Description

AirSnort is a wireless LAN (WLAN) tool which cracks encryption keys on 802.11b WEP networks. AirSnort operates by passively monitoring transmissions, computing the encryption key when enough packets have been gathered.

darrenjoh

Are any updates coming?

Posted 05/25/2012

verojone

Not working on Windows vista x64

Posted 05/26/2012

theirchild

Awesome tool, installed it on my VPS and have no need to login over ssh again

Posted 11/07/2012

mshealthydiet

This is surely one of the best open source projects.
