

Official WinMx support ceased in 2005.

This **WinMX Community Patch** is brought to you for free by WinMX users.

Rock On WinMx

|   |                            |  |
|---|----------------------------|--|
| Full Setup Files:<br>(WinMX + Community Patch 1.0)  | WinMX 3.54b4<br>WinMX 3.53 | MD5:<br>D25121C3BB19568B1CBD94920E43872B<br>MD5:<br>5E4ADE40C3237EC94578D752FF2E0C16 |
| These Installers are the default choice to install WinMx or upgrade/patch existing installations.<br>In rare cases the patch might not work correctly with RCMS, see <a href="#">here</a> |                            |  |

|  |            |  |
|--|------------|--|
| Library Only / No Setup:   | oledlg.dll | MD5:<br>F29A35A26922E182B14E0F32C2DD8C74 |
| For experienced users on Linux and Windows. Put this into your WinMX folder.<br>Needs DLL override to work under WINE on Linux, see <a href="#">here</a> |            |  |

|   |            |  |
|---|------------|--|
| Library for Third Party Applications:   | ws2_32.dll | MD5:<br>6A3B6B36E8C90F74DFE6C82C0878EA24 |
| For FX Server, Bots and other Third Party Software that needs to be connected.<br>Simply place this file in the folder with the *.exe file and restart. |            |  |
