	Quantity	Description
1	12:00h	Web-Design Redesigned mediaatelier.com
2	02:00h	PHP-Programming Made all the scripts work

What you see is what your client gets. While other applications just give you a slight impression of the output they will generate, GrandTotal will always show you how your invoiced item will look on paper or pdf.

Layout Editor

Create invoices and estimates that match your corporate design. The built-in editor makes it easy to adopt your layout.
