EncryptOnClick Freeware Version

Download [EncryptOnClick Freeware](#) and be secure in the knowledge your files will be kept private by powerful encryption technology.

EncryptOnClick

✓ EncryptOnClick is like hiring your own highly experienced data security guard who ensures the files you want to keep safe and out of view from others, stay that way.

License: Freeware

What EncryptOnClick can do

- ✓ A very secure encryption and decryption method is used (256-bit AES encryption).
- ✓ Files are both compressed & encrypted, which results in a smaller file.
- ✓ Password protected.
- ✓ Will encrypt single files or all files in a folder.
- ✓ Very simple to use interface.
- ✓ Can be used on a USB key.
- ✓ Fully Unicode enabled so filenames in any language can be encrypted.
- ✓ Fits on a floppy disk.
- ✓ EncryptOnClick will encrypt, decrypt, compress, and uncompress files which can also be opened and decrypted using third party programs like WinZip 9 (provided the correct password is used).
- ✓ Fully compatible with all of the encryption methods used by [SyncbackSE](#) and [SyncBackPro](#).

Program Controls, Options, and Features

- ✓ Will detect if you're decrypting a file that is in a temporary folder, and if so will prompt you to see if you would like to decrypt it into a different folder.
- ✓ Command line parameters can be used.
- ✓ Complete help file. Free technical support for OnClick Utilities commercial licensees, online forums, knowledge base, and FAQs.
