About

iTunes Password Decryptor is the FREE software to instantly recover **Apple iTunes** account password from popular web browsers.

Almost all the browsers have **password manager** functionality that stores the login passwords (including Apple iTunes) for all the visited websites so that user don't have to enter the password every time. Each of them use their own storage format and proprietary encryption mechanism to securely store these login passwords.

iTunes Password Decryptor automatically crawls through each of these browsers and instantly recovers all the stored Apple iTunes passwords.

It presents both GUI interface as well as command line version, the later is more helpful for **Penetration** testers in their work. Apart from normal users who can use it to recover their lost password, it can come in handy for **Forensic** officials who can get hold of any stored Apple iTunes passwords.

It works on most of the Windows platforms starting from Windows XP to latest operating system, **Windows 8**.

Features:

It supports recovery of Apple iTunes password from these browsers

- ▶ **Firefox**
- ▶ **Internet Explorer**
- ▶ **Google Chrome**
- ▶ **Opera**
- ▶ **Apple Safari**
- ▶ **Flock Browser**

Here are the main features

- ▶ Instantly decrypt and recover stored encrypted Apple iTunes account passwords from popular web browsers.
- ▶ Comes with both **GUI interface** as well as **Command-line** version.
- ▶ Recover password of **any length and complexity**.
- ▶ **Sort** feature to arrange the recovered passwords in various order to make it easier to search through 100's of entries.
- ▶ Save the recovered password list to **HTML/XML/TEXT file**
- ▶ Easier and faster to use with its enhanced user friendly GUI interface.
- ▶ Integrated **Installer** for local Installation & Uninstallation of Software.

Installation & Uninstallation

It comes with simple Instaler that helps you to install it locally on your system for regular usage. It has intuitive setup wizard which guides you through series of steps in completion of installation.

At any point of time, you can uninstall the product using the **Uninstaller** located at following location (by default)

```
[Windows 32 bit]
C:\Program Files\SecurityXploded\iTunesPasswordDecryptor

[Windows 64 bit]
C:\Program Files (x86)\SecurityXploded\iTunesPasswordDecryptor
```

How to Use?

iTunesPasswordDecryptor is easy to use with its simple GUI interface.

Here are the brief usage details

Using GUI Version

- ▶ Launch iTunesPasswordDecryptor on your system
- ▶ Next click on '**Start Recovery**' button and all stored Apple iTunes account passwords from various applications will be recovered & displayed as shown in screenshot 1 below.
- ▶ By default passwords are not shown for security reasons as it is sensitive data. However you can click on '**Show Password**' button at the bottom to view these passwords.
- ▶ Finally you can save all recovered password list to **HTML/XML/Text** file by clicking on 'Export' button and then select the type of file from the drop down box of 'Save File Dialog'.

Using Command-line Version

Here is the typical usage of command line version

```
iTunesPasswordDecryptor.exe "<output_file path>"
```
