SAKINA Privacy Protector

Sakina Privacy Protector is **free** easy and secure program to clean activity and history traces and securely delete online Internet tracks stored in your browser and in hidden files. Sakina Privacy Protector can delete **cookies**, clean **index.dat files**, clean the **cache**, erase the **recent documents** history, remove **temporary files**, **free hard drive space**, empty file and temp folders, just to protect your privacy and improve your system's performance.

Safe from Sneaking Eyes!

Besides offering a lot of satisfactions, surfing the Internet may cause some unwanted situations or problems. Many times these are strictly related to your online privacy. Your online activity is tracked and information about it is preserved on your computer which means you are exposed to some risks.

Sakina Privacy Protector is an extensive application which wraps up the most important plug-ins, features, and sheer power one may ask from this kind of privacy oriented software. It enables custom cleaning of the most important files stored on your computer.

If you think you already have the solution and you only need to delete your browser cache and history to stay safe and secure, well you are wrong! **All records from your activity on the Web are unsafely kept on your computer!** You can be easily uncovered with regard to your net surfing. In short, whatever information you are searching for or whatever sites you visit on the Internet can be easily found out by virtually anyone using your computer.

Sakina Privacy Protector is a reliable software amazingly fast and effective in removing all your temporary html pages downloaded from Internet, images and url history records.

The program's wide-ranging capability will be appreciated right away as it helps you delete the cache, cookies, history, Windows Traces, typed URLs, run history, search history, recent docs and auto-complete memory from your browsers. Moreover, junk and obsolete files in the Windows temp folder are also dealt with (read: erased) and your default HomePage of your internet browser gets protection against undesirable modification.

Features:

Sakina Privacy Protector is a feature-rich application providing you with the most efficient tools to get rid of all unwanted and hidden files stored on your PC (without you even knowing about them).

Efficacy:

With a wide range including general obsolete files, online tracks, cookies, instant messaging, Sakina Privacy Protector's efficiency in erasing these files is rapidly proven.

Ease of Use:

Sakina Privacy Protector installs with tremendous ease and operates just the same. Its well-designed interface offers separate tabs for various functions and also easy to understand

guiding explanations on each.

NOTE: NO spyware, malware or other kind of malware is associated with this product!

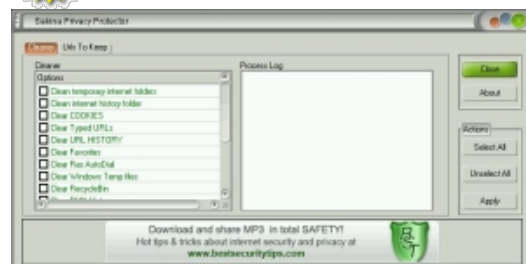

Sakina Privacy Protector uses latest cleaning method to ensure **all traces** of your Internet and computer activities are **permanently deleted** and unrecoverable on your PC. Web browsers only offer partial privacy protection by allowing some temporary Internet files and cookies to be deleted, but they do not wash data out of all the hidden files, nor do they delete the data securely. Sakina Privacy Protector protects your online privacy **for real!**
