

## Join a Board • Recruit Board Members Find Governance Resources

### Introducing charitySTRONG!

charitySTRONG is connecting talented professionals from a wide variety of backgrounds and fields with nonprofit board opportunities in Western New York.

We have two, **free**, online programs, onBOARD and Directors U. onBOARD matches individuals who are interested in board service with charitable organizations that are seeking board members. Directors U includes governance training courses and resources on board development, operations, legal requirements and many other topics. charitySTRONG is open to all State registered public charities and encourages participation by individuals who have never served on a nonprofit board as well as experienced board members looking for new opportunities to help their communities.

### Why It's Important

Board service enables individuals to give back to their communities, develop leadership skills and expand their social and professional networks. Nonprofit organizations benefit from diverse and engaged board members who possess governance expertise. By advancing effective governance, charitySTRONG's programs will help organizations deliver services that make a measurable change in the quality of life for communities they serve.

### How to Join Us
