Download VinylStudio for Windows V8.3.1

VinylStudio is ShareWare ("try before you buy") and you can download a fully functional free trial copy which will allow you to record upto 5 albums with no time limit. Beyond this, you will need to upgrade to the full version (by purchasing a license key) if you wish to continue using the program. Any recordings you have made with the trial copy will be preserved. Please note that there are some restrictions on saving files in the trial version; this is for our own protection and should not interfere with your ability to evaluate the product.

VinylStudio for Windows has the following hardware and software requirements:

- PC running Microsoft Windows XP, Windows Vista or Windows 7 (including 64 bit)
- 500Mhz Pentium III or faster CPU (800Mhz for Windows Vista and Windows 7)
- 256MB or more RAM (512MB for Windows Vista and Windows 7)
- about 500MB (1/2 GB) disk space per album you plan to record

If you are running [Windows 2000](#), you need to download an additional file. For details, please [click here](#).

Click on the button below to download your trial copy (~3.5MB, about 30 seconds at broadband speeds) and then, when prompted, click **Run** to install the software. On Windows 2000 or XP, you will need to be logged on as an Administrator (or Power User) for the installation to succeed.
