REVISIONS

Version 5:

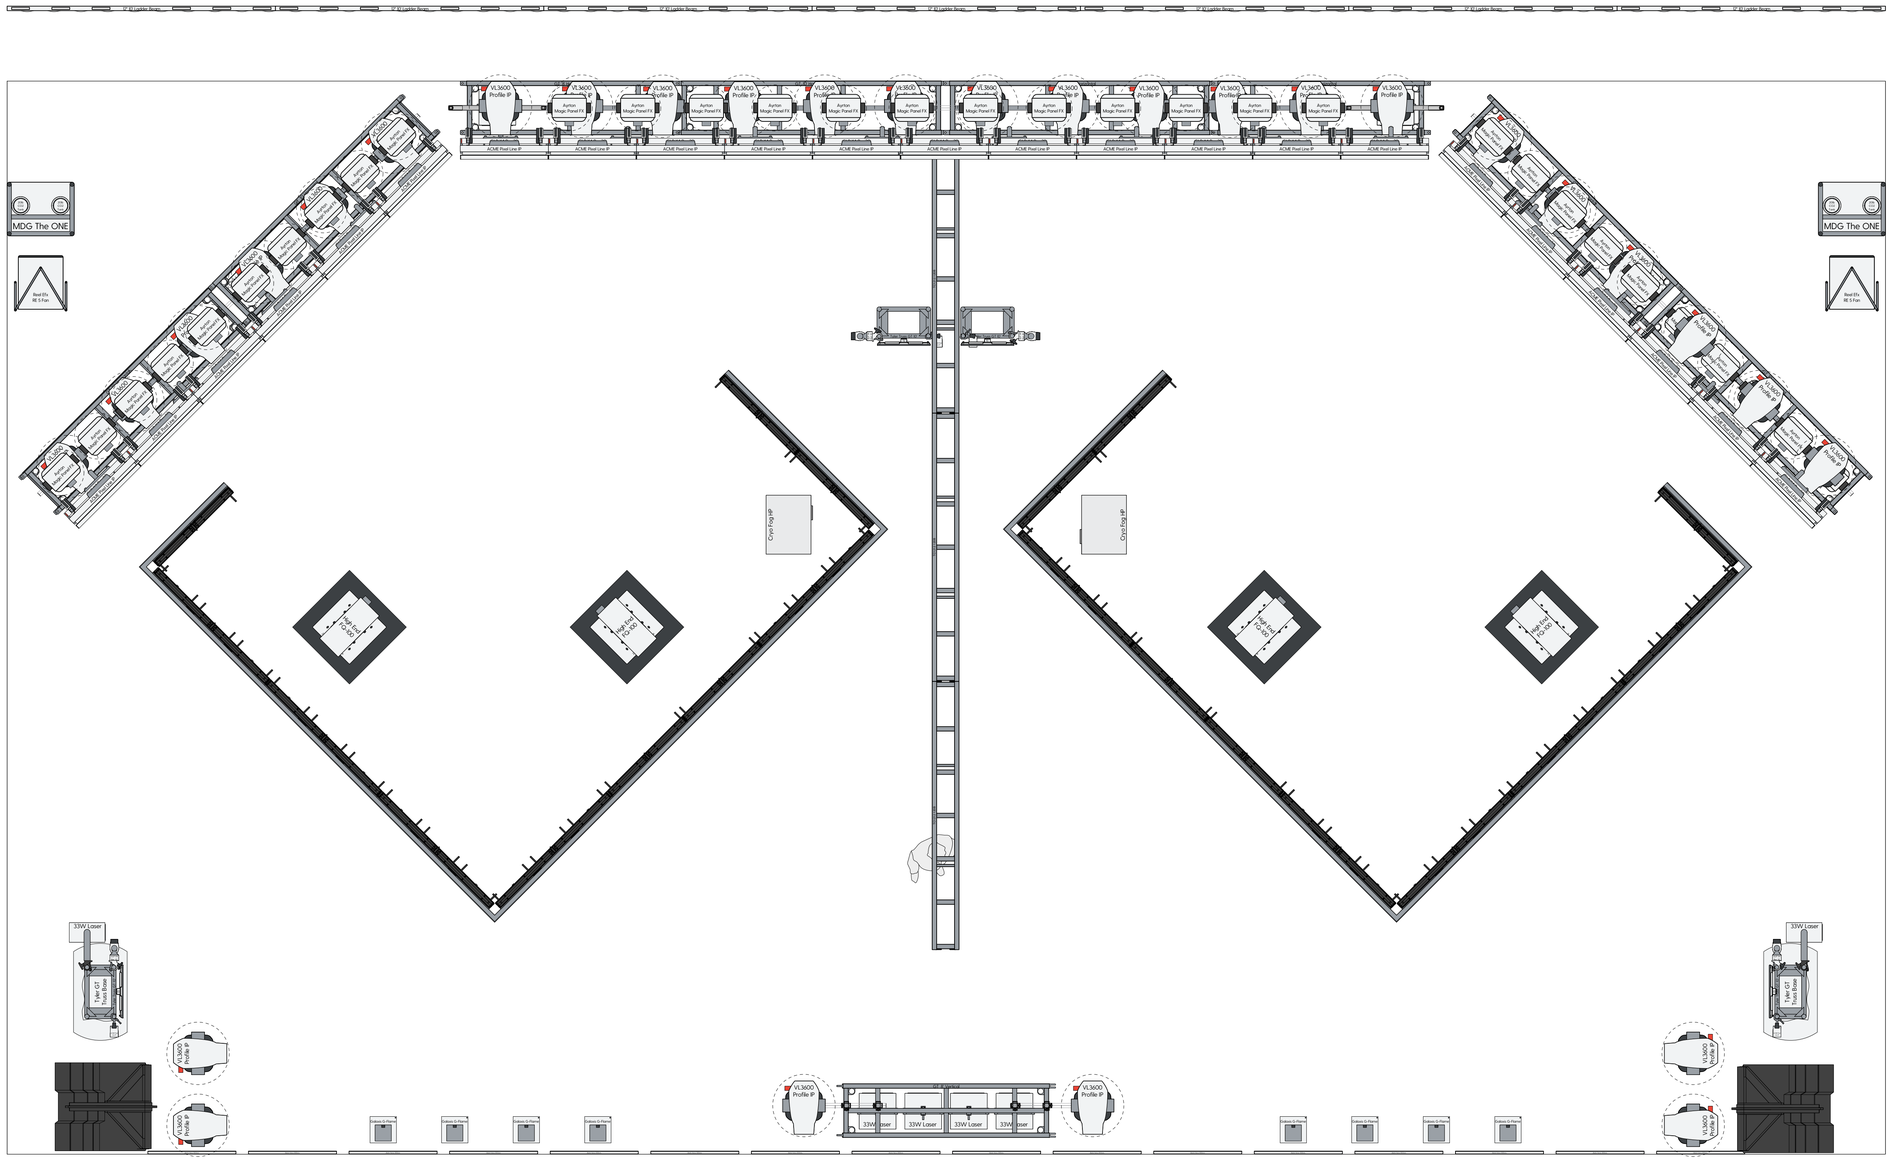

- Cut US Inverted Flame Units
- Cut Upper Cube Lower Video
- Cut Upper Cube Upper Video
- Added Upper Cube Lower Scenic
- Updated LX and Fixture Modes to Vendor Spec
- Updated Video to Vendor Spec

Version 6:

- Cut Scenic Decking
- Cut Lower Cube
- Removed Lower Cube Related SFX
- Added Scenic Cube Tops
- Added Cube Support Truss
- Added Laser Torms
- Moved Some LX Fixtures

CONCEPT ONLY

***BT26 — House Followspot Gel Spec** (5-frame boom incl. diffusion)
*Tied to the show palette, dark hues. Lee / Rosco both listed — spec whichever the vendor stocks.
1. *Diffusion* — Lee 253 Hampshire Frost / Rosco 119 Light Hamburg Frost
2. *Ember* — Lee 158 Deep Orange / Rosco 25 Orange Red (burnt orange-red, fire looks)
3. *Alert* — Lee 027 Medium Red / Rosco 27 Medium Red (deep red, accents + silhouettes)
4. *Azure* — Lee 119 Dark Blue / Rosco 83 Medium Blue (rich night blue, workhorse)
5. *Ultraviolet* — Lee 181 Congo Blue / Rosco 382 Congo Blue (dark violet-blue, also covers Cosmic)

Notes for the advance:
- Prefer Rosco Supergel on frames 2/3/5 — deep saturates fade fastest in xenon spots
- Carry 3–4 spare cuts per color per spot-
Confirm house boom can stack frames (frost + color)
— some are self-cancelling-
Good stacks: 2+3 = deeper Alert, 4+5 = near-Cosmic. Avoid 2+5 (goes black)
