### About XP Tweaks Unlocked

XP Tweaks Unlocked is a most useful program for any Microsoft Windows user (whether beginner or advanced) who wants to improve his or her experience while working with Microsoft Windows.

### Why you need it?

XP Tweaks Unlocked offers permanent, instant access to a wide range of Windows settings you will be able to customize to better suit your needs. So forget all about that desperate search for a certain setting through Start Menu, Desktop, Internet Explorer, System Icon or System Security, now with this versatile software you can tweak lots of hidden settings in Windows Vista/2003/XP/2000/Me/98.

This very complex program makes it easier than you would expect to give your Windows XP and Internet Explorer that fine-tuning you have been hoping for. With XP Tweaks Unlocked you get the best solution for tweaking and optimizing your Windows XP system at the same time saving CPU and RAM resources for those tasks you are unlikely to perform.

This access control software allows you to adjust your Windows user interface, including menu speed, window animation, and Microsoft Internet Explorer. The interface the program offers is simple for the sake of easy navigation but still attractive enough to make the experience enjoyable. You have the upper toolbar displaying multiple icons such as General, Services, IE, Windows Media Player, Usability; clicking on any of these icons will prompt the appearance of the sub-choices in the center pane.

*However, make sure that no one will play with this tool, and change your preferential settings!*
