textexpander

TextExpander saves you countless keystrokes with customized abbreviations for your frequently-used text strings and images.

OVERVIEW

New! TextExpander 3 with easier snippet creation, editing and search tools!

Save time and effort with TextExpander! Whether it's a simple email signature or several paragraphs of a standard response, you'll love how easy it is to use TextExpander to avoid typing the same thing over and over.

USE DIFFERENT EMAIL SIGNATURES?

Easily insert a customized signature with a few keystrokes. You can even include a photo or logo!

NEED EASY ACCESS TO BOILERPLATE PARAGRAPHS?

Add them to your snippet library and insert them into your emails and contracts by typing a short abbreviation.

FILLING OUT FORMS?

Make it easy on yourself by adding your address, email, phone and fax numbers to your snippet library.

KEEP MAKING THE SAME TYPOS?

Add common typos as triggers – TextExpander automatically replaces them with the correct spelling! TextExpander also includes the TidBITS AutoCorrect Dictionary. ([more info](#))

WANT TO INSERT HTML AND CSS CODE QUICKLY?

Create abbreviations for commonly-used tags! Or use our built-in HTML and CSS
