Release version **2012.06.06** is now available for download.

The free version now includes access to third-party VST™ Instruments. [Click here to see more changes.](#)

Anvil Studio™ is a free Windows 7 / Vista / XP program designed for people who want to:

- record music with MIDI and Audio equipment,
- compose music for MIDI and Audio equipment,
- print sheet music from standard MIDI files,
- sequence music with MIDI equipment, and
- play with music using a computer.

Version 2012 does not uninstall previous versions, so that versions 2012, 2011 and 2010 can run on the same computer.
