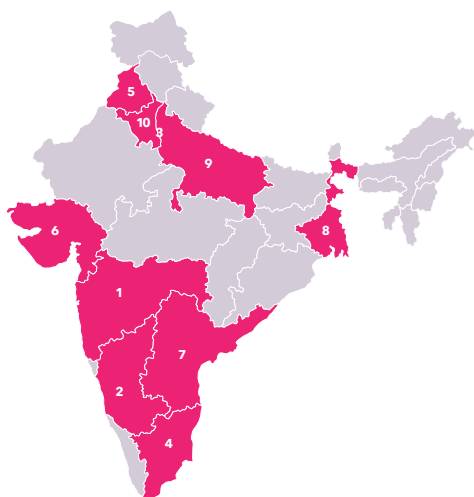

Our 3 offices in India provide local line management, global support, and a commitment to growth across a range of services, allowing our clients to find and keep the best talent in the area. We continue to have steady growth in India and the Asia Pacific region and are dedicated to continuing our success with new and existing clients.

SSD has 100+ staff members in 3 offices in Mumbai, Chennai, and Coimbatore.

Next Steps

Our partnerships in India and around the world make the drug development process clearer, faster, and simpler. To find out more, contact Customer Strategy Lead Rich Davis (DavisRich@prahs.com) or Manager of Clinical Operations Sanjay Sogali (SogaliSanjay@prahs.com).

PRA in India

In a saturated marketplace, it is important to engage a partner that can access untapped talent pools and foster long-term talent engagement. Our expert Talent Acquisition team operates across the Asia Pacific region and focuses on India and beyond, working with you to determine locations, tailor job descriptions, and ensure efficient candidate onboarding.

Working alongside the local resource manager and client strategy team, we can help achieve your goals.

SSD has a number of successful partnerships in India; we have provided 80+ Embedded Solutions™ resources for 5+ years.

Client 1 – partnership with Top 10 Pharma for 5+ years, providing 75+ resources in global central monitoring, data management, and site payments/contracts.

Client 2 – partnership for 6+ years, providing 10+ resources in global clinical operations and site payments/contracts.

Client 3 – partnership for 4+ years, providing a site liaison manager.
