KISS Payroll drops support for TRAMS!

KISS Payroll has notified all users they will be dropping support of TRAMS this year. If you are a TRAMS user looking for a new payroll look no further. Download and try PayWindow Payroll for free. We've been a partner with TRAMS so long we can't even recall how many years it's been. We even have a FAQ that addresses how the TRAMS interface is used to import from PayWindow into TRAMS. [Click here](#) to open that FAQ.

State Payroll Tax Forms On Plain Paper For PayWindow

As you may know, the PayWindow payroll software provides generic reports for all states and you need to move the data to the state forms. Now you can have your state forms printed on plain paper as we partnered with a company that just prints state tax forms. The software they sell will take the data from PayWindow and prepare your quarterly state tax reports. The company is DGR Software at <http://www.dgrsoftware.com/zpay.htm>. When contacting them be sure to tell them that you are interested in the software that supports PayWindow as that is a special version prepared for PayWindow by them.

Save Time Performing Your Payroll

Payroll processing by hand is slow and tedious work. Here is just one example of how to cut your time down to minutes instead of hours with our payroll software.

From the Form 941 Privacy Act and Paperwork Reduction Act Notice, we find the following estimated times needed to complete and file Form 941:

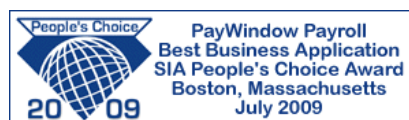

Record keeping	12 hours, 39 minutes
Learning about the law or form	40 minutes
Preparing the form	1 hour, 49 minutes
Copying, assembling, mailing form	16 minutes

In the PayWindow Payroll System, All of the above is automatic. The information is stored each time you perform a payroll. PayWindow prepares and prints the 941 form on plain paper with a few mouse clicks and you are done. So instead of the 15 plus hours the IRS tells us it takes, you only spend a few minutes of your time to print, sign and mail in the form.

Pay your employees by Direct Deposit!

The PayWindow Payroll software can deposit your payroll direct to your employee's bank accounts via an actual ACH NACHA formatted file created after each payroll. No more need for a 3rd party ACH processor. With this new feature, simply perform your payroll, export a true ACH data file and send it to your bank. Contact your bank to see if they have this service and save on printing checks and get the payroll to your employees faster!

PayWindow Payroll System Wins Top Awards!

PayWindow Payroll System has been honored four times by the industry and most recently selected as the People's Choice for Best Business Application in 2009. Click above on the image for more information.

PayWindow an Affordable Replacement for QuickPayroll and QuickPay!

Tired of the expensive annual updates to QuickPay or QuickPayroll from Intuit, the makers of QuickBooks? PayWindow Payroll is an excellent replacement to QuickPay and QuickPayroll. With the extensive reports in the PayWindow payroll system you can save a bundle by using PayWindow to pay your employees and track your payroll expenses and taxes. It's easy, just use PayWindow for payroll and each month make two simple general journal entries into QuickBooks or the old Quicken if you still have never upgraded to QuickBooks. One for total payroll and one for total payroll taxes. Or you can use the data transfer tool to make individual general journal entries for you by using the PayWindow payroll software to QuickBooks data transfer tool. For Quicken users it is really easy. On payday, simply go into the check printing section of the Report Center and use the QIF page to export the payroll data to an Intuit Quicken QIF file that can be imported into Quicken.

PayWindow to QuickBooks data transfer tool. PayWindow users who also use QuickBooks 2002 - 2012 Pro or Premiere can post transactions from PayWindow with a few clicks of the mouse. Go to our download page and download this free utility. Users of QuickBooks from Intuit, formerly Quicken, now have an alternative payroll to use.
