

We Build Your Vision

Delivering Custom LED Displays for
Complex Brand Experiences

George Pappas, CEO, i5LED

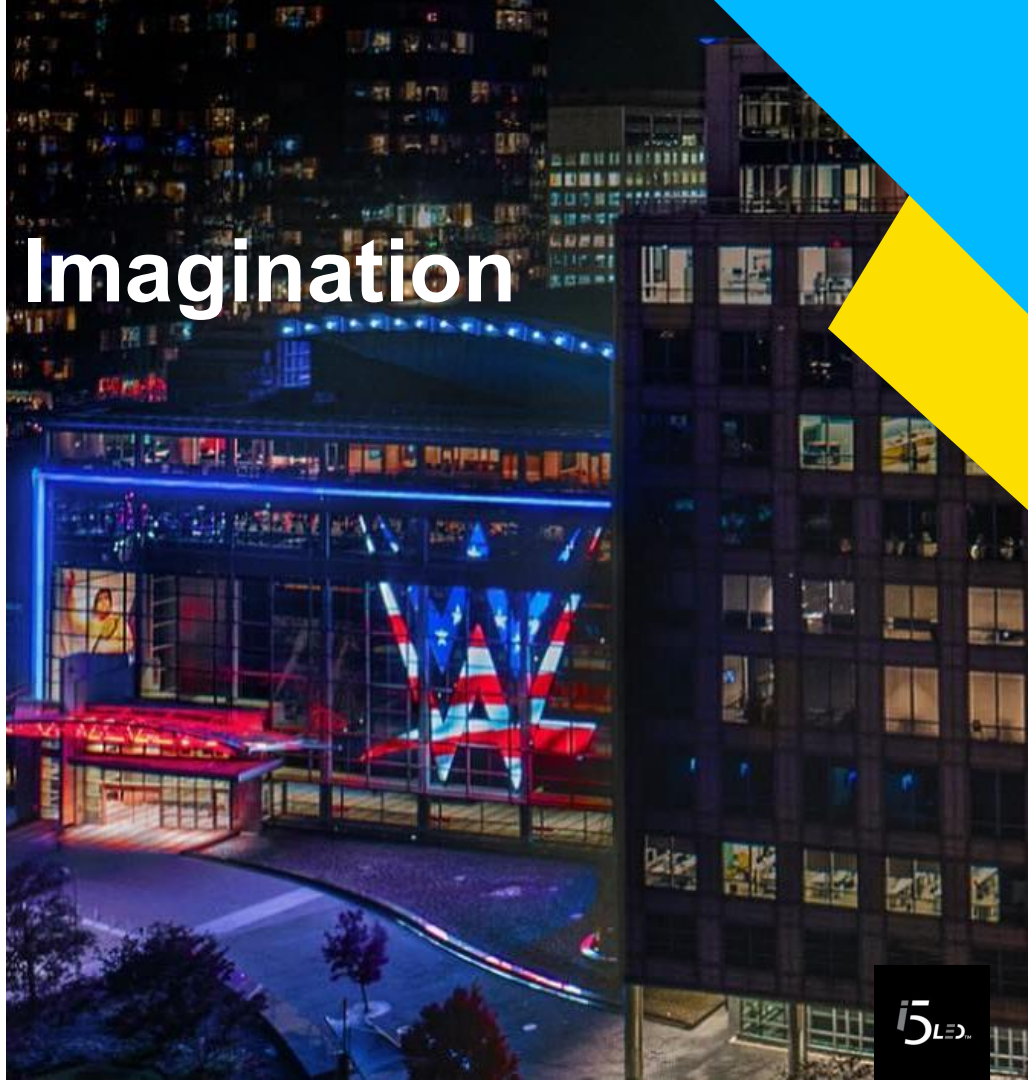

Every **great display** begins with an **idea** — a **vision** of how technology can shape a space.

Realized through **engineering, collaboration, and reliability.**

Engineering Meets Imagination

- 25+ years of LED innovation & custom engineering
- Trusted by major brands
- U.S.- based service, global manufacturing, and proven reliability.
- Engineering turns ideas into architecture

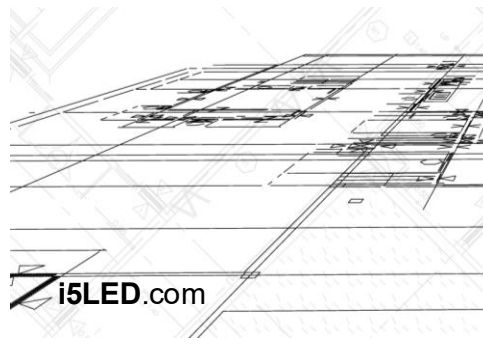

i5LED™

Partnership as Process

- Starts with intent, not product
- Engineers, architects & and AV teams align early
- Displays adapt to the environment

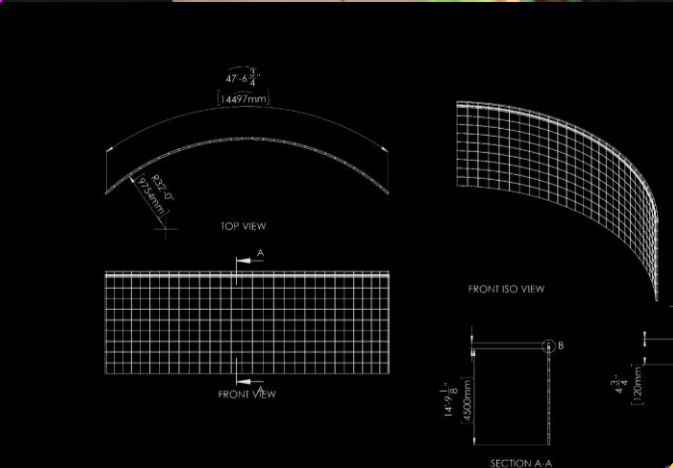

i5LED.com

i5LED™

Engineered for the Project

- Each site = unique demands
- Design solves for structure, airflow, visibility, service
- Best tech for project conditions

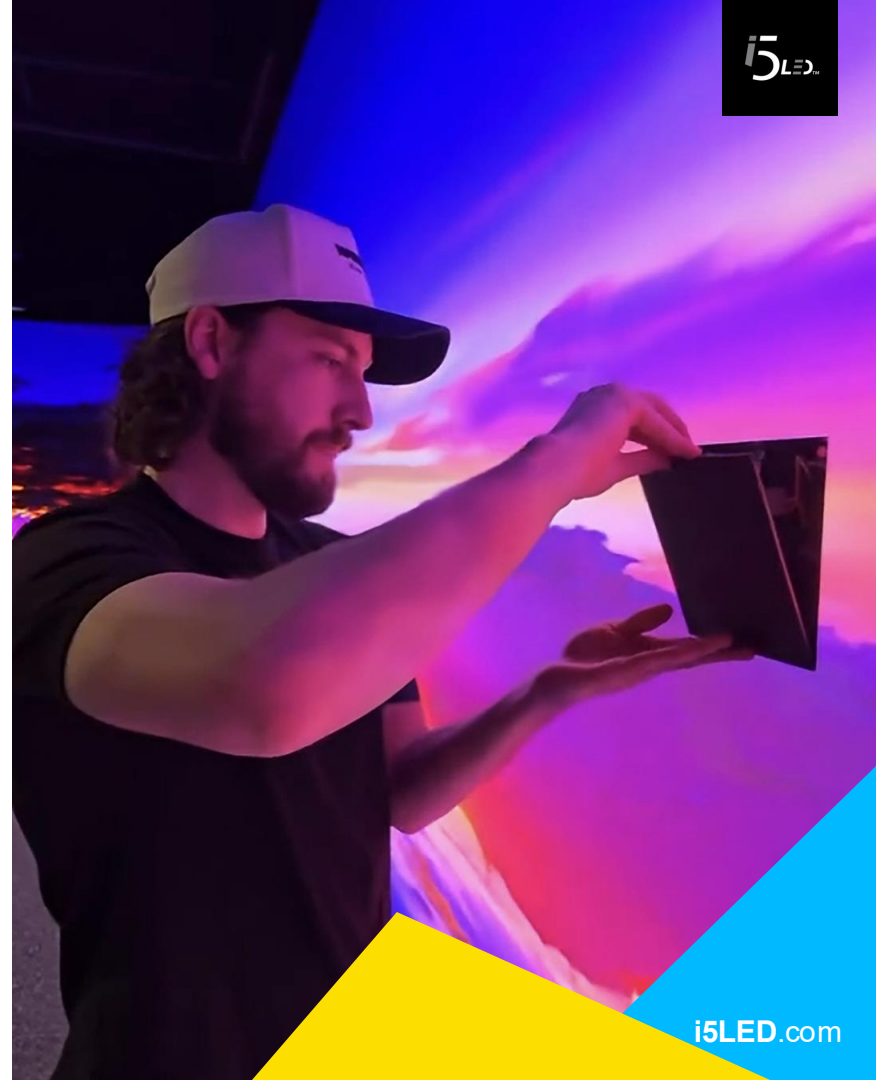

Collaborative Process

- Cross-discipline reviews
- Prototyping new solutions
- Precision fabrication

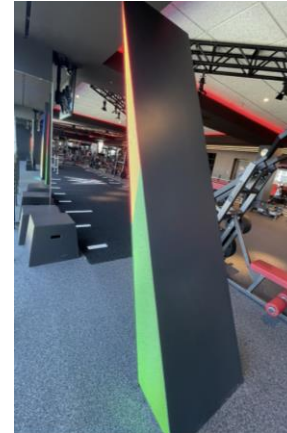

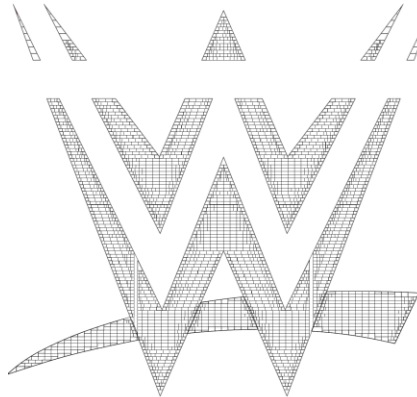

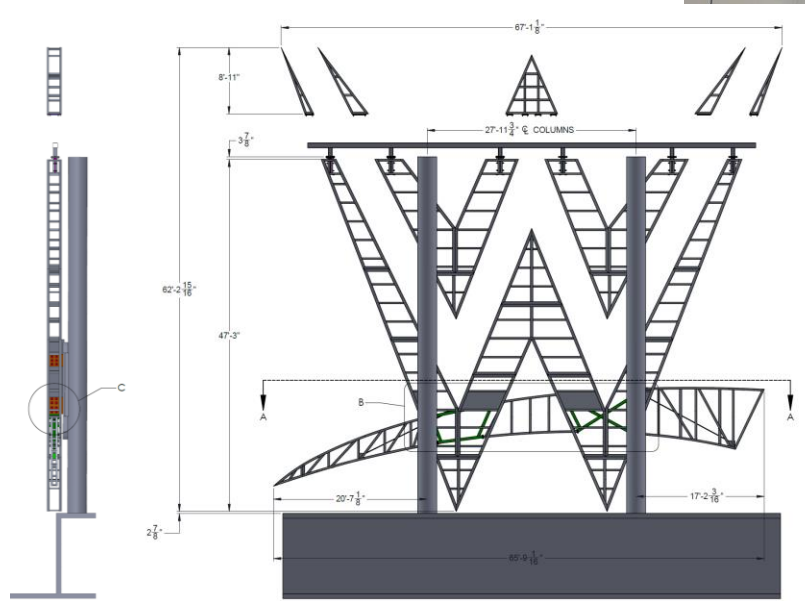

Reliability by Design

- Reliability engineered, not added
- Access & redundancy built in
- Environmental testing ensures longevity
- SLAs, warranty options

Case Study WWE HQ

- 67 ft × 62 ft custom display logo geometry
- 27 structural frames | 5.5 million diode
- 3,070 LED panels in 192 unique shapes

Case Study WWE HQ

- Designed for full-sun exposure
- Installed to millimeter accuracy
- Integrated with building façade

We Build Your Vision

- Engineering that respects creative ambition
- Collaboration that delivers predictable results
- Service & support that sustain performance

Thank You
George Pappas
