DESCRIPTION MINIMUM SYSTEM REQUIREMENTS

Ontrack® EasyRecovery™ Lite is a secure and fast tool to recover and repair files. It allows you to scan files, folder and partitions for lost data, select files/folders to recover and copy them to a safe location.

- Recover lost data from**
- Accidentally deleted files
 - Virus infection
 - Application damage or corruption
 - Unaccessible or Unbootable partitions

- Repair ZIP files**
- Virus damage
 - Unreadable sectors due to hard disk or removable media failure
 - Inadvertent application, operating system or computer shutdown
 - random data corruption to critical areas
 - Other events that cause damage to data within a file

EasyRecovery Lite is aimed at home users and it is limited to 25 files recovery per scanning section.

For more advanced recovery capabilities, please check Ontrack® EasyRecovery DataRecovery and Ontrack® EasyRecovery Professional.

To understand the different capabilities of each version, please [read the Ontrack® EasyRecovery product comparison](#)

- Product Features**
- Support for 485 specific file signatures.
 - Emergency Boot Media to recover data from systems that cannot boot to Windows.
 - Ability to select FTP as a copy destination
 - Ability to generate reports.
 - Preset file filter options for quick scan or a full scan.
 - Repair capabilities Zip files.

Quick Undelete option for faster use.
