Welcome to Titanium's website!

You will find on this website System utilities for Mac OS X (OnyX, Maintenance, and Deeper).

All applications on this website are Freeware, gratis, and freely usable; you may download, copy, and distribute them at will. You can use them for as long a time as you want. If you have a problem with one of these applications and can't find an answer in the help (menu Help in the application), if you have suggestions to improve them, or if you want more info, don't hesitate to consult the forums or contact me directly by [email](#).

APPLICATIONS

ONYX

OnyX is a multifunction utility for Mac OS X which allows you to verify the Startup Disk and the structure of its System files, to run misc. tasks of system maintenance, to configure some hidden parameters of the Finder, Dock, QuickTime, Safari, Mail, iTunes, Login window, Spotlight, and many of Apple's applications, to delete caches, to remove a certain number of files and folders that may become cumbersome, and more.

MAINTENANCE

Maintenance is a System Maintenance and Cleaning utility for Mac OS X which allows you to run misc. tasks of system maintenance: repair permissions, run periodic scripts, reset Spotlight's Index, rebuild the LaunchServices database, delete Application, Font and System cache, check the status of the hard disk...

DEEPER

Deeper is a personalization utility for Mac OS X which allows you to enable and disable the hidden functions of the Finder, Dock, QuickTime, Safari, iTunes, Login window, Spotlight, and many of Apple's applications...
