## FOR IMMEDIATE RELEASE

JCPS students listening to Creighton Jones explaining the use of robotics in manufacturing

### Rev-A-Shelf® Welcomes Jefferson County Public School Students for Hands-On Career Exploration

Louisville, KY – January 23, 2025 – Rev-A-Shelf®, a global leader in innovative home storage and organization solutions, recently hosted a group of Jefferson County Public Schools (JCPS) students at its state-of-the-art manufacturing facility. The tour, part of a partnership with local schools to promote career pathways in trade and manufacturing, offered students an up-close look at the processes and opportunities in this thriving industry.

The visit was designed to introduce students to the exciting possibilities in advanced manufacturing and skilled trades. Participants observed Rev-A-Shelf®'s cutting-edge production lines, engaged with experienced team members, and learned about the company's commitment to quality, sustainability, and innovation.

"Rev-A-Shelf® is passionate about inspiring the next generation of skilled professionals," said Creighton Jones, Vice President of Operations.

The tour included interactive demonstrations of the company's design, engineering, and production workflows, showcasing how Rev-A-Shelf® transforms raw materials into high-quality products that improve the functionality of homes around the world. Students also had the chance to explore career paths in engineering, logistics, and operations within the growing field of advanced manufacturing.

"Our goal is to show students that careers in trade and manufacturing are not only viable but also highly rewarding," Jones continued. "The skills they develop in these fields can lead to stable, high-paying jobs with significant growth potential."

Rev-A-Shelf®'s partnership with JCPS, particularly with Jeffersontown High School and Fern Creek High School, aligns with its mission to invest in the local community and support educational initiatives that prepare students for the future workforce. By exposing students to real-world applications of trade and technical skills, the company hopes to inspire them to consider careers that play a vital role in shaping the economy.

"We're thrilled to partner with JCPS to create these meaningful experiences," said Ryan Jones, Corporate Operations of Jones Plastic & Engineering. "It's a win-win for both the students and the community."

Rev-A-Shelf® remains committed to fostering education and career development through initiatives like facility tours, internships, and apprenticeship programs.

#### About Rev-A-Shelf® LLC.

Established in 1984 as a division of the family-owned Jones Plastic & Engineering, Rev-A-Shelf® LLC initially specialized in crafting metal and polymer Lazy Susan components for prominent U.S. cabinet manufacturers, distributors, fabricators, and retailers. Over time, it has transformed into the market leader, offering innovative residential cabinet storage solutions, high-quality wood components, and cutting-edge L.E.D. cabinet lighting.

Located in Louisville, KY., Rev-A-Shelf® is renowned for manufacturing thousands of innovative kitchen, bath, and closet accessories. Its reputation for superior craftsmanship extends to a diverse range of products produced under its Omega National Products by Rev-A-Shelf® subsidiary, including decorative molding, range hoods, and floating shelves. Additionally, Rev-A-Shelf® offers a comprehensive selection of L.E.D. lighting options for residential cabinetry and commercial display fixtures under the Tresco Lighting® brand.

Rev-A-Shelf® caters to primary markets, serving cabinet hardware distributors, major O.E.M. cabinet manufacturers, leading big box retailers, and a wide array of online web resellers.
