Our Services

Accreditation

ProjectConcert simplifies accreditation by providing institutions with essential tools, expert support, and services like consulting, assessment design, and portfolio resource rooms.

Data/System Integration

Eliminate data entry with our Integration Service. Our experts offer seamless solutions for streamlined operations. From single sign-on to registrar connections and more.

Support & Training

We understand that using new software can be challenging, which is why we offer comprehensive Support & Training services.

Database Management

The ProjectConcert team provides comprehensive data services to clients who need assistance with managing large sets of information.

Implementation

With our implementation service, you can rest assured that your transition to ProjectConcert will be seamless and worry-free.
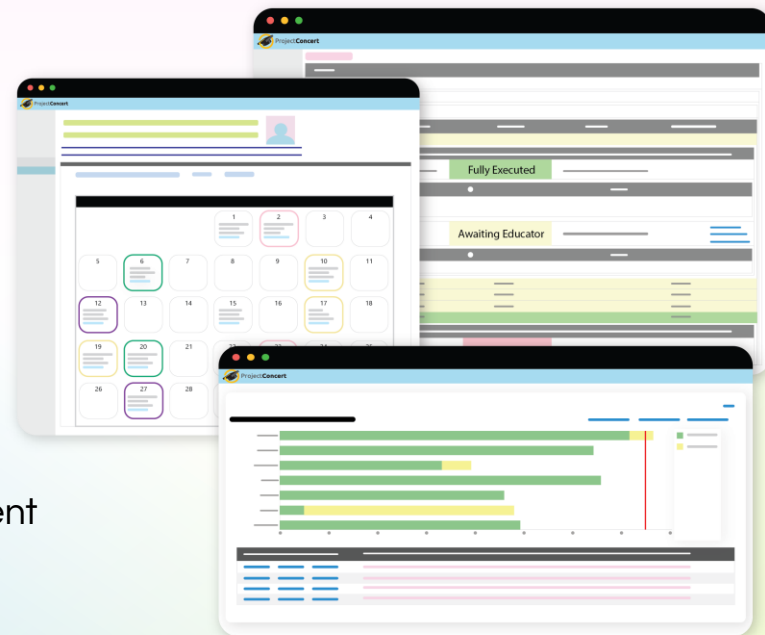

HIPAA & FERPA Compliant

Ensuring the safety and security of institutional data is our foremost concern.

Experiential Learning Suite

ProjectConcert's solution is a comprehensive, experiential documentation tool designed to manage and streamline processes for experiential learning experiences in educational and healthcare institutions. It encompasses a variety of customizable features to guarantee the efficient planning, tracking, and evaluation of experiential learning activities while ensuring alignment with the institution's accreditation guidelines and competencies.

- Competency Performance Dashboard
- Student Management
- Location Management
- Agreement Management
- Evaluations & Surveys
- Placement
- Scheduling Management

- Outside Educator Management
- Experiential Learning
- Faculty Management
- Standards & Competencies Library
- Alumni Management

Competency Performance Dashboard

Illustrates in real time how students, courses, cohorts, and programs are advancing in specific competencies/standards. All analyses are generated from data meticulously collected from ProjectConcert, LMS, exams, rubrics, and other third-party vendors.

Key features:

- Map Competencies to:
  - Evaluations, Surveys, Rubrics, Assessments, and etc.
  - Procedures and Skills
- Real-Time Review Access:
  - Student, Faculty, Program Directors, Site Visitors and etc.
- Real Time Reporting:
  - Achieved Competency
    - Bar Graph
    - Achievement List
  - Rated Competency
    - Radar Chart
    - Line Graph
  - Longitudinal Graphs
    - Filter by specific Competency, Students, Course, Cohort and Program

Student Management Module

This module is a versatile tool for overseeing and managing student information, academic progress, and compliance in educational institutions.

Key features:

- Self-Service Portal for Students to Self-Report and Retrieve Data and Important Information
- Organize by Program, Entry Term, Cohort, Custom Details, and more
- Viewing of Placements, Student Schedule, total Program Hours and Evaluations
- Efficient Email Communication
- Unlimited Customized Data Elements (Demographics, HRSA, Advising notes, etc.)
- Compliance Requirement Tracking
- Document Storage
- Pair Students to their Advisor
- Course Enrollment
- Program Completion Rate
- Accreditation Data Collection and Reporting aligned to Standards
- Alumni Access
- Reporting and Analytics

ProjectConcert

Location Module

This module is designed to efficiently oversee and manage educational, clinical, or experiential locations.

Key features:

- Self-Service Portal for Faculty and Students to retrieve Data and Important Information
- Organize by Program, Specialty, Geographical Location, and more
- Efficient Email Communication
- Ability to track at the Location Unit Level
- Unlimited Customized Data Elements (Type of location, site requirements, etc.)
- Compliance Requirement Tracking
- Document Storage
- Viewing of all current and historical Placements, Student Schedule and Evaluations at each Location
- Align Preceptors/Outsider Educators and Faculty to Location Units
- Automatic Notifications to alert of expiring Documents
- Reporting and Analytics

Agreements Module

This module is a versatile tool for efficiently tracking a wide range of agreements, including preceptor/outsider educator agreements, MOUs, affiliation agreements, and more.

Key features:

- Unlimited Customized Data Elements
- Unlimited Document Types
- Automatic Notifications
- Align a Legal Agreement to Multiple Locations, Preceptors, Students, Program or Faculty
- Customized Color Status Tracking
- Aligns to Placement Module for easy viewing
- Unlimited Agreements
- Contact Information
- Custom Agreement Types
- Multiple Renewal Types
- Aligns with Hours completed via Student Hours entries
- Reporting and Analytics

Evaluations & Surveys Module

This powerful module streamlines the collection and analysis of evaluations, surveys, and forms—supporting a broad range of academic and administrative needs. Designed to enhance flexibility and insight, it empowers institutions with the tools needed to assess performance, track progress, and support continuous improvement.

Key features:

- Unlimited Customizable Evaluations, Surveys and Electronic Forms
- Supports Complex Evaluation Workflow: Concurrent Evaluations on the same Evaluatee and multiple Subsequent Reviews or Acknowledgments
- Diverse User Participation: Any Evaluator and Evaluatee Type
- Customized Notifications and Alerts and accessible in Course Dashboard
- Data Indexed by Program, Term, Course, Section, and more
- Collect Data to be Leveraged for Indirect Measures and Institutional Effectiveness
- Access and Download Real Time Analytics on current and historical Data via an array of Reports
- Create Reports that Aggregate Data over multiple Years and Terms
- Program Longitudinal Competency Reporting
- Competency Radar Reporting
- Student Longitudinal Competency Reporting

Placement Module

This module offers a centralized, flexible solution for managing placements across academic programs. Designed to reduce administrative burden while ensuring transparency and accountability, it supports seamless coordination among students, faculty, and outside educator.

Key features:

- Custom Data Fields (Workflow notations, CRN, etc.)
- Flexible Status Color Tracking
- Accessible in Course Dashboard
- Document Storage
- Multiple Students, Faculty, Outside Educator and Location options per Placement
- Automated Alerts via changing a Placement Status
- Automated Customizable Email Communication with embedded Documents
- Workload Simplification
- Share Placement Information with Faculty, Students, and Outside Educators
- Catalogs Outside Educator, Clinical Faculty, Location, and Agreements with the Placement
- Drives Evaluations, Journals and Hours, and Scheduling
- Current and historical Record keeping
- Reporting and Analytics

Scheduling Management Module

This module is designed to manage and organize schedules for faculty, students and various academic activities.

Key features:

- Customize Schedules
- Track Absences which triggers Alerts and Processes
- Robust Editing Tools
- Accessible in Course Dashboard
- Faculty and Students are able to maintain their own Schedules
- Schedules can be created automatically by the System or added manually
- Detailed Scheduling – includes Section, Course, Faculty, Site, Outside Educators, Student information
- Real-time updates to Schedules for Students, Faculty, Outside Educators and more
- Viewable and exportable Schedule in Calendar or Tabular Format
- Historical data for Accreditation
- Reporting and Analytics

Outside Educator Management Module

This module is designed to efficiently manage and oversee outside educators, ensuring a seamless educational experience for students in clinical or experiential learning settings.

Key features:

- Self-Service Portal for Outsider Educators to Self-Report
- Viewing of Placements, Student/Outside Educator Schedule, Hours and Evaluations
- Embedded Evaluation and Approve Hours via Email link
- Self-Service Portal for Faculty and Students to retrieve data and important Information
- Efficient Email Communication
- Organize by Program, Specialty, Geographical Location, and more
- Unlimited customized data elements (Demographics, Licensure, Work Experience, etc.)
- Compliance Requirement Tracking
- Document Storage
- Align Outside Educators to Location Units
- Customized Hours Certificates
- Accreditation data collection
- Align Outside Educators to an Agreement
- Reporting and Analytics

![ProjectConcert logo]

Experiential Learning Module

This module is a comprehensive solution for managing experiential learning activities, tracking clinical hours, and supporting data-driven insights for accreditation and program improvement.

Key features:

- Unlimited customizable Journals, Notes, and Hours Formats
- Customizable Hours and Experiences by Concentration or Specialty Area
- Procedure and Diagnosis Tracking
- Accessible in Course Dashboard
- Coding Included: ICD-10-CM codes and HCPCS codes
- CPT codes and DSM-5 codes are available for additional costs
- Aligns to Evaluations
- Submission of Documents
- Automated Email Reminders and Alerts
- Map Experiences to Competencies and view Individual and Program-level progress
- Data indexed by Program, Term, Course, Section, and more
- Program and Accreditation Requirements Reporting
- Automated Preceptor Verification Certificate

Faculty Management Module

This module allows institutions to efficiently manage faculty records, assignments, and compliance.

Key features:

- Portal for Faculty to Self-Report and retrieve data
- Organize by Program, Specialty, Geographical Location, and more
- Viewing of Placements, Student Schedule, and Evaluations
- Efficient Email Communication
- Unlimited customized data elements (Awards, Profile, CEUs, etc.)
- Compliance Requirement Tracking
- Document Storage
- Align Adjunct or Faculty to an Agreement
- Track Pre-hire Adjunct or Faculty documentation
- Teaching Assignment Tracking and Course Enrollment
- Reporting and Analytics

Alumni Management Module

This module is designed to effectively manage and engage with alumni. It offers a range of features to maintain a strong connection with graduates and ensure that their data is easily accessible.

Key features:

- Effortless email Alumni communication
- Alumni retain access to their Accounts as long as the Institution maintains an active Agreement
- Alumni have ability to export all data in Excel, PDF or Zip File
- Evaluations and Surveys
- Alumni Account Access to Self-Report Data
- Collect current Employment status and Career milestones
- All historical data retained
- Collect Accreditation data
- Reporting and Analytics

Standards & Competency Library

This module houses and aligns to National, Regional, and State standards and guidelines from accrediting bodies as well as program, course and institutional outcomes and objectives.

Key features:

- Unlimited Number of Standards and Competency Groups
- Library aligns to:
  - Proprietary Indirect Measures: Exit, Alumni and Employer Surveys
  - Proprietary Simulation Assessments: Aligned to the SSH and INACSL Standards
  - Institutional Surveys
  - Experiential Learning to customize Details, Procedures or Diagnosis
- Store Documents at the Standard and Competency Level
- Reporting and Analytics

Other Module Options

ProjectConcert

Advising and Plans of Study Module

This module is a dynamic and adaptable tool that empowers institutions to effectively create, manage, and monitor individualized academic plans for their students.

Key features:

- Unlimited Plan of Study Templates
- Monitor and Document Student progress with Individualized Plans of Study
- Document Advising Notes
- Accessible in Student Management Module
- Embedded Process to alert Student of POS updates
- Comparing with actual Course Enrollment with Grade Performance
- Notify Students and Document their Acknowledgement of their Plan of Study
- Comprehensive Forecasting and Management Reports
    - Enrollment Reporting
    - Clinical Placements
    - Faculty Assignment
    - Resource Allocation
    - and more

Student Portfolio Module

This module is designed to help educational institutions and students create and manage digital portfolios. These portfolios serve as a comprehensive record of a student's academic and extracurricular achievements, facilitating personal and academic growth.

Key features:

- Unlimited customizable Portfolio types
- Document Academic Progress
- Accessible in Course Dashboard
- Align to Accreditation Standards
- Align Evaluations
- Access for Faculty, Advisors and Program Directors in Portfolio Dashboard
- Email Invitation for future Employers
- Exportable to Zip File
- Reporting and Analytics
