About Windows Password Kracker

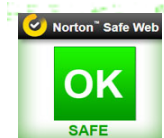

Windows Password Kracker is a free software to recover the lost or forgotten Windows password. It can quickly recover the original windows password from either **LM (LAN Manager)** or **NTLM (NT LAN Manager)** Hash.

Windows encrypts the login password using LM or NTLM hash algorithm. Since these are **one way hash algorithms** we cannot directly decrypt the hash to get back the original password. In such cases 'Windows Password Kracker' can help in recovering the windows password using the simple dictionary crack method.

Before that you need to dump the password hashes from live or remote windows system using **pwdump** tool. Then feed the hash (LM/NTLM) for the corresponding user into 'Windows Password Kracker' to recover the password for that user.

In **forensic** scenarios, investigator can dump the hashes from the **live/offline system** and then crack it using 'Windows Password Kracker' to recover the original password. This is very crucial as such a password can then be used to decrypt stored credentials as well as encrypted volumes on that system.

'Windows Password Kracker' uses simple & quicker Dictionary based password recovery technique. It repeatedly

generates LM/NTLM hash for each password in dictionary file and then compare it with input hash to check for the right password.

By default it comes with sample password file. However you can find good collection of password dictionaries (also called wordlist) [here](#) & [here](#).

Though it supports only **Dictionary Crack** method, you can easily use tools like [Crunch](#), [Cupp](#) to generate brute-force based or any custom password list file and then use it with 'Windows Password Kracker'.

It works on both **32 bit & 64 bit** windows systems starting from Windows XP to **Windows 8**.

Features

Here are the main features of Windows Password Kracker

- ▶ Free tool to quickly recover the Windows login password.
- ▶ Supports Windows password recovery from both LM & NTLM Hash.
- ▶ Uses simple dictionary crack method.
- ▶ Displays detailed statistics during Cracking operation
- ▶ Stop the password cracking operation any time.
- ▶ Very easy to use with cool GUI interface.
- ▶ Generate Windows Password Recovery report in HTML/XML/TEXT format.
- ▶ Includes Installer for local Installation & Uninstallation.

Installation & Un-Installation

Windows Password Kracker comes with Installer to help in local installation & un-installation. This installer has intuitive wizard which guides you through series of steps in completion of installation.

At any point of time, you can uninstall the product using the **Uninstaller** located at following location (by default)

```
[Windows 32 bit]
C:\Program Files\SecurityXploded\WindowsPasswordKracker

[Windows 64 bit]
C:\Program Files (x86)\SecurityXploded\WindowsPasswordKracker
```

How to use Windows Password Kracker?

It is very easy to use tool for any generation of users.

Here are simple steps

- ▶ Install 'Windows Password Kracker' on any system (preferably faster high end systems).
- ▶ Use **pwdump** tool to recover the password hashes from live or offline windows system. Sample output will be as shown below

```
Administrator:500:D702A1D01B6BC2418112333D93DFBB4C:C8DBB1CFF1970C9E3EC44EBE2BA7CCBC:::
ASPNET:1001:359E64F7361B678C283B72844ABF5707:49B784EF1E7AE06953E7A4D37A3E9529:::
Guest:501:NO PASSWORD*****:NO PASSWORD*****:
Test:1002:D702A1D01B6BC2418112333D93DFBB4C:C8DBB1CFF1970C9E3EC44EBE2BA7CCBC:::
```

Each dumped user account is in following format

```
Username : User ID : LM hash : NTLM Hash :::
```

On newer operating systems (such as vista, win7 etc) **LM hash will be absent** as it is disabled by default.
