# Reviews of A Place for Mom

**Jill S** – *Daughter of resident*

## **Excellent information and guidance**

Connie, my Senior Living Advisor with A Place for Mom, provided excellent information and guidance in selecting a range of facilities to visit. Connie helped us navigate the available options, schedule visits in a tight time frame, and gave us confidence that we were moving in the appropriate direction during this very stressful time. There was a degree of urgency in getting dad placed where he would be safe and well cared for. Connie, as well as the staff at the facility we selected, were instrumental in getting dad safely moved in within a week.

We are so grateful for the knowledge, compassion and experience that Connie provided. She reached out to us immediately and assured us that she was available to support us and answer any questions. A Place for Mom provides an invaluable service for families who need assistance navigating a complex system during an emotional time.

## **Truly is an amazing service**

Before calling A Place for Mom, I thought, "how are they possibly going to know my tiny little area"? But, I put in my information, and right away this lovely woman – Nicole – called me. I came out completely indebted to A Place for Mom and Nicole because without her, I probably would have given up.

Two months later, we relocated my mother to her new home. It's been a wonderful place for her because the staff is amazing and the residents are great. A Place for Mom is so tailored, and their advisors are knowledgeable and have worked in the area. That's really what made the whole experience so perfect for me. Now, I have friends whose parents are in the same situation. I tell them that they have to call A Place for Mom because it truly is an amazing service.

**Jim and Libby M** – *Loved ones of resident*

## **Incredibly helpful and patient**

We contacted A Place For Mom in hopes of finding resources so we could start the process of identifying the right memory care facility for our loved one with Dementia. We cared for him, just the two of us, but it became too much and we hired an in-home caregiver. That worked for a while, but it was obvious that he needed more care. That's where Michele from A Place For Mom came into our lives.

We can't say enough how incredibly helpful and patient she was. We really had no idea how to navigate all that is necessary to find the right facility. We learned about different resources that were at our disposal and Michele called me every month for a year to see where we were at. We are happy to say we placed our friend in a lovely memory care facility.
