Dear Soulseek user,

In the past few years, we have been experiencing mounting difficulties meeting the financial demands of our server operation and legal costs. We believe it is imperative to the integrity and atmosphere of the Soulseek experience not to expose our users to advertising or bundled software, and so we rely on your kindness to keep us alive. If you find Soulseek useful, please consider supporting the Soulseek service by making a donation using the Paypal button in your Soulseek client's web tab.

Thanks, the operators of Soulseek

There appear to be many reports of a DLL installed along with the Advanced Systemcare program interfering with the operation of the Soulseek client and its ability to connect to the server. As far as we know, [LSP-Fix](#) should be able to fix the problem.

**Soulseek®** is a unique ad-free, spyware free, and just plain free file sharing application.

One of the things that makes **Soulseek®** unique is our community and community-related features. Based on peer-to-peer technology, virtual rooms allow you to meet people with the same interests, share information, and chat freely using real-time messages in public or private.

**Soulseek®**, with its built-in people matching system, is a great way to make new friends and expand your mind!

**Soulseek®** does not endorse nor condone the sharing of copyrighted materials. You should only share and download files which you are legally allowed to or have otherwise received permission to share. By using this network you agree to this and the other rules which are linked to from this page. The intention

of **Soulseek®** is to help unsigned and/or independent artists find a place in the ever-growing music industry, in a place where discussion and the creation of music can take place. Use of this network for illegal or infringing purposes is not permitted. Please share responsibly and help make **Soulseek®** a place where all artists can find a common ground.

**Donations Note:** The donation option was removed from this page to avoid very common and incredibly time consuming username input mistakes (which are used for activating privileges). To donate, please use the web pane in the Soulseek client to ensure that your correct username is used.

*If you are using a third party client for linux, etc. which does not support donating from within the client you may do so [here](#).*

## SLSK Records

SLSK Records is a new showcase for the the music talent expressed by the thousands of unsigned artists who populate the Soulseek network .

Through net, free mp3, and retail releases, we are attempting to present a new vision of what, how, and where you will be experiencing your music.

### Deep by Saskia

Saskia was discovered on Soulseek, and she is that rare blend of musician, visual artist, and performing artist. Hailing from Barcelona, Spain, Saskia brings emotional sensitivity and dramatic flare to her music. It's music that makes you wanna dance, that makes you think... and may even move you to shed a tear for lost love.

On her debut release entitled "Deep", she collaborates with producers Kilowatts, Joe Troskie, and Ears Akimbo.
