

Download VinylStudio for Macintosh V8.3.1

VinylStudio is ShareWare ("try before you buy") and you can download a fully functional free trial copy which will allow you to record upto 5 albums with no time limit. Beyond this, you will need to upgrade to the full version (by purchasing a license key) if you wish to continue using the program. Any recordings you have made with the trial copy will be preserved. Please note that there are some restrictions on saving files in the trial version; this is for our own protection and should not interfere with your ability to evaluate the product..

VinylStudio for Macintosh has the following hardware and software requirements:

- Power-PC based Power Mac with a 1GHz G4 Processor or better
 - or -
- Any Intel-based Macintosh (Universal binary)
- 512MB or more memory
- OS X 10.4 (Tiger), 10.5 (Leopard), 10.6 (Snow Leopard) or 10.7 (Lion)
- about 500MB (1/2 GB) disk space per album you plan to record

In addition to the features offered by VinylStudio for Windows, VinylStudio for Macintosh can handle all the file formats native to the Macintosh (AIFF, AAC, Apple Lossless and CAF) as well as FLAC, Ogg, WAV and MP3 files. VinylStudio also integrates with the iTunes Music Library.

Click on the button below to download the software (~5MB, about 1 minute at broadband speeds). If you are running Safari, the VinylStudio installer should run automatically. If it does not, open the downloaded DMG file and run the VinylStudio Installer.mpkg program therein.
