Features:

Suitable for:	Education Hospitality Leisure Retail Commercial Healthcare
Guarantee:	Supplied with a 1 year guarantee against faulty materials and workmanship subject to adherence to the maintenance schedule
Maintenance:	Requires only periodic cleaning, please follow the maintenance schedule
Retro-fitting Available:	Yes, we can install the roller shutters after your Able Canopies canopy installation
Availability:	Only available as an upgrade with our canopies, we can not supply our secure roller shutters as a stand alone product. Please note: The secure roller shutters will be installed 5-6 weeks after the canopy installation (depending on supplier lead times) because they are made to suit the finished canopy openings
Electrical Installation:	Any electrical works for the shutters must be completed by an electrical contractor before the shutter installation. Details can be supplied upon order.

Specifications:

Construction Material:	Choose from galvanised steel or aluminium with a solid, perforated or punched finish
UV Protection:	The solid roller shutters offer 100% protection when the shutters are closed
Light Transmission:	N/A
Strength:	The security shutters guarantee a high level of security against vandalism and theft
Colour Options:	Can be powder coated to any RAL Colour
Operation:	Shutters over smaller openings are typically powered by a 240-volt single phase tubular motor whereas larger shutters are operated using a 400-volt 3 phase geared motor. Adjustable limit switches are incorporated to stop the shutter at the end of each travel. A wide range of controls are available

International Standards:

Security & Fire Ratings:	All of our security shutters guarantee a high level of security against vandalism and theft. However, for an extra charge you can have one of our shutters with a distinct security or fire rating accreditation including SBD (Secured by Design) or LPS 1175 security rated levels 1-4.
CE Marked:	Yes to BS EN 1634-1 test, BS 476-22

Colour Options:

The secure roller shutters can be powder coated to any RAL Colour to match your canopy or create a contrasting effect.
