Don't expect Lion to run it!, September 9, 2011

By [Amazon Geek](#) (Florida, USA) - [See all my reviews](#)

This review is from: **Big Kahuna Reef [Mac Download] (Software Download)**

The program cannot run under Mac OS 10.7 (Lion) because Lion no longer supports Rosetta. Thought there might be a reason it was free!

It is great to see the Amazon Mac Application store. More competition is good for us Mac users!

Needs Rosetta?, June 17, 2011

By [Rie](#) - [See all my reviews](#)

This review is from: **Big Kahuna Reef [Mac Download] (Software Download)**

Price was right, so decided to try it, but then it said it needed Rosetta to run. I'm not going to install Rosetta for just one game! Deleted it right away. I would have thought that Universal Binary was how all games came as these days.

Not lion compatible, September 29, 2011

By [jeeves](#) - [See all my reviews](#)

This review is from: **Big Kahuna Reef [Mac Download] (Software Download)**

Old PPC code makes this software obsolete. It only runs under Rosetta on Intel Macs and now with Lion the software no longer works. Apple made it easy for developers to recompile for Intel processors but this company has done nothing in over 3 years. So this is just unsupported obsolete software.

Big Kahyuna Reef

Have lots of fun playing this game. But each level is the same after you complete all the levels. But I still play it over again every onces in a while.

not compatible

This looks like it would have been a great game if it was compatible with my mac powerbook g4. You need an intel processor.

DON'T BUY FOR OS X!

I bought this to play on my Macbook Pro (OSX Tiger) and it won't work. It would have been nice if that were in the description.

great free game

I wouldn't pay more than a couple bucks for this game, but for free, it's a great game. It is similar to Bejeweled, and there is a fish tank feature after each level where you are...

great

It's a great game for having some fun. The difficulty of the game is OK, which allows the player to enjoy it without thinking too much.

Power PC Only - Will not run under Mac OS 10.7.

It might be a good game, but I'll never know. It is a Power PC application that will not run under Mac OS 10.7 (Lion). At least the price was right. [Read more](#)

Relaxing fun

Having chosen this while just browsing, I wasn't sure what to expect... I was pleasantly surprised! This is a fun, as well as not TOO difficult game with a great extra.

Big Kahuna Reef -- get lost in it

For anyone out there looking for a match-3 game, this has got to be one of my favorites. I don't like the 'bone fish', but love the locked tiles. [Read more](#)

Love the fish! The game is fun too!

The game was a gift from Amazon first of all. It is a puzzle more than anything, where you line up three of the same item to move them off the board to be replaced by others...
