Trillian is the best chat client for your desktop and phone.

Interoperable

Friends in different places? Trillian has you covered with diverse chat service support.

Keep chatting

Start a chat on the desktop. Stand up and continue chatting on your phone - magic!

Social portal

Use Trillian to update Facebook, Twitter, LinkedIn, and Foursquare at the same time.

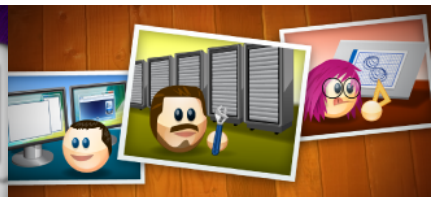

Simple and fast

Trillian focuses on speed and a low memory footprint, and is always built using technology native to the operating system.

Broad support for devices

Between desktops, mobile phones, tablets, and the web, easily take Trillian with you everywhere you go!

100% homegrown

Built with pride by the same small team for over 10 years, our mission is to connect the world through chat.

"Awesome." "Polished." "A must-have."

"Well this is rather awesome. Cerulean Studios may have just become the first company in the world to implement ... the Continuous Client."

"Trillian for Android is already the best IM client out there ... and now you can get the same polished ... IM client on your Android phone."

"Cerulean is delivering something truly unique It neatly fixed one of my biggest gripes with instant messaging and has made Trillian a must-have for me across all devices."
