## Download

Our programs are distributed as "shareware". The very concept of shareware distribution is to provide you with software so you can "try before you buy", and the effort of its developers will be rewarded, too. When you think about it, the opportunity to try before you buy is the ultimate guarantee that the product will be useful and of high quality. When you support a shareware distributor, you support this very concept. Thank you for understanding it.

## Antispy software

### PrivacyKeyboard

#### Information for download:

Version	10.3.3
Supported OS	Windows 7/Vista/XP, Windows Server 2008/2003
Language	English, French, German, Chinese, Russian, Ukrainian
Size	6530279
