iCleanup - iTunes Duplicates Remover

iTunes Cleanup - to delete iTunes duplicates.

What is iCleanup?

iCleanup, app for cleaning up iTunes library as an **iTunes duplicates cleaner** and **iTunes duplicate remover**.

Why iCleanup?

iTunes library always generates lots of duplicated tracks because of many reasons. Such as importing multiple files of same song with different file names or syncing with iPhone and iPod. Although, iTunes provides a way to show all duplicated tracks by choosing from menu "File->Display Duplicates", but this only can choose and delete track one by one. iCleanup is exactly made for doing such cleaning job automatically.

Delete duplicated tracks

When iCleanup runs, it communicates with iTunes and loads tracks information from iTunes library. Choose various filter conditions for sorting dupes after loading, then iCleanup will sorting tracks and displaying duplicates in groups. And auto check those tracks which could be deleted, simply click "Delete" to remove all the dupes.

Remove tracks without file

Some of the tracks maybe not available because of lost files. iCleanup can pick out these tracks and group them as checked for deletion.
