### ScrambleOnClick

✓ ScrambleOnClick works with email, and any Windows program where text is editable. For example text editors, word processing documents, spreadsheets, and many more.

#### What ScrambleOnClick can do

- ✓ Encrypt any text quickly and easily using military grade encryption.
- ✓ Decrypt text which has been encrypted using ScrambleOnClick.
- ✓ View the clipboard at any time.
- ✓ Securely wipe the clipboard with a simple key stroke.
- ✓ Use with any email program as well as document programs like Word.
- ✓ Encrypt and Decrypt using either a keyboard shortcut, or via the ScrambleOnClick Tray menu.
- ✓ Evaluation version available for testing.

#### Program Controls, Options, and Features

- ✓ Use the keyboard or ScrambleOnClick menu to encrypt or decrypt text.
- ✓ An Encryption Keys Manager allows you to define different keys for friends, colleagues, business etc.
- ✓ Start with Windows Logon.
- ✓ The Master Password protects other people from using the Encryption Keys that you define.
- ✓ Option to split the encrypted text into definable lengths of text. Great for email.
- ✓ The keyboard Ctrl-C key press delay can be changed from 500 ms (half a second) to a second.
- ✓ Password hints help you remember the password you have saved.
- ✓ Complete help file. Free technical support for OnClick Utilities commercial licensees, online forums, knowledge base, and FAQs.
