Getting Started:

- R is a free software environment for statistical computing and graphics. It compiles and runs on a wide variety of UNIX platforms, Windows and MacOS. To [download R](#), please choose your preferred [CRAN mirror](#).
- If you have questions about R like how to download and install the software, or what the license terms are, please read our [answers to frequently asked questions](#) before you send an email.

News :

- **R version 2.13.2** has been released on 2011-09-30. The source code is first available in this [directory](#), and eventually via all of CRAN. Binaries will arrive in due course (see download instructions above).
- [R 2.14.0 prerelease versions](#) will appear starting October 3. Final release is scheduled for October 31, 2011.
- [The R Journal Vol.3/1](#) is available
- The R Foundation has been awarded [fifteen slots for R projects](#) in the [Google Summer of Code 2011](#).
- [useR! 2011](#), took place at the University of Warwick, Coventry, UK, August 16-18, 2011.
