

Line-of-Sight and Height Rules

LINEAR BOOTHS

In-Line booths have only one side exposed to an aisle and are generally arranged in a series along a straight line.

Corner booths are exposed to two sides, the front or either side of the booth depending on the alignment. On the opened side, there will not be any side drape.

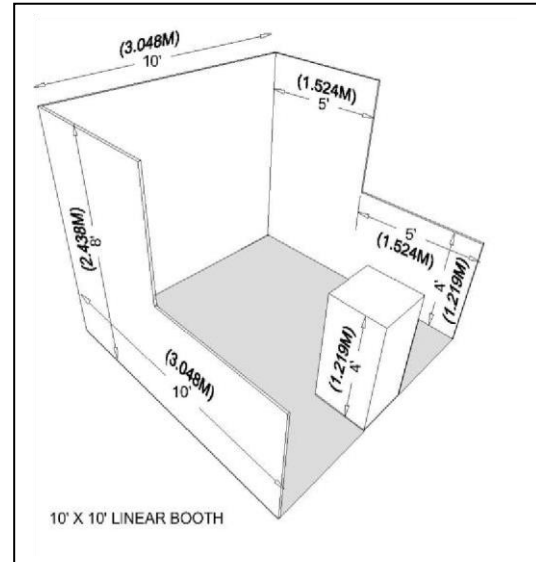

****NOTE:** the above image displays the line-of-sight rules. Your booth space will have an 8ft high by 10ft wide back drape and a 3ft high side drape, separating neighboring booths.

Dimensions: In-line booths are a minimum of 10ft wide (3.05m) and 10ft deep (3.05m) i.e. 10ft x 10ft (3.05m x 3.05m). The maximum back wall height limitation is 8ft high (2.44m).

Use of Space: Regardless of the number of In-line booths utilized, e.g. 10ft x 20ft (3.05m x 6.10m), 10ft x 30ft (3.05m X 9.14m), etc. display materials should be arranged so as not to obstruct the sight lines of neighboring exhibitors. The maximum height of 8ft (2.44m) is only allowed in the rear half of the booth with a 4ft (1.22m) height restriction imposed on all materials in the remaining space forward to the aisle.

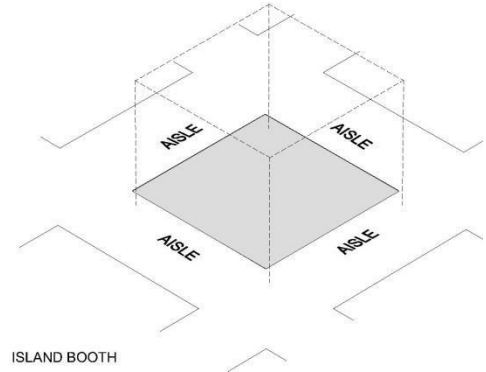

PROHIBITED ITEMS:

- Hanging signs are not permitted over in-line booths.
- Pop-Up Tents/Canopies are prohibited on the show floor.

ISLAND BOOTHS:

An Island booth is any size booth exposed to aisles on all 4 sides.

Dimensions:

An Island Booth is typically 20'X20' or larger although it may be configured differently. **The maximum height limitation is 20' with the exception of solid wall structures, which have a 16' height limit** (please see the “Freestanding or support walls” section below for more detailed information on solid wall structures).

Freestanding or support walls which are solid structures (i.e., you cannot clearly see through them to your neighboring exhibit) may be placed in island booths but may **not** be higher than 16' tall. These restrictions are intended to provide a clear view of the neighboring exhibits. The placement of high equipment must also conform to these rules. These rules will be STRICTLY enforced. Any solid wall structure not approved by show management 30 days in advance of the show may be deemed a violation and may be removed on site at the exhibitors' expense. For Show Management approval, please submit your booth design to **Paula Mishler**, pmishler@questex.com or through the Booth Approval form located on the Exhibitor Resources page of the show website.

Hanging signs:

Hanging Signs are permitted to be hung over Island or Peninsula booths that are 400 sq. ft or larger. There are no restrictions on how high the sign can be hung although it is recommended that you do not hang your sign more than 20' from the ground as it is out of the line of sight when it is placed too high.
