How to Upgrade

To upgrade from a Deskzilla 3.0 or newer:

1. Stop Deskzilla if it is running.
2. [Back up your workspace](#).
3. Copy a new version of the application from downloaded disk image over the installed older version.
4. After launching the new version for the first time, wait until background synchronization finishes.

If you are using an older version, use the [instructions to upgrade from Deskzilla 1.x-2.x](#).

To upgrade from Deskzilla Lite to Deskzilla Pro, follow the usual upgrade steps. Make sure you have a license key ready.
