Publisher's Description

From [LeizerSoft](#):

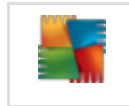

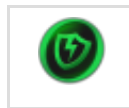

9Locker offers a new and fun way for you to lock your computer. Before using 9Locker, you have to define your lock pattern. The next time you will see the lock screen, You trace your mouse in the pattern you drew before and your computer will unlock. Any other pattern and in any other order will not unlock the computer. 9Locker can lock the whole computer. 9Locker allowing you to pick custom images for the lock screen. 9Locker allows you to set an alert mode when the incorrect pattern has entered a maximum time. If you want to lock your computer as lock a touch Smartphone, Please use 9Locker. It is really awesome! Features : mail notifications, webcam intruder capture, alarm sound, touch screen support, multi-screen support.

"Lock your desktop like your mobile phone"

August 22, 2013 | By [royleizer](#)

Version: 9Locker 1.0

Pros

- * Advanced Desktop Security
- * Easy way to lock your computer.
- * Send email on fail logon [optional].
- * Use webcam to send a video attachment of the burglar to your email.
- * Change pattern-lock background : Image / Color.

Cons

you can use this software 30 uses.

Summary

If you are a Samsung Smartphone user, you are probably aware with the lock pattern present on most recent versions. By configuring a specific pattern and by connecting certain dots with the help of multiple lines, you are able to safely unlock the phone. This security method makes the regular password obsolete, as you will just need to remember the lock pattern combination. But what if you could use this security method on your computer. Now you can with the help of 9Locker.
